# FINAL FISCAL NOTE

**Bill Topic:** EXTEND CREDIT FOR OUT-OF-STATE TOBACCO SALES

<b>Summary of Fiscal Impact:</b>	<input checked="" type="checkbox"/> State Revenue <input checked="" type="checkbox"/> State Expenditure <input type="checkbox"/> State Transfer	<input checked="" type="checkbox"/> TABOR Refund <input checked="" type="checkbox"/> Local Government ( <i>minimal</i> ) <input type="checkbox"/> Statutory Public Entity
--------------------------------------	---	---

This bill would have changed the tax treatment of non-cigarette tobacco products that are sold out of state, returned, or destroyed. It would have required one-time implementation expenditures and reduced state and local government revenue on an ongoing basis.

**Appropriation Summary:** For FY 2017-18, the bill would have required a General Fund appropriation of \$39,039 to the Department of Revenue.

**Fiscal Note Status:** This fiscal note reflects the enrolled bill. This bill did not become law; therefore, the impacts identified in this analysis do not take effect.

**Table 1**  
**State Fiscal Impacts Under SB 18-179**

		FY 2017-18 <i>current year</i>	FY 2018-19	FY 2019-20
<b>Revenue</b>	General Fund	-	(at least \$7,500)	(at least \$7,500)
	Cash Funds	-	(at least \$7,500)	(at least \$7,500)
	<b>Total</b>	<b>-</b>	<b>(at least \$15,000)</b>	<b>(at least \$15,000)</b>
<b>Expenditures</b>	General Fund	\$39,039	-	-
	Centrally Appropriated	\$4,004	-	-
	<b>Total</b>	<b>\$43,043</b>	<b>-</b>	<b>-</b>
	<b>Total FTE</b>	<b>0.2 FTE</b>	<b>-</b>	<b>-</b>
<b>Transfers</b>		-	-	-
<b>TABOR Refund</b>		-	(at least \$7,500)	(at least \$7,500)

## **Summary of Legislation**

This bill changes the tax treatment of tobacco products that are sold to out-of-state retailers or consumers, returned to the manufacturer, or destroyed. Under current law, these products are subject to an excise tax when they are brought into the state, and the entire amount of the tax paid is allowed as a refundable tax credit when the product is shipped out-of-state, returned, or destroyed. This bill repeals these credits and instead allows an equivalent adjustment to the quantity of purchased tobacco on which the tax is paid.

The bill also amends record keeping requirements for tobacco distributors. Under current law, distributors are not required to keep records of sales to any end consumer. The bill requires distributors to keep records of sales to out-of-state end consumers only.

## **Background**

**Tobacco tax.** Non-cigarette tobacco products are subject to an excise tax equal to 40 percent of the manufacturer's list price. Examples of non-cigarette tobacco products include cigars, chewing tobacco, and loose tobacco used for roll-your-own cigarettes. The tax is assessed at the time when tobacco products are brought into the state and is remitted by distributors to the Department of Revenue.

Half of the tobacco excise tax is deposited in the General Fund and is available for annual appropriation at the discretion of the General Assembly. Pursuant to Amendment 35, the other half of tobacco excise tax revenue is deposited in the Tobacco Tax Cash Fund and disbursed as follows:

- 46 percent to the Department of Health Care Policy and Financing (HCPF) for the Children's Basic Health Plan and Medicaid;
- 19 percent to HCPF for comprehensive primary care;
- 16 percent to the Department of Public Health and Environment (CDPHE) for tobacco education programs;
- 16 percent to CDPHE for cancer, cardiovascular, and pulmonary programs; and
- 3 percent to state and local governments.

Only the General Fund share of the tobacco excise tax is subject to TABOR.

**Current law credits.** Credits for tobacco that is sold to out-of-state retailers, returned to the manufacturer, or destroyed are permanently authorized in law. The credit for tobacco sold to out-of-state consumers has been available since September 1, 2015, and is set to expire on September 1, 2018.

## **State Revenue**

This bill is estimated to reduce state revenue by at least \$15,000 in FY 2018-19 and subsequent years. The bill is expected to reduce General Fund and Tobacco Tax Cash Fund revenue in equal amounts, reducing Tobacco Tax Cash Fund disbursements as shown in Table 2. The estimates for FY 2018-19 assume that the tax policy change will take effect on July 1, 2018.

**Assumptions.** Changing these tax expenditures from credits to deductions is not expected to affect the tax benefit available to taxpayers. Timing of revenue impacts may shift within fiscal years, but the net revenue impact across fiscal years is expected to be minimal.

The bill is assumed to reduce state revenue because it extends the tax expenditure for sales to out-of-state consumers beyond its current repeal date. Data on actual amounts of this tax credit claimed for 2016 and 2017 cannot be disclosed because a majority of the credit amount is claimed by fewer than five taxpayers. The estimates in this fiscal note reflect credit information provided for earlier tax years, grown by the March 2018 forecast for tobacco tax revenue. This amount is assumed to reflect credits claimed by small tobacco distributors who will continue to sell tobacco products to out-of-state consumers regardless of whether the credit is available. Extension of the credit reduces the tax liability for these taxpayers, thereby reducing state revenue.

**Table 2**  
**Revenue Disbursements Under SB 18-179**

<b>Revenue Disbursements</b>	<b>FY 2018-19</b>	<b>FY 2019-20</b>
<b>General Fund</b>	<b>(\$7,500)</b>	<b>(\$7,500)</b>
<b>Tobacco Tax Cash Fund</b>		
HCPF - Children's Basic Health Plan and Medicaid	(\$3,450)	(\$3,450)
HCPF - Comprehensive Primary Care	(\$1,425)	(\$1,425)
CDPHE - Tobacco Education Programs	(\$1,200)	(\$1,200)
CDPHE - Cancer, Cardiovascular, and Pulmonary	(\$1,200)	(\$1,200)
State and Local Governments	(\$225)	(\$225)
<b>Tobacco Tax Cash Fund (Subtotal)</b>	<b>(\$7,500)</b>	<b>(\$7,500)</b>
<b>Total</b>	<b>(\$15,000)</b>	<b>(\$15,000)</b>

Based on information provided from an industry representative, large tobacco distributors are estimated to claim tax credits worth up to \$450,000 per year for sales to out-of-state consumers. Historical tax data indicate that these business operations did not occur in Colorado until the current law credit was authorized in House Bill 15-1301. Because the large tobacco distributors claiming the credit under current law are national companies with a business presence in several states, this fiscal note assumes that out-of-state order fulfillment will no longer occur in Colorado should the credit become unavailable, either because business operations will be relocated elsewhere or because consumers will choose to pay lower prices by purchasing products from other distributors. To the extent that these operations will continue without the passage of this bill, this bill's revenue impact is greater than estimated.

**Disbursements.** The disbursement amounts in Table 2 represent the constitutional and statutory distributions of tobacco tax revenue. Because disbursed funds are subject to annual appropriation, this bill is assumed not to directly impact expenditures for programs funded with tax revenue but to reduce the amount available for expenditure in FY 2018-19 and subsequent years.

**TABOR Impact**

This bill reduces General Fund revenue from the tobacco tax, which will reduce the amount of money required to be refunded under TABOR by at least \$7,500 in FY 2018-19 and FY 2019-20. Reducing Amendment 35 tobacco tax revenue to the Tobacco Tax Cash Fund has no TABOR impact as the Amendment 35 tax is exempt from TABOR as a voter-approved revenue change.

Since the bill reduces revenue to the General Fund and the refund obligation by equal amounts, there is no net impact on the amount of money available in the General Fund for the budget. However, the bill will reduce money for the General Fund budget in the future during years when the state does not collect revenue above the TABOR limit.

State revenue subject to TABOR is not estimated for years beyond FY 2019-20.

**State Expenditures**

This bill is expected to increase state expenditures by \$43,043 and 0.2 FTE in the current FY 2017-18 only. Expenditures are summarized in Table 3 and described below.

**Table 3**  
**Expenditures Under SB 18-179**

Cost Components	FY 2017-18	FY 2018-19	FY 2019-20
<b>Department of Revenue</b>			
Personal Services	\$14,999	-	-
Computer Programming and Testing	\$22,840	-	-
Tax Form Change	\$1,200	-	-
Centrally Appropriated Costs*	\$4,004	-	-
<b>Total</b>	<b>\$43,043</b>	-	-
<b>Total FTE</b>	<b>0.2 FTE</b>	-	-

\* Centrally appropriated costs are not included in the bill's appropriation.

**Personal services.** The Department of Revenue will require 0.2 FTE in the current FY 2017-18 only, based on the bill's effective date. The bill will increase workload in the department's Office of Research and Analysis to eliminate the current law tobacco tax credits for sales to out-of-state retailers and consumers, returns to manufacturers, and destroyed products, and to create deductions for these products. The tax expenditures will need to be mapped to new reports and tested for accuracy.

**Computer programming and testing.** This bill requires changes to the department's GenTax software system. Changes are programmed by a contractor at a rate of \$250 per hour. The changes in this bill are expected to increase General Fund expenditures by \$19,000, representing 76 hours of programming. All GenTax programming changes are tested by department staff. Testing for this bill will require the expenditures for contract personnel totaling \$3,840, representing 160 hours of testing at a rate of \$24 per hour.

**Tax form change.** This bill requires changes to one tax form at a cost of \$1,200. Tax form changes are completed in the Department of Personnel and Administration and paid for using reappropriated Department of Revenue funds.

**Rulemaking.** This bill requires changes to department rules that can be accomplished within existing appropriations during the normal rulemaking process.

**Centrally appropriated costs.** Pursuant to a Joint Budget Committee policy, certain costs associated with this bill are addressed through the annual budget process and centrally appropriated in the Long Bill or supplemental appropriations bills, rather than in this bill. These costs, which include employee insurance, supplemental employee retirement payments, and leased space, are estimated to be \$4,004 in the current FY 2017-18 only.

## **Local Government**

This bill reduces tobacco tax disbursements to counties and municipalities by a minimal amount. Counties and municipalities receive less than 1 percent of Amendment 35 tobacco tax revenue.

## **Effective Date**

The bill was vetoed by the Governor on June 1, 2018.

## **State Appropriations**

For FY 2017-18, the bill requires and includes a General Fund appropriation of \$39,039 to the Department of Revenue with an allocation of 0.2 FTE. From this amount, \$1,200 should be reappropriated to the Department of Personnel and Administration.
