## Description of Incremental Changes

**Move lease purchase payments to operating budget:** The bill moves \$20.3 million of General Fund lease purchase payments (certificates of participation) that were previously appropriated in the capital construction section of the Long Bill into the operating budget.

**Annualize prior year budget actions:** The bill includes \$11.4 million total funds for a number of changes that are due to the out year impact of funding decisions made through the FY 2014-15 Long Bill including:

- Annualization of the FY 2014-15 salary survey and merit pay;
- Funding for Prison Rape Elimination Act compliance;
- Additional parole board staff; and
- Providing ID's to all discharged offenders.

**External capacity caseload:** The bill includes an increase of \$8.5 million General Fund to accommodate an increasing number of offenders in jails, private prisons, and "community return to custody" facilities (halfway houses for parolees who have had their parole temporarily revoked).

**Pharmaceutical and external medical costs:** The bill increases by \$4.2 million General Fund the appropriation for pharmaceuticals and for the "external" expense of taking offenders to outside providers for medical care that cannot be provided by the Department's clinical staff. The increase reflects the expected increase in the offender population and the rising cost per offender of pharmaceuticals and external medical care.

**Earned time savings from H.B. 12-1223:** The bill appropriates \$3.3 million General Fund to the Department for inmate education and parole wraparound services. This equals the most recent savings generated by H.B. 12-1223 (Earned Time), a bill that gave offenders increased incentives to be well behaved and abide by Department of Corrections rules and accumulate earned time, thus shortening their stay in Department facilities. House Bill 12-1223 directed the resulting savings to inmate education and parole wraparound services.

**Centrally appropriated line items:** The bill includes adjustments of \$3.1 million total funds to centrally appropriated line items for the following: state contributions for health, life, and dental benefits; merit pay; salary survey; short-term disability; supplemental state contributions to the Public Employees' Retirement Association (PERA) pension fund; shift differential; vehicle lease payments; workers' compensation; legal services; payment to risk management and property funds; Capitol complex leased space; and payments to the Governor's Office of Information Technology (OIT); and CORE operations.

**Community provider rate:** The bill includes an increase of \$2.2 million General Fund for a 1.7 percent community provider rate increase for private prisons, jails, and external providers of various clinical services.

**Radio replacement plan:** The bill increases the General Fund operating appropriation for the Superintendents Subprogram by \$1.9 million to begin an ongoing seven year plan that would replace over 3,000 radios. The bill also funds battery replacement.

**Mental health staffing:** The bill increases the FY 2015-16 General Fund appropriation by \$1.7 million General Fund and 22.9 FTE to: (1) provide more mental health staff and more corrections officers for the San Carlos Correctional Facility and (2) provide more mental health staff for the Denver Women's Correctional Facility. San Carlos houses male offenders with major mental health needs, as well as some offenders with developmental disabilities.

**Inmate pay:** The bill provides \$842,130 total funds (including \$300,000 General Fund) for pay increases for inmates. The average offender with a full-time assignment who is not in Correctional Industries is now paid 66¢ per day and this increase will raise that pay by 12¢ daily. Offenders in Correctional Industries and the Canteen are paid at higher rates.

**Maintenance operating increase:** The bill includes an \$834,175 General Fund increase for maintenance to meet the demands of aging facilities and equipment, including \$134,175 to be paid to the Colorado Mental Health Institute at Pueblo for maintenance expenses.

**Annualize prior year legislation:** The bill includes an increase of \$644,641 General Fund to reflect the second year impact of H.B. 14-1355 (Reentry Programs for Adult Parolees, \$571,875) and S.B. 14-064 (Isolated Confinement for Mental Illness, \$72,766).

**Food service equipment and inflation:** The bill increases by \$587,608 the General Fund appropriation for food-related costs. The bill includes: (1) \$345,000 for the increased cost of the raw goods needed for food preparation; (2) \$200,000 for replacement of aging food service equipment; and (3) \$42,608 to increase the Department's payment for meals purchased from the Colorado Mental Health Institute at Pueblo (CMHIP), which is part of the Department of Human Services. CMHIP prepares the meals for the La Vista Correctional Facility, the San Carlos Correctional Facility and the Youthful Offender System main facility, which are all located on the CMHIP campus.

**Leap day adjustment:** The bill includes funding for the leap day that will occur in 2016. Private prisons, jails, and the community corrections facilities that house some of the State's revoked parolees are paid on a per offender per day basis; a leap day requires an extra day of payments.

**Buena Vista wastewater:** The bill increases the Department's utilities appropriation by \$225,924 General Fund in order to pay increased wastewater charges at the Buena Vista Correctional Complex.

**Transportation operating expenses:** The bill increases the General Fund appropriation for Transportation Subprogram operating expenditures by \$148,744.

**Indirect cost assessment:** The bill includes a net increase of \$78,117 total funds of the department's indirect cost assessments.

**Adjustment for funding already in 5-year sentencing bills:** The appropriation in the bill is reduced by \$249,731 General Fund to reflect funding that is already in 5-year sentencing bills that were passed in previous years.

**Payments to District Attorneys:** The bill reduces by \$18,024 General Fund reimbursements to District Attorneys for the prosecution of crimes that occur in correctional facilities within their judicial districts, which reflects the expected decline of these expenditures in FY 2015-16.

**Management:** The Management Division contains the main departmental management functions including the Executive Director's Office, the External Capacity Subprogram, and the Inspector General Subprogram. The Executive Director's Office provides general administrative oversight for the Department. The External Capacity Subprogram is used to reimburse private prisons, local jails, the pre-release parole revocation facility, and community programs created pursuant to S.B. 03-252. ## Description of Incremental Changes

**Long Bill supplemental:** The bill reduces the FY 2014-15 appropriation for the Child Nutrition School Lunch Protection Program by \$141,471 General Fund to align with a statutory cap on appropriations for the program. The bill also includes an adjustment to the FY 2014-15 appropriation for the State Share of Districts' Total Program Funding to accurately reflect the portion of the appropriation that is from the General Fund Exempt Account based on the Legislative Council Staff March 2015 revenue forecast.

**Total program increase:** The bill includes a net increase of \$138.0 million total funds (including an increase of \$183.8 million General Fund that is partially offset by a decrease of \$45.8 million cash funds) for school finance. The bill includes increases of \$137.7 million total funds for the State Share of Districts' Total Program line item and \$0.3 million cash funds from the State Education Fund for the Hold-harmless Full-day Kindergarten Funding line item. Pursuant to current law, the increase is sufficient to maintain the negative factor at a constant dollar amount (\$880.2 million) in FY 2015-16.

**Annualize prior year legislation:** The bill includes an increase of \$23.0 million total funds for the second or third year impact of legislation. Major adjustments include:

- An increase of \$15.1 million federal funds associated with H.B. 13-1006 (Breakfast After the Bell); and

**Categorical programs increase:** The bill includes an increase of \$7.8 million cash funds from the State Education Fund in order to increase total categorical spending from state funds by 2.8 percent, based on the rate of inflation from CY 2014. The General Assembly is constitutionally required to increase *total state funding* for all categorical programs (in aggregate) by at least the rate of inflation in FY 2015-16. The bill allocates the additional funds among the following six categorical programs:

- \$4.3 million for special education for children with disabilities;
- \$1.4 million for English Language proficiency programs;
- \$1.4 million for public school transportation;
- \$0.5 million for vocational education;
- \$0.2 million for educational services for gifted and talented children; and
- \$0.1 million for small attendance center aid.

**BEST cash grant adjustment:** The bill includes an increase of \$5.0 million cash funds from the Public School Capital Construction Assistance Fund to support cash grants to be awarded by the Building Excellent Schools Today (BEST) Program in FY 2015-16.

**BEST statewide priority assessment:** The bill includes an increase of \$3.2 million cash funds from the Public School Capital Construction Assistance Fund and 6.0 FTE to reconfigure the Building Excellent Schools Today (BEST) priority assessment database and provide additional assistance to schools and school districts applying for funding from the BEST program in response to a September 2013 performance audit. This amount includes the following increases: \$2.7 million in one-time funding (FY 2015-16 only) to support a contract to reconfigure the priority assessment database and train BEST program staff in facility assessment; and \$0.5 million and 6.0 FTE to allow the program to hire a team of assessors to continuously update the statewide assessment on an ongoing basis.

**Centrally appropriated line items:** The bill includes adjustments to centrally appropriated line items for the following: state contributions for health, life, and dental benefits; merit pay; salary survey; short-term disability; supplemental state contributions to the Public Employees' Retirement Association (PERA) pension fund; shift differential; vehicle lease payments; workers' compensation; legal services; administrative law judges; payment to risk management and property funds; leased space; Capitol complex leased space; and payments to the Governor's Office of Information Technology (OIT); and CORE operations.

**CSDB strategic plan implementation:** The bill includes an increase of \$0.9 million total funds (including \$0.8 million General Fund) and 11.5 FTE for the Colorado School for the Deaf and the Blind (CSDB) to enhance school services in accordance with the school's strategic plan. This amount includes three major components:

- \$0.3 million and 5.9 FTE to extend the CSDB school year by 10 days (this component does not include new staff but reflects increased work time for the existing staff);
- \$0.3 million and 5.6 FTE to allow the school to hire additional staff, primarily focused on outreach services provided to school districts; and
- \$0.3 million for increased operating expenses.

## Department of Health Care Policy and Financing

**Department Description:** The Department of Health Care Policy and Financing provides health care services through four major programs: (1) the State's Medicaid medical and mental health programs; (2) the Colorado Indigent Care program (CICP); (3) the Children's Basic Health Plan (CHP+); and (4) the Old Age Pensioner Medical program. In addition to these programs, the Department also administers the Primary Care Fund Program to increase access to health care services for medically under-served populations or areas.

**MMIS adjustments:** The bill includes \$19.0 million, including \$3.2 million General Fund, to address unanticipated costs associated with the development of the new Medicaid Management Information System (MMIS) initially approved during the supplemental. In total, the project modification adds \$31.1 million from FY 2014-15 through FY 2016-17, including \$4.4 million General Fund. Of the General Fund cost over the three years, approximately \$2.6 million is driven by the need to extend the current MMIS contract and another \$2.2 million is driven by an underestimate of the cost of commercial off-the-shelf software used for the Pharmacy Benefits Management System and the Business Intelligence and Data Management analytical tools. These General Fund costs are offset by some roll-forwards from previous years. For the rest of the work, the Department receives a 90 percent federal match and the General Fund share of costs is relatively small.

**Annualize prior year legislation:** The bill includes the following annualizations of prior year legislation:

The annualizations for S.B. 13-200 shown above are related to administrative costs. Costs for the expansion populations authorized by S.B. 13-200 are included in the Enrollment/utilization trends amounts.

**Human Services programs:** The bill includes \$3.3 million, including \$1.4 million General Fund, for programs administered by the Department of Human Services. See the narrative for the Department of Human Services for more detail.

**Rural residency slots:** The bill includes \$2.7 million, including \$1.4 million General Fund, for five additional family medicine residency placements in rural communities.

**Centrally appropriated line items:** The bill includes adjustments to centrally appropriated line items for the following: state contributions for health, life, and dental benefits; merit pay; salary survey; short-term disability; supplemental state contributions to the Public Employees' Retirement Association (PERA) pension fund; shift differential; vehicle lease payments; workers' compensation; legal services; administrative law judges; payment to risk management and property funds; Capitol complex leased space; payments to the Governor's Office of Information Technology (OIT); and CORE operations.

**Customer service center:** The bill provides \$2.0 million, including \$661,840 General Fund, for the Department to hire 25 additional staff (20.8 FTE in the first year) and pay the associated operating costs to address an increase in call volume experienced by the customer service center.

**CBMS funding simplification:** The bill includes \$1.3 million, including \$2.4 million General Fund, to align various sources of funding applicable to CBMS with the current cost allocation trends.

**Personal health records:** The bill includes \$772,570, including \$122,257 General Fund, to create a secure, centralized web portal through which Medicaid clients can access online health education materials, view their personal health records, and communicate securely with their providers.

**Person-centered planning rules and Olmstead:** The bill includes \$352,313, including \$138,657 General Fund, to annualize funding provided in FY 2014-15 to analyze new federal rules regarding person-centered planning for home and community based services and Colorado's response to the Olmstead decision.

**Community First Choice planning:** The bill provides \$314,041, including \$157,020 General Fund, and one new staff position (0.9 FTE in the first year) to manage the planning process and perform analysis related to the Community First Choice (CFC) option. The CFC is an option under the Affordable Care Act to include participant-directed waiver services in the Medicaid state plan. Adopting this option would make participant-directed services available to a broader population. It would also provide a six percentage point increase in the federal match for these services. The funding is intended to ensure that the General Assembly has the information necessary to decide whether to implement the CFC option, and in what form.

**Audits – managed care and Primary Care Fund:** The bill includes \$300,000, including \$150,000 General Fund, to audit the financial and encounter data submitted by managed care providers to ensure accuracy and consistency and to explore the use of medical loss ratios for managed care contracts, based on recommendations from the Government Accountability Office. Also included in the bill is a transfer from the Primary Care Fund to pay for audits necessary to distribute the grants appropriately.

**IT stability and security:** The bill includes \$267,129, including \$133,563 General Fund, to address stability and security issues with the DDDWeb application that is used for case management for clients with intellectual and developmental disabilities and the Business Utilization Services application that is used for case management of long term services and supports.

**ACC repurchase preparation:** The bill provides \$250,000, including \$125,000 General Fund, for consulting services in preparation for the repurchase of Regional Care Collaborative Organizations responsible for administering the Accountable Care Collaborative.

**Comprehensive primary care:** The bill includes \$84,952, including \$42,476 General Fund, for Medicaid's allocated share of the Comprehensive Primary Care initiative (CPCi) that connects payer information with health outcomes.

**Predictive analytics FTE:** The bill includes \$78,723, including \$7,873 General Fund, for one new staff position (0.9 FTE in the first year) to manage technology that identifies and prevents potentially fraudulent claims.

**Transfers to other departments:** The bill includes an increase of \$33,958 total funds for Medicaid appropriations transferred to other departments, including the Department of Public Health and Environment and the Department of Human Services.

**FMAP change:** The bill includes a reduction of General Fund and cash funds and an increase of federal Medicaid funds due to the increase in Colorado's Federal Medical Assistance Percentage (FMAP) rate on October 1, 2015. The average FMAP for state FY 2015-16 will 50.79 percent. Most of the General Fund difference is attributable to the Children's Basic Health Plan (CHP+) that receives a federal match rate derived from the FMAP. From October 1, 2015 through September 30, 2019 the federal match rate for CHP+ is scheduled to increase 23 percentage points, in addition to changing with the Medicaid FMAP, pursuant to the Affordable Care Act.

**Continuous eligibility financing:** The bill includes a decrease of \$42.7 million, including \$21.0 million General Fund, for a change in the way continuous eligibility for children is financed. Previously, of the children eligible for Medicaid based on continuous eligibility, an estimated portion that would have been eligible based on Transitional Medicaid were financed with General Fund. The new policy finances all children eligible based on continuous eligibility with the Hospital Provider Fee, consistent with statute. This reduces the amount of Hospital Provider Fee available for booster payments, thereby reducing the federal funds.

**Chronically acute long-stay clients:** The bill includes a decrease \$28,000,000 to better reflect anticipated expenditures for an intergovernmental agreement with Denver Health to finance nursing services as an alternative to hospitalization for chronically acute long-stay patients.

**Annualize prior year budget actions:** The bill includes annualizations for the following prior year budget actions:

**Marijuana tax revenue adjustment:** For this department, S.B. 14-215 included General Fund appropriations for two programs for FY 2014-15 and then transferred marijuana tax revenues to the General Fund to offset the costs of these programs. Based on the Legislative Council revenue forecast for the marijuana industry for FY 2015-16, the bill eliminates appropriations totaling \$5,282,463 including: (1) an appropriation of \$4,363,807 (including \$2,000,000 General Fund and \$2,363,807 federal funds) for school-based prevention and early intervention services provided by behavioral health organizations; and (2) a \$918,656 General Fund appropriation for the School-based Substance Abuse Prevention and Intervention Grant Program.

**Indirect cost adjustment:** The bill includes a net decrease in the Department's indirect cost assessment.

The largest change for Medical Services Premiums is an adjustment for enrollment and utilization trends based on the February 2015 forecast by the Department of Health Care Policy and Financing of expenditures under current eligibility and benefit policies. The total funds increase is primarily attributable to the eligibility expansions authorized in S.B. 13-200 and changes in booster payments financed from the Hospital Provider Fee. The General Fund increase is the result of enrollment growth. The tables beginning on the next page show the projected year over year changes in enrollment, expenditures, and per capita costs by detailed enrollment category. The bullets below highlight key factors contributing to the projected enrollment growth for populations with a significant effect on the expected General Fund expenditures.

- Children – The Department attributes the strong projected enrollment growth to two factors. First, the Department believes there is increased enrollment among people previously eligible but not enrolled (ENBE). The Department describes this as a "welcome mat" effect due to national attention on the ACA implementation and the individual mandate. Second, continuous eligibility for children locks clients into Medicaid eligibility for 12 months, even if their income changes. This was implemented March 2014 in conjunction with S.B. 13-200. Not only does Medicaid caseload have a lagged response to improvements in the economy, but as Medicaid clients experience these improvements, children will stay enrolled until they reach 12 months. This slows the rate at which clients leave Medicaid, which puts upward pressure on caseload.
- Parents/Caretakers to 68% FPL – Similar to children, the Department believes the "welcome mat" effect associated with the ACA implementation is contributing to strong enrollment growth. While there is no continuous eligibility for adults, there is Transitional Medicaid that allows qualifying adults to stay on Medicaid for up to 12 months following an increase in income. Not only does Medicaid caseload have a lagged response to improvements in the economy, but as Medicaid clients experience these improvements, parents/caretakers who qualify for Transitional Medicaid can stay enrolled until they reach 12 months. This slows the rate at which clients leave Medicaid.
- Individuals with Disabilities to 59 – According to the American Community Survey, the proportion of Colorado's population that is reported as having a disability is growing. In 2009, 9.4% of Colorado's population reported having a disability. By 2013, 10.1% of Colorado's population reported having a disability. The enrollment trends have been fairly steady, but small changes in enrollment drive significant changes in expenditures, due to the high base per capita costs for these clients.
- Adults 65+ to SSI – Colorado's population is aging, putting upward pressure on enrollment in this category. Although the rate of growth has been fairly steady, small changes in enrollment drive significant changes in expenditures, due to the high base per capita costs for these clients.

Below is a series of graphs that present the same information that was contained in the previous tables, but in a pictorial format to highlight the year over year changes in enrollment, expenditures, and per capita expenditures.

## Expenditure Changes FY 14-15 to FY 15-16

## Per Capita Expenditures

Rather than focusing on the year over year changes, the next several graphs focus on long-term trends and aggregate the data at a higher level.

The graph below summarizes projected changes in Medicaid enrollment, highlighting the population that is defined as "newly eligible" pursuant to the ACA and therefore eligible for a 100 percent federal match. The "CO Population Trendline" shows the projected trajectory of enrollment if Medicaid had grown at the same rate as Colorado's population since June 1996. Medicaid currently covers an estimated 20 percent of Colorado's population and HCPF is projecting that it will cover almost 25 percent by the end of FY 2016-17.

The next graph breaks the Medicaid enrollment into broad categories of children, adults, people with disabilities, and the elderly. Historically, most of the variability in enrollment trends is among children and adults. These populations are more sensitive to changes in the economy. The recent growth is primarily due to the Medicaid expansion authorized in S.B. 13-200. In addition to new eligibility criteria, there has been increased enrollment from among people previously eligible but not enrolled (ENBE). The Department describes this as a "welcome mat" effect due to national attention on the ACA implementation and the individual mandate.

The next graph shows trends in expenditures for medical services and long-term services and supports for the same four broad eligibility categories. For FY 2015-16, the elderly and disabled represent 12 percent of the projected enrollment, but 42 percent of the projected expenditures.

The next graph provides projected changes in per capita expenditures by enrollment category, not including booster payments/financing.

The table below summarizes the trends in booster payments/financing. Although this expenditure category includes some miscellaneous other financing mechanisms, it is primarily composed of booster payments to hospitals and nursing facilities that are financed with provider fees.

Most of the variability in this expenditure category is being driven by the hospital booster payments. According to the Department, the decrease in expenditures from FY 2012-13 to FY 2013-14, and then again to FY 2014-15, is attributable to two main factors. First, the Department is making audit adjustments for prior-year overpayments relative to the federal allowable limits on booster payments. These audit adjustments reduce both expenditures and the Hospital Provider Fee revenue collected. Second, the Hospital Provider Fee plan for FY 2013-14 intentionally paid less than the maximum allowable under the federal limits. The Department and hospitals negotiated the payments to be less than the federal limits based on increased scrutiny from the Centers for Medicare and Medicaid Services and an attempt to prevent the need for future audit adjustments. In FY 2015-16 expenditures are expected to increase dramatically due to the Medicaid expansion increasing the federal limits on booster payments. Some of the growth projected in FY 2015-16 should be occurring in FY 2014-15, but the Department is currently operating under an outdated Hospital Provider Fee plan that doesn't account for the Medicaid expansion, due to delays in CMS approval. The Department does not anticipate the new model taking effect until FY 2015-16.

**Behavioral Health Community Programs:** This Division provides for mental health and substance use disorder care through the purchase of services from five regional behavioral health organizations (BHOs), which manage behavioral health services for eligible Medicaid recipients in a capitated, risk-based model. This division also provides funding for Medicaid fee-for-service payments for behavioral health services provided to clients who are not enrolled in a BHO and for the provision of behavioral health services that are not covered by the BHO contract. Appropriations for FY 2014-15 reflect funding for a projected 1,130,436 Medicaid clients eligible for behavioral health services.

The largest change for this section is an adjustment based on the Department's February 2015 forecast of Medicaid enrollment and expenditures under current eligibility and benefit policies. The total funds increase is primarily attributable to the eligibility expansions authorized in S.B. 13-200. The changes to individual funding sources reflect the state matching requirements associated with various eligibility categories.

The enrollment changes that are described in detail above for the Medical Services Premiums section also apply to services that are funded in this section, with two exceptions. Two Medicaid populations that are eligible for certain medical benefits are not eligible for behavioral health services: (1) non-citizens; and (2) adults who are eligible for both Medicaid and Medicare but for whom the Medicaid benefit is limited to payment of Medicare premiums and co-insurance payments. The changes in expenditures per capita reflect projected changes in the "per-member-per-month" rates paid to each behavioral health organization (BHO) for each Medicaid eligibility category. These rates are adjusted annually based on client utilization and BHO expenditures.

The three tables below show the projected year over year changes in Medicaid enrollment, payments made to BHOs through the capitation program, and expenditures per capita by enrollment category.

### Description of Incremental Changes

**Long Bill supplemental:** The bill adjusts higher education tuition and fee revenue estimates and includes an adjustment to the portion of General Fund designated as General Fund Exempt.

**Increase for public colleges and universities:** The bill includes an increase of \$66.6 million General Fund (11.0 percent) for public institutions of higher education allocated through the new funding model authorized pursuant to H.B. 14-1319. All state governing boards receive increases of at least 10.0 percent, and some receive more. The bill restores state funding for the governing boards to about \$34 million short of the FY 2008-09 peak of \$706 million. The chart below shows the allocation of the funding by governing board.

Of the total allocations to the governing boards, \$294,582,047 is for student stipends for an estimated 130,925 student FTE attending state higher education institutions. The stipend rate (\$2,250 per student FTE) and estimated number of students is the same as the figures used in the FY 2014-15 appropriations. The balance of the funding is for fee-for-service contracts with state institutions, including \$116,133,797 for specialty education programs, including the medical school at the University of Colorado, the veterinary school and agricultural extension programs at Colorado State University, and grants allocated to local district junior colleges (Aims and Colorado Mountain College) and the area vocational schools.

**Tuition and fee adjustments:** The bill incorporates projected tuition and fee revenue for each institution, based on the Legislative Council Staff projection (for tuition) and institutional projections (for fee revenue). The table below summarizes the actual, estimated, and projected tuition and fee growth by institution. Consistent with the provisions of S.B. 14-001, undergraduate resident tuition increases are capped at 6.0 percent for FY 2014-15 and FY 2015-16. Tuition and fee revenue is shown for informational purposes only for FY 2014-15 and FY 2015-16.

**Move lease purchase payments to operating budget:** The bill moves lease purchase payment (certificates of participation) amounts that were previously appropriated in the capital construction section of the Long Bill into the operating budget.

**Increase need based financial aid:** The bill includes an increase of \$15.2 million to comply with Section 23-3.3-103, C.R.S., which requires increases in annual appropriations for student financial assistance at least consistent with increases for the governing boards.

**Colorado Opportunity Scholarship Initiative:** The bill includes an increase of \$4.0 million (and total funding of \$5.0 million) for the Colorado Opportunity Scholarship Initiative Fund (COSI) so that this initiative continues to provide grants at the same level as in FY 2014-15. The grants are for programs that assist students who might not otherwise pursue or be successful in college. The JBC is not recommending an increase at the level requested by the Executive (\$30.0 million) pending further evidence that the program is able to successfully attract private scholarship funds. House Bill 14-1384, which created COSI, specified the General Assembly's intent that state matching funds be used to stimulate private donations for scholarships.

**Colorado First/Existing Industry Job Training:** The bill includes an increase of \$1.8 million reappropriated funds for the Colorado First/Existing Industry Job Training program from funds transferred from the Governor's Office.

**Fort Lewis Native American Tuition Waiver:** The bill includes an increase of \$1.3 million General Fund for the Fort Lewis College Native American tuition waiver. This increase is mandated by Section 23-52-105 (1) (b) (I), C.R.S., which requires the General Assembly to fund 100 percent of the tuition obligations for qualifying Native American students attending Fort Lewis College.

**Centrally appropriated line items:** The bill includes adjustments to centrally appropriated line items for the following: state contributions for health, life, and dental benefits; short-term disability; supplemental state contributions to the Public Employees Retirement Association (PERA) pension fund; salary survey; merit pay; workers compensation; administrative law judges; payment to risk management and property funds; payments to OIT; CORE operations and leased space. Centrally appropriated line items in this department support the operations of the Colorado Commission on Higher Education, Department of Higher Education central offices, the Colorado Geological Survey at the Colorado School of Mines, and History Colorado but do not fund the higher education institutions.

**Auraria Higher Education Center adjustment:** The bill increases spending authority for the Auraria Higher Education Center (AHEC) for moneys received for operating costs from the three institutions that share the AHEC campus: the University of Colorado at Denver, Metropolitan State University of Denver, and the Community College of Denver.

**Alzheimer's disease center:** The bill includes an increase of \$250,000 General Fund for the new Alzheimer's disease center at the University of Colorado Health Sciences Center.

**Gaming cities Historical Fund revenue:** The bill includes an increase of \$500,000 for current projections of limited gaming revenues distributed to gaming cities for historic preservation consistent with constitutional requirements.

**Career and technical education:** The bill increases funding for career and technical education based on moneys transferred from the Department of Education.

**Department data and research personnel:** The bill adds funds to ensure consistent support for the Department's data and research unit.

**Geologic Hazard Mitigation FTE:** The bill adds \$105,494 and 1.0 FTE for geologic hazard mapping at the Colorado Geological Survey.

**Public colleges gaming revenue adjustment:** The bill adjusts amounts shown for informational purposes based on the FY 2013-14 actual gaming revenue received by two-year institutions from gaming revenue authorized pursuant to 2008 amendment 50 to the state constitution.

**Purchase Tableau software:** The bill adds \$40,000 General Fund to enable the Department to purchase the Tableau software used to operate the funding allocation model pursuant to H.B. 14-1319. This is a one-time amount that will annualize to \$6,000 in future years.

**Indirect cost and fund source adjustments:** The bill includes a decrease in reappropriated funds, offset by an increase in General Fund and cash funds.

**FTE adjustment:** The bill adjusts employee FTE shown in the Long Bill for each governing board to reflect the most recent estimates available (estimates for FY 2014-15), reflecting a net increase of 400.0 FTE. FTE figures are shown for informational purposes only.

**History Colorado reorganization:** The bill includes a reorganization of the History Colorado section of the Long Bill. This change has no net fiscal impact.

**Break-out line items:** The bill includes adjustments to break-out fee-for-service appropriations provided for specialty education programs and to separate line items for Colorado Mountain College and Aims Community College to align the appropriation structure with the requirements of Sections 23-18-303 and 304, C.R.S.

**General Fund Exempt adjustment:** The bill reduces General Fund appropriations by \$135,129,147 and increases General Fund Exempt appropriations by the same amount

**History Colorado budget reductions:** The bill reduces spending authority for limited gaming funds deposited to the State Historical Fund pursuant to Constitutional allocations, as well as amounts shown for informational purposes from the same source. There is insufficient revenue to support the current level of appropriations. The reductions include \$695,408 from line items that support the operation of History Colorado museums and facilities, including cuts of 11.5 percent from this fund source in most operating line items. The bill also includes a reduction of \$3,825,102 for State Historical Fund statewide preservation grants to better reflect funds anticipated to be available for new grants in FY 2015-16. Amounts for grants (unlike museum and administrative costs) are continuously appropriated and shown for informational purposes only.

**Tobacco Master Settlement revenue adjustment:** The bill includes a reduction based on the Legislative Council FY 2015-16 Tobacco Master Settlement revenue projection.

**Annualize prior year actions:** The bill includes a number of changes to the out year impact of funding decisions made through the FY 2014-15 Long Bill and new legislation including:

- Annualize one-time administrative funding in H.B. 14-1319 (Outcomes-based Funding for HED; reduce \$498,820 total funds, including a reduction of \$804,989 General Fund offset by an increase of \$306,169 reappropriated funds);
- Annualize funding for S.B. 14-175 (Prosecution Fellowship Program; add \$356,496 General Fund);
- Annualize FY 2014-15 salary survey and merit pay (reduce \$31,315 total funds);
- Annualize one-time supplemental adjustments for the CORE accounting system, payments to the Governor's Office of Information Technology, and administrative law judge services (reduce \$131,276 total funds, including \$99,473 General Fund); and
- Annualize FY 2014-15 funding for the Cumbres and Toltec Railroad (reduce \$15,000 cash funds).

**Federal funds adjustment:** The bill adjusts federal amounts shown for informational purposes.

At any of the 43 field and satellite offices located throughout the state, rehabilitation counselors work with clients to assess their needs and identify appropriate vocational rehabilitation services. The Division also administers state and federal grants to independent living centers working to enable individuals with disabilities to live independently and to programs that provide assistance to elderly blind individuals. The federal government provides reimbursement for 78.7 percent of eligible rehabilitation expenditures up to the total annual federal grant for Colorado. The matching funds for these federal dollars are either General Fund dollars or local government funds, primarily from school districts for the School to Work Alliance Program.

## Appropriation Detail by Long Bill Division

**Supreme Court/Court of Appeals:** This section provides funding for the Colorado Supreme Court and the Colorado Court of Appeals. The Supreme Court is the court of last resort, and its decisions are binding on the Court of Appeals and all county and district courts. Requests to review decisions of the Court of Appeals constitute the majority of the Supreme Court's filings. The Supreme Court also has direct appellate jurisdiction over cases in which a statute has been held to be unconstitutional, cases involving the Public Utilities Commission, writs of habeas corpus, cases involving adjudication of water rights, summary proceedings initiated under the Elections Code, and prosecutorial appeals concerning search and seizure questions in pending criminal proceedings. The Supreme Court also oversees the regulation of attorneys and the practice of law. The Supreme Court is composed of seven justices who serve renewable 10-year terms. The Chief Justice, selected by the justices of the Court, is the executive head of the Department.

Created by statute, the Court of Appeals is generally the first court to hear appeals of judgments and orders in criminal, juvenile, civil, domestic relations, and probate matters. The Court of Appeals also has initial jurisdiction to review actions and decisions of several state agencies, boards, and commissions. Its determination of an appeal is final unless the Colorado Supreme Court agrees to review the matter. The Court of Appeals is currently composed of 22 judges who serve renewable 8-year terms.

**Trial Courts:** State trial courts include district courts in 22 judicial districts, water courts, and county courts. District courts preside over felony criminal matters, civil claims, juvenile matters, probate, mental health, and divorce proceedings. In addition, district courts handle appeals from municipal and county courts, and review decisions of administrative boards and agencies. Within the district court system, the General Assembly has established seven water divisions, one for each river basin. Water courts have exclusive jurisdiction over cases involving the determination of water rights and the use and administration of water. The General Assembly establishes judicial districts and the number of judges for each district in statute; district court judges serve renewable six-year terms.

County courts have limited jurisdiction, handling civil actions involving no more than \$15,000, misdemeanor cases, civil and criminal traffic infractions, and felony complaints. County courts also issue search warrants and protection orders in cases involving domestic violence. In addition, county courts handle appeals from municipal courts. The General Assembly establishes the number of judges for each county in statute; these judges serve renewable four-year terms.

A breach of any imposed condition may result in revocation or modification of probation, or incarceration. Managed by the Chief Probation Officer in each judicial district, employees prepare assessments and provide pre-sentence investigation services to the courts, supervise adult and juvenile offenders sentenced to community programs, and provide notification and support services to victims.

These central appropriations reflect the same funding sources that support each section within the Department.

**Legal Services to State Agencies:** The Department provides legal services on a fee-for-service basis to state agencies and enterprises. This section includes appropriations for the attorneys, legal assistants, and support personnel who provide these services. In most cases, the appropriations in this section are reflected as reappropriated funds because a duplicate appropriation for the purchase of legal services appears in the client agency's budget. The cash funds appropriations reflect payments the Department receives from state agencies that are not duplicated in appropriations elsewhere in the budget. In FY 2015-16, the Department expects to provide 410,040 hours of legal services at an average hourly billing rate of \$95.01, a 4.0 percent decrease compared to the FY 2014-15 average billing rate. This decrease primarily reflects a one-time need to create a reserve for compensated absences in FY 2014-15, which is partially offset by increased costs for employee salaries and benefits and leased space costs at the Ralph L. Carr Colorado Judicial Center.

## Legislative Department

**Department Description:** The Legislative Department includes the elected officials of the House of Representatives and the Senate and the necessary staff to support them in their duties and responsibilities. The staff includes those assigned to both the House and the Senate; the State Auditor's Office; the Joint Budget Committee; the Legislative Council; the Office of Legislative Legal Services; and the Colorado Reapportionment Commission. The majority of the legislative appropriation is contained in a separate legislative appropriation bill. However, several specific line items are contained in the Long Bill. This narrative section only addresses the line items contained in the Long Bill.

An appropriation is required for the study to be conducted in FY 2015-16.

**Ballot analysis:** The bill includes an increase of \$25,000 General Fund for the costs associated with an analysis of measures on the ballot. Section 1 (7.5) of Article V of the State Constitution requires the nonpartisan research staff of the General Assembly to perform this function.

### Description of Incremental Changes

**Long Bill supplemental:** The bill adds funds for an economic development study in El Paso county.

**Federal funds adjustments:** The bill adjusts federal funds reflected for informational purposes based on amounts estimated to be received. This primarily reflects increases in the Division of Housing for increases for the Shelter Plus Care program and in amounts per Housing Choice Voucher (Section 8) rental vouchers due to rental cost increases. Increases are offset by declines related to phase out or reduction of programs that were temporarily created or expanded under the American Recovery and Reinvestment Act, including the Neighborhood Stabilization Program and the Community Development Block Grant (CDBG) program. Amounts shown do *not* include new CDBG disaster recovery funds awarded related to the September 2013 floods (over \$320 million, which will be spent over multiple years and is currently off-budget).

**Centrally appropriated line items:** The bill includes adjustments to centrally appropriated line items for the following: state contributions for health, life, and dental benefits; merit pay; salary survey; short-term disability;

supplemental state contributions to the Public Employees' Retirement Association (PERA) pension fund; shift differential; workers' compensation; legal services; payment to risk management and property funds; Capitol complex leased space; payments to the Governor's Office of Information Technology (OIT); and CORE operations.

**Colorado Main Street Program:** The bill includes \$462,500 reappropriated funds from Local Government Severance and Mineral Impact Funds to expand the Main Street program in order to meet growing statewide demand and support the need for downtown revitalization. The funds are for additional consulting resources and are expected to enable the program to serve an additional four communities each year, instead of the one or two that can currently be added annually.

**Adjust continuously appropriated cash funds and General Fund estimates:** The bill includes adjustments to anticipated spending for volunteer firefighter retirement benefits (increase \$405,247 General Fund to align with the Legislative Council Staff March 2015 economic forecast), limited gaming fund moneys (reduce \$100,000 cash funds), and Conservation Trust Fund lottery proceeds (reduce \$5,002) that are continuously appropriated to the Department and shown for informational purposes only.

**Improve statutory compliance:** The bill adds \$49,721 General Fund and 0.9 FTE in FY 2015-16 for Local Government Services staff to handle increased workload caused by the growth in the number of local governments. This amount will annualize to \$61,164 General Fund and 1.0 FTE for FY 2016-17.

**Indirect cost assessment:** The bill includes adjustments to anticipated indirect cost collections that offset General Fund otherwise required. The adjustments are consistent with the Department's agreement with the federal Department of Housing and Urban Development on such recoveries. Department-wide, the indirect cost plan reflects the use of \$2,216,351 in indirect cost recoveries in FY 2015-16, including \$175,592 anticipated to be from the Indirect Cost Excess Recoveries Fund.

**Manufactured Building Program break-out:** The bill breaks out this program into a separate line item in the Division of Housing (consistent with the structure prior to FY 2014-15).

**Annualize prior year legislation and budget actions:** The bill includes a number of changes to the out year impact of funding decisions made through the FY 2014-15 Long Bill and other legislation including:

- Annualize FY 2014-15 salary survey and merit pay (reduce \$21,729, including \$2,527 General Fund);
  - Eliminate one-time supplemental funding provided for the CORE accounting system and the Office of Information Technology in FY 2014-15 (reduce \$491,083, including \$288,662 General Fund);
  - Annualize FY 2014-15 requests for housing development grants (reduce \$1,275 General Fund and increase 0.3 FTE) and the Home Modification Program (increase \$8,257 Medicaid cash funds and 0.2 FTE);
  - Annualize FY 2014-15 Long Bill supplemental (reduce \$95,000 General Fund);
  - Reduce General Fund appropriations and increase cash funds appropriations pursuant to S.B. 13-146 (Board of Assessment Appeals Cash Fund; reduce \$69,748 General Fund and increase \$69,748 cash funds); and
  - Annualize the appropriation for S.B. 14-172 (Firefighter Heart and Circulatory Malfunction Benefit; increase \$148,778 total funds, including \$60,075 General Fund, and reduce 0.1 FTE).

**Office of Emergency Preparedness and Response:** The Office develops and implements emergency response plans to enable the Department to ensure the protection of health and the medical response for victims when an emergency occurs in Colorado. The Office works to ensure the Department, local public health, and medical agencies have plans for responding to emergency events and administering medication in mass quantities to all citizens in Colorado. Additional responsibilities of the Office include:

- Training of health and medical professionals on the latest and improved response protocols, including the National Incident Management System;
- Ensuring that public health and medical programs are integrated with law enforcement, the Division of Emergency Management and other state departments critical to the state's response;
- Providing emergency preparedness education and training to Department employees, medical and public health partners;
- Ensuring the rapid receipt, storage and distribution of the Strategic National Stockpile (SNS) supplies and medication during an emergency;
- Activation of the Department Emergency Operations Center (DOC) during emergency situations;
- Coordination and enhancement of the capacity of the Emergency System for Advance Registration of Volunteer Health Professionals. This enables the Colorado Hospital Preparedness Program to expand and integrate the Colorado Medical Reserve Corps to enable the preparation of volunteers for an all-hazards response; and
- Assisting individuals and communities during and recovering from natural and human-caused disasters.

The amount of federal dollars this Division receives is driven by formulas that are based in part on state population. If the state accepts the federal funds, the state must provide the required match amount.

**First Time Drunk Driving Offenders Account:** This line item provides funding for increased high visibility drunk driving enforcement events undertaken as part of "The Heat is On!" campaign. The General Assembly created the First Time Drunk Driving Offenders Account (FTDD) with the enactment of H.B. 08-1194. The account is funded with increased fees to reinstate drivers' licenses following drunk driving convictions and pays for a portion of "The Heat is On!" campaign. Prior to the enactment of H.B. 08-1194, the Department had overseen seven high visibility events per year. These events were funded out of DUI fines paid into the Law Enforcement Assistance Fund (LEAF) for the Prevention of Drunken Driving created in Section 43-4-401, C.R.S. House Bill 08-1194 directed the Department to oversee a total of 12 high visibility events per year and created FTDD to pay for this expansion. FTDD funds are subject to annual appropriation by the General Assembly.

The enterprise has the authority to issue revenue bonds and borrow funds from the Transportation Commission. The section can maintain enterprise status as long as it retains the authority to issue revenue bonds and receives less than 10.0 percent of its total revenues from grants from state and local governments. **Unclaimed Property Program:** Pursuant to the Unclaimed Property Act, the State takes possession of dormant properties held by a wide range of institutions and attempts to return the properties to their rightful owners. The Department deposits recovered moneys in the Unclaimed Property Trust Fund, using the principal and interest to pay claims as well as the costs of operating the program. The Department holds recovered securities for at least a year and then sells those that have not been returned, depositing sales proceeds in the Unclaimed Property Tourism Promotion Trust Fund. The State uses the interest earned by this fund to promote tourism and the State Fair. The fund source for this section is the Unclaimed Property Trust Fund.

## LONG BILL PACKAGE BILL

### SUMMARY OF S.B. 15-235:

**CONCERNING INCREASING THE AMOUNT THAT THE GENERAL ASSEMBLY MAY APPROPRIATE FOR THE CHILD NUTRITION SCHOOL LUNCH PROTECTION PROGRAM, AND, IN CONNECTION THEREWITH, MAKING AN APPROPRIATION.**

**Prime Sponsors:** Senator Steadman and Representative Hamner

### Bill Summary

The bill increases the cap on appropriations for the Child Nutrition School Lunch Protection Program from \$1.5 million per year (under current law) to \$2.5 million per year, beginning in FY 2014-15.

### Fiscal Impact

The bill includes the following appropriations to support anticipated reimbursements under the program:

- \$141,471 General Fund in FY 2014-15 (restoring the funding reduced in the Long Bill “add-on”); and
- \$161,258 General Fund in FY 2015-16.

### Background

Pursuant to S.B. 08-123 [Section 22-82.9-101 et seq., C.R.S.], the Child Nutrition School Lunch Protection Program provides state funding to reimburse school districts for each lunch served to a child in kindergarten through fifth grade who is eligible for a reduced price meal. The reimbursements allow schools to provide lunches at no charge to students who would otherwise be required to pay a reduced price for lunch.

Prior to FY 2014-15, statute limited the program to kindergarten through second grade. For FY 2014-15 and beyond, H.B. 14-1156 (Eligibility Age School Lunch Protection Program) expanded the program to include students in third through fifth grade and appropriated \$791,471 General Fund to support the program expansion. When combined with the FY 2014-15 Long Bill appropriation of \$850,000 cash funds from the State Education Fund, the General Assembly appropriated a total of \$1,641,171 for the program in FY 2014-15. However, current law limits appropriations for the program to no more than \$1.5 million per year. As a technical error, H.B. 14-1156 did not adjust the cap on appropriations for the program. Thus, the current FY 2014-15 appropriation exceeds the cap, and the Department will be unable to support anticipated reimbursements under the program in FY 2014-15 and FY 2015-16.

The FY 2015-16 Long Bill (S.B. 15-234): (1) includes an “add-on” to reduce the appropriation in H.B. 14-1156 by \$141,471 General Fund to align with the statutory cap in FY 2014-15; and (2) appropriates a total of \$1.5 million (including \$650,000 General Fund and \$850,000 cash funds from the State Education Fund) for the program in FY 2015-16. These amounts, however, are not sufficient to support anticipated reimbursements under the program for FY 2014-15 (\$1,641,471) and FY 2015-16 (\$1,661,258). This bill increases the statutory cap to \$2.5 million per year and provides the additional funding necessary to support anticipated reimbursements in FY 2014-15 and FY 2015-16.

## LONG BILL PACKAGE BILL

### SUMMARY OF S.B. 15-236:

#### CONCERNING THE REORGANIZATION OF FUNDS EXPENDED BY THE STATE HISTORICAL SOCIETY.

**Prime Sponsors:** Senator Grantham and Representative Rankin

#### **Bill Summary**

This bill modifies and updates the structure of Colorado Historical Society (History Colorado) funds to help improve the organization's financial management, enhance financial controls, and make its financial position more transparent. This includes changes to the State Historical Fund, where the 28 percent of limited gaming revenue that is directed to historic preservation is deposited pursuant to the State Constitution. It creates two accounts within the State Historical Fund: the Museum and Preservation Operations Account and the Preservation Grant Program Account. These receive, respectively, 49.9 percent and 50.1 percent of the 80 percent of State Historical Fund gaming revenue that remains after Constitutional allocations to gaming cities. The bill also creates the Enterprise Services Cash Fund, consisting of History Colorado's revenue from memberships, admissions charges, sales and similar sources. It exempts this fund from the statutory limit on cash fund reserves. The bill also specifies which of History Colorado's funds are subject to annual appropriation.

Specifically, this bill makes the following changes:

#### *Section 1*

- Strikes existing language so that only gaming revenue (and not other moneys) may be deposited to the State Historical Fund.
- Creates the Museum and Preservation Operations Account for the reasonable costs incurred by History Colorado in fulfilling its mission, and the Preservation Grant Program Account for statewide preservation grants and related administrative costs.
- Specifies that amounts in the Museum and Preservation Operations Account and amounts for administration from the Preservation Grant Program Account are subject to annual appropriation. Amounts for statewide preservation grants are continuously appropriated to History Colorado.
- The Museum and Preservation Operations Account receives 49.9 percent of the 80 percent of annual Historical Fund gaming revenue administered by History Colorado, and the Preservation Grant Program receives the remaining 50.1 percent.
- On July 1, 2015, requires the Controller to credit portions of the balance in the State Historical Fund to each of the new accounts as if the accounts had existed when the moneys were initially received.

#### *Section 2*

Exempts the Enterprise Services Cash Fund (created in Section 3) from the statutory limit on uncommitted reserves.

### Section 3

Modifies statute to clarify the treatment of History Colorado funds other than gaming funds. Specifies that noncustodial funds other than gaming revenues are deposited to the Enterprise Services Cash Fund, and specifies that moneys in this fund are subject to annual appropriation.

### Sections 4 and 5

Provide an effective date of July 1, 2015 and a safety clause.

### Fiscal Impact

This bill has no fiscal impact.

### Background Information

*Historical Fund Gaming Revenue:* The budget for History Colorado is based on the *prior year's* revenue to the State Historical Fund. Thus, FY 2015-16 funding is based on FY 2014-15 gaming receipts.

*History Colorado Financial Challenges:* History Colorado museum and preservation operations have struggled financially since taking on the expenses associated with the new History Colorado Center.

- Gaming revenue, which comprises the vast majority of History Colorado revenue, has been relatively flat.
- Overall expenses increased by over \$3.1 million per year due to lease purchase payments for the new facility. In addition staffing costs have increased due to statewide common policies that have increased salaries and benefits.
- Earned revenue has not increased rapidly enough to make up the difference. At the beginning of FY 2014-15, the Society's fund balance for museum and preservation operations was \$4.4 million. It is projected to decline by over \$2.0 million in FY 2014-15 due to projected losses.
- The FY 2015-16 introduced Long Bill includes budget reductions of 11.5 percent to most museum and preservation line items to bring appropriations for museum operations more in line with available revenue.

3/ Starting in FY 2015-16, auxiliary revenue and expenditures will be combined with other earned revenue in the Enterprise Services Cash Fund. Total History Colorado earned revenue represents the sum of these two figures.			

*Audit Problems Related to Financial Management:* The FY 2012-13 Statewide Financial Audit identified material weaknesses (the highest level of problem) in History Colorado's financial management. A subsequent June 2014 Performance Audit by the State Auditor's Office confirmed financial management problems and raised questions about the organization's governance structure, as it receives significant state funds but is a non-profit organization governed by a board elected by its membership. History Colorado, the Department of Higher Education, and the Governor's Office, as well as the Legislative Audit Committee, have all been engaged in efforts to address these issues. This bill is intended to help improve the organization's financial management by clarifying the structure of its funds and moneys available for various purposes.

### SUMMARY OF S.B. 15-237:

CONCERNING CALCULATIONS RELATING TO APPROPRIATIONS TO INSTITUTIONS OF HIGHER EDUCATION, AND, IN CONNECTION THEREWITH, CLARIFYING CALCULATIONS REQUIRED PURSUANT TO SECTIONS 23-18-304 AND 23-18-305, C.R.S., AND DELAYING PERFORMANCE FUNDING CALCULATIONS PURSUANT TO SECTION 23-1-108, C.R.S.

**Prime Sponsors:** Senator Lambert and Representative Hamner

### Bill Summary

The bill makes technical clarifications to definitions used in higher education funding formulas added in H.B. 14-1319 (Outcomes-based Funding for Higher Education). It also delays the implementation of higher education performance funding authorized in S.B. 11-052 to no earlier than FY 2017-18.

This includes the following changes:

- **Section 1** modifies definitions in Section 23-18-302, C.R.S., that apply to funding provisions in Sections 23-18-304 and 305, C.R.S. Specifically, this section:
  - Adds a definition of “applicable fiscal year” or “applicable state fiscal year” to apply to the upcoming fiscal year. For example, during the 2015 regular legislative session, the “applicable fiscal year” means the 2015-16 fiscal year.
  - Adds a definition for “preceding fiscal year” or “preceding state fiscal year” to apply to the year immediately preceding the “applicable state fiscal year”.
  - Expands the definition of “total governing board appropriation” and “total state appropriation” so that these terms are separately defined for the “applicable state fiscal year” versus the “preceding state fiscal year”.
  - Specifies that for the preceding state fiscal year (e.g., FY 2014-15 during the 2015 legislative session), total state appropriation includes all appropriations enacted in the prior legislative session including appropriations in bills other than the Long Bill unless otherwise specified in those bills.
  - Specifies that for the applicable state fiscal year (e.g., FY 2015-16 during the 2015 legislative session); total state appropriation does not include appropriations in bills other than the Long Bill unless otherwise specified in those bills.
  - Clarifies that for the applicable state fiscal year, amounts required to annualize prior year actions are excluded from total state appropriation.
- **Section 2** makes a conforming amendment in Section 23-18-305, C.R.S., so that the new definitions are properly applied in this section.
- **Section 3** delays implementation of Section 23-1-108, C.R.S., which created an earlier performance funding mechanism, so that this does not become effective before FY 2017-18.

## **Fiscal Impact**

This bill has no fiscal impact.

## **Background Information**

House Bill 14-1319 created a new funding mechanism for allocating moneys to the higher education governing boards. It included various provisions relating to “total state appropriation” and “total governing board appropriation” that affect the allocation of funds. These included:

- provisions related to guardrails, *i.e.*, limits on the extent to which one governing board may receive a funding increase or decrease that exceeds the average change in funding for all governing boards;
- provisions related to the percentage of funding that must be allocated to student stipends (minimum 52.5 percent); and
- provisions relating to increases for specialty education programs and other programs which are required to increase at rate no less than the overall rate of increase in funding for the governing boards.

This bill clarifies key terms so that the provisions of H.B. 14-1319 are implemented consistently.

### SUMMARY OF S.B. 15-238:

CONCERNING THE ALLOWABLE USES OF MONEYS IN THE GENERAL FUND EXEMPT ACCOUNT THAT ARE DESIGNATED TO BENEFIT STUDENTS ATTENDING INSTITUTIONS OF HIGHER EDUCATION.

**Prime Sponsors:** Senator Steadman and Representative Hamner

### Bill Summary

The General Fund Exempt Account consists of the amount of state revenues in excess of the limitation imposed by Article X, Section 20 of the State Constitution (TABOR) which the State is authorized to retain and spend pursuant to Referendum C of 2005. Based on existing statute, of the amounts in the General Fund Exempt Account that are in excess of \$55 million, one-third must annually be appropriated for the benefit of students attending institutions of higher education. Current statute specifically identifies qualifying higher education appropriations as student stipends, fee-for-service contracts with governing boards, need- and merit-based aid, and capital construction appropriations. This bill adds to this list: work-study programs, tuition for qualified Indian pupils who attend Fort Lewis College, local district junior college grants, and area vocational school grants.

### Fiscal Impact

This bill has no fiscal impact.

### Background Information

In the introduced Long Bill, FY 2015-16 appropriations from the General Fund Exempt Account for higher education total \$788,000,000.

### SUMMARY OF S.B. 15-240:

CONCERNING A FUNDING FORMULA FOR INDEPENDENT LIVING CENTERS, AND, IN CONNECTION THEREWITH,  
MAKING AN APPROPRIATION.

**Prime Sponsors:** Senator Steadman and Representative Young

### Bill Summary

The bill instructs the Department of Human Services to promulgate a rule for the distribution of state moneys to independent living centers. Specifically, this bill makes the following changes:

- **Section 1** adds language to the legislative declaration regarding Independent Living Centers.
- **Section 2** defines the base amount as the amount of funding required to provide the five core independent living services.
- **Section 3** requires the Department to promulgate a rule on or before July 1, 2016, that establishes a funding formula of state moneys for Independent Living Centers. The rule must, at a minimum, include a base amount of not less than \$600,000 per Center and other factors as agreed upon by the Centers. Other factors may include a per capita adjustment, a per county adjustment, or other adjustments agreed to by the Centers. Section 3 also requires the Department of Human Services to report on the status of the rule to the appropriate committees of reference by March 1, 2016.
- **Sections 4 through 6** make conforming amendments to existing statutory language.

### Fiscal Impact

The bill includes an appropriation of \$2.0 million General Fund to account for the base amount of \$600,000 per Center (equal to an increase of \$1.6 million above the FY 2015-16 Long Bill appropriation), plus \$400,000 for other formula factors.

CONCERNING COLLABORATIVE MANAGEMENT OF MULTI-AGENCY SERVICES PROVIDED TO CHILDREN AND FAMILIES, AND, IN CONNECTION, THEREWITH, MAKING AN APPROPRIATION.

**Prime Sponsors:** Senator Steadman and Representative Young

### Bill Summary

With respect to the system of collaborative management, the bill:

- Clarifies that children or families do not need to be in the child welfare or foster care system to receive services under the program;
- Clarifies that the Department of Human Services is responsible for ensuring statewide consistency relating to the requirements for the memorandum of understanding related to the collaborative management system;
- Clarifies the definition of the target population for the program;
- Requires the Department and specified persons to develop performance measures for the system of collaborative management;
- Requires parties to enter a memorandum of understanding to identify performance measures, report to the department concerning those measures, and participate in an annual program evaluation of their success in meeting the identified performance measures;
- Clarifies that incentive funding is provided to parties to a memorandum of understanding who have successfully met or exceeded the identified performance measures as reported to the department; and
- Removes references to “elements” of collaborative management.

The bill authorizes the Department to use General Fund moneys and includes a General Fund appropriation.

### Background

Pursuant to H.B. 04-1451 [Section 24-1.9-101 et seq., C.R.S.], the Collaborative Management Program was created to improve outcomes of children and families who receive services from multiple systems. The program is currently funded through the Performance-based Collaborative Management Incentive Cash Fund. The fund consists of moneys received from docket fees in civil actions transferred pursuant to Section 13-32-101 (5) (a), C.R.S. The bill includes a General Fund appropriation to increase funding to the program in addition to that provided through the cash fund.

### Fiscal Impact

The bill includes the following appropriation:

- \$1,856,635 General Fund in FY 2015-16, including:
  - \$1,500,000 for allocation to parties of the memorandum of understanding through the collaborative management program incentive formula pursuant to Section 24-1.9-104 (3) (a), C.R.S.;
  - \$106,635 for administration of the program by the Department of Human Services; and

### SUMMARY OF S.B. 15-242:

CONCERNING AN ALLOCATION IN ADDITION TO THE CHILD WELFARE BLOCK GRANT TO COUNTIES FOR THE PURPOSE OF HIRING NEW CHILD WELFARE STAFF, AND, IN CONNECTION THEREWITH, MAKING AN APPROPRIATION.

**Prime Sponsors:** Senator Grantham and Representative Young

### Bill Summary

The bill directs the Child Welfare Allocations Committee to develop a formula to allocate funding to counties in addition to the Child Welfare Block Grant, for the specific purpose of hiring new child welfare staff at the county level. Any county receiving such an allocation shall continue to fund any child welfare staff existing as of January 1, 2015 through the county's Child Welfare Block Grant. Each county that receives an allocation shall provide a 10.0 percent match to state and federal moneys; except that a county that qualifies as tier 1 or tier 2 for purposes of the County Tax Base Relief fund shall be funded at 100.0 percent of state and federal funds provided.

The bill requires the Department of Human Services to contract for an external study concerning child welfare caseload by county. The results of the study shall be provided to the Child Welfare Allocations Committee, which shall modify the formula as necessary to reflect data obtained through the study.

### Background

The August 2014 Colorado Child Welfare County Workload Study concluded that an additional 574.0 county level child welfare worker FTE and 122 county level supervisor FTE are needed to meet the existing child welfare workload. Due to county capacity concerns, staffing is intended to be increased annually over a several year period.

Funding for staffing and eligible services is currently provided to counties in the form of the Child Welfare Block Grant. Counties are authorized to use the allocation to provide child welfare services without categorical restriction; and funding can be used for: county administration of child welfare related activities; out-of-home care; subsidized adoption and relative guardianship agreements; and other necessary and appropriate services for children and families. The block grant reimburses counties for up to 80.0 percent of child welfare expenditures, leaving the remaining 20.0 percent (or more, if expenditures exceed the allocation) as the counties' responsibility. This bill appropriates funds, in addition to the existing Child Welfare Block Grant, to be allocated to counties solely for use in hiring additional child welfare staff; and requires a 10.0 percent county match.

Counties that have difficulty in meeting match requirements for social service programs as a result of low property tax revenues receive funding from the state through County Tax Base Relief (CTBR) line item disbursements. Eligibility is calculated through a formula based on three fixed mill levy thresholds – 3.0 mills

(tier I), 2.5 mills (tier II), and 2.0 mills (tier III). Tier I and tier II CTBR eligible counties are not required to provide matching funds.

### **Fiscal Impact**

The bill includes the following appropriation:

- \$6,034,925 total funds in FY 2015-16, including \$5,428,510 General Fund and \$606,415 cash funds from local funds, for allocation to counties for the hiring of local child welfare case workers, child welfare case aides, and child welfare supervisors pursuant to Section 26-5-104 (8) (1), C.R.S.;
- \$90,468 General Fund in FY 2015-16 for training, which amount is based on an assumption that the division will require an additional 1.0 FTE; and
- \$195,050 General Fund in FY 2015-16 for the monitoring of local child welfare staffing and the child welfare caseload study pursuant to Section 26-5-112, C.R.S.
- For FY 2015-16, it is anticipated that the department will receive \$87,704 federal funds from Title IV-E of the Social Security Act.

## LONG BILL PACKAGE BILL

### SUMMARY OF S.B. 15-244:

#### CONCERNING THE TRANSFER OF MONEYS TO OFFSET THE FEDERAL GOVERNMENT'S RECOUPMENT OF MINERAL LEASE PAYMENTS TO THE STATE.

**Prime Sponsors:** Senator Grantham and Representative Rankin

#### Bill Summary

The Roan Plateau, a geological formation located northwest of Rifle, is prized for tourism and hunting, as well as for its extensive energy reserves. In 2008, following a highly contested planning period, the federal Bureau of Land Management (BLM) auctioned leases for natural gas drilling in and around the Plateau. A consortium of environmental groups immediately filed suit, and years of negotiation and litigation have followed.

In November 2014, plaintiffs who sought to restrict natural gas drilling on the Roan Plateau, leaseholders who had previously purchased drilling rights, and the federal Department of the Interior reached a settlement regarding natural gas drilling on the Plateau. Under the terms of the settlement, leaseholders will vacate most leases on the top of the Roan Plateau and will be refunded federal mineral lease (FML) payments they made in 2008 for the right to these leases ("bonus payments").

Colorado received 49.0 percent of the FML bonus payments paid for Roan Plateau leases in 2008. The state's share of the refund (\$23,366,598) will be recouped through federal withholding of future FML disbursements to the State. Pursuant to the agreement between the State and the Department of the Interior, a recoupment of \$7,788,866 will be taken annually from Colorado's share of FML revenue in the first quarter of state FY 2015-16, FY 2016-17, and FY 2017-18.

This bill provides a General Fund transfer to fully backfill the FML revenue that will not be received as a result of the settlement. The bill is designed to eliminate any impact on schools, local governments, and other entities that would otherwise be affected by the federal recoupment of FML revenue. The federal government will recoup moneys from the portion of Colorado's FML payments that are classified as "non-bonus" revenues, i.e., revenues associated with ongoing payments for leases, as opposed to initial bonus payments. FML non-bonus payments are allocated based on state statutory formulas to the State Public School Fund, the Local Government Mineral Impact Fund, and the Colorado Water Conservation Board Construction Fund. Therefore, the General Fund and other transfers authorized in the bill are designed to hold these funds harmless from the impact of federal recoupment.

This bill provides the entire General Fund amount as a transfer to the State Public School Fund. It then transfers FML revenues *from* the State Public School Fund to the other funds in amounts that correspond to the FML revenue that these funds will not receive as a result of the federal recoupment. This is because a direct General Fund transfer to the Local Government Mineral Impact Fund could create revenue implications for some local governments pursuant to Article X, Section 20 of the State Constitution.

### *Section 1*

Provides a legislative declaration explaining the bill's intent.

### *Section 2*

- For FY 2015-16, FY 2016-17, and FY 2017-18, after the State Treasurer receives documentation of the recoupment of FML moneys pursuant to the Roan Plateau Settlement, the Treasurer will transfer \$7,788,866 from the General Fund to the State Public School Fund. The transfer will occur on the date of the first quarterly distribution of FML revenue to the funds specified in statute. Simultaneous with each General Fund transfer, the Treasurer will transfer \$4,026,844 FML moneys from the State Public School Fund to other funds, including:
  1. \$3,115,546 to the Local Government Mineral Impact Fund;
  2. \$778,887 to the Colorado Water Conservation Board Construction Fund; and
  3. \$132,411 to the Local Government Mineral Impact Fund for statutory distributions to school districts.
- If FML revenue is insufficient for the required transfers from the State Public School Fund, the balance will be transferred in subsequent quarters until the required total, or as much as possible, is transferred.
- The entire \$7,788,866 in backfill funds is included in calculations related to FML caps and spillovers from one fund to another. This includes \$3,762,022 General Fund transferred to the State Public School Fund and all of the FML transfers received by other funds from the State Public School Fund pursuant to this bill.

### *Sections 3 and 4*

Include conforming amendments and a safety clause.

## **Fiscal Impact**

This bill reduces General Fund revenue available for other purposes by \$7,788,866 in FY 2015-16 and by the same amount each year through FY 2017-18.

## **Background Information**

### *Roan Plateau Geography and Energy Reserves*

- The Roan Plateau is located in Garfield County and is comprised of about 73,600 acres of public lands, with about 35,000 located on top of the plateau and the rest below the rim.
- A federal Bureau of Land Management Fact Sheet estimates 4.2 trillion cubic feet (TCF) of natural gas under the top of the plateau and 4.7 TCF under the lands below the rim.

### *Recent Timeline*

March 2008 -- the federal Bureau of Land Management (BLM) authorizes drilling on the Plateau with various environmental protections.

July 2008 -- a consortium of environmental groups files a lawsuit in District Court challenging the BLM's management plan.

August 2008 -- the BLM nonetheless proceeded with its lease sale. Colorado receives its 49.0 percent of bonus revenue or about \$56 million. However, due to the lawsuit, drilling is not allowed to proceed.

2008 and 2012 -- leaseholders and plaintiffs engage in unsuccessful settlement negotiations and then court hearings.

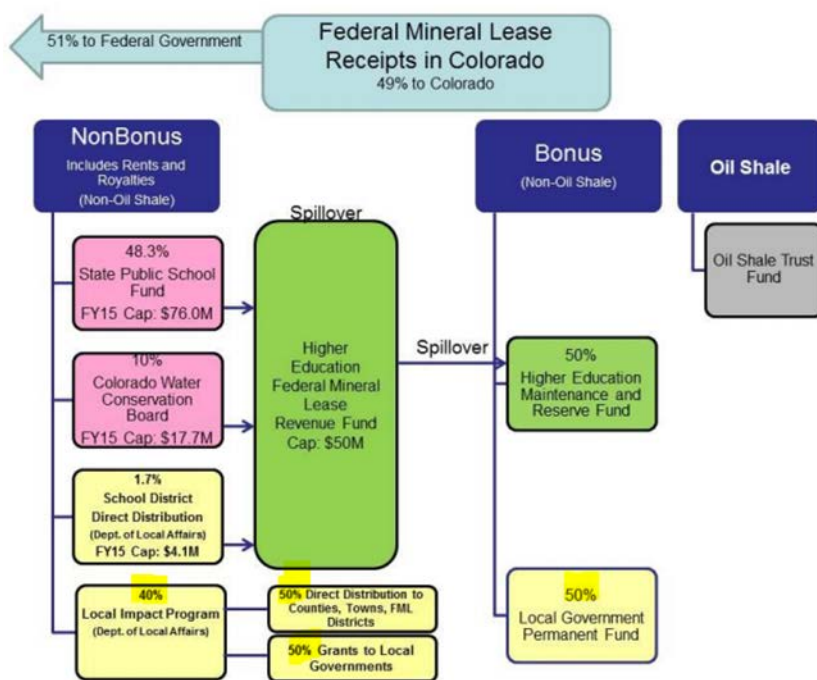

June 2012 -- a federal district court judge concludes that there are various problems in the BLM environmental impact statement and remands the issue to the BLM. The court decision is appealed by both parties. The BLM subsequently begins the process of developing a supplemental environmental impact statement.

2014 - Plaintiffs and leaseholders work toward a settlement agreement, which is confirmed in November 2014. Under the terms of the settlement, leaseholders will vacate most leases on top of the Plateau but will be allowed to proceed with drilling in areas around the base.

*Parties to the Settlement and Side-negotiations:* The State was not a formal party to the settlement. However, negotiations were supported by members of the General Assembly, the Governor’s Office, and members of Colorado’s congressional delegation. One component of these negotiations was to reassure local governments that they would not be negatively affected by the settlement.

*Colorado Federal Mineral Lease Revenue and Distributions:* Colorado is anticipated to receive between \$163 and \$173 million in FML revenue in FY 2014-15 and between \$157 and \$168 million in FY 2016-17, based on OSPB and Legislative Council Staff March 2015 forecasts. Actual revenue in FY 2013-14 was \$173.6 million. The FML allocation formula was updated through S.B. 08-218 and is codified in Section 34-63-102, C.R.S. The chart below provides an overview of allocation structure.

Note that federal funds recoupment and the General Fund backfill provided in the current bill will be applied to **non-bonus** revenues.

*Transfers of FML to the General Fund during the recession:* Some local governments were concerned about the proposed Roan Plateau settlement because they anticipated losing FML moneys due to federal recoupment. They noted that they had not benefitted from the 2008 Roan Plateau bonus payments that are now subject to recoupment. Although statutory formulas direct bonus and non-bonus revenue to the funds outlined above under

normal circumstances, due to the recession (between FY 2008-09 and FY 2011-12), bonus payments related to the Roan Plateau Settlement, as well as a significant share of other FML revenues, were transferred to the General Fund through a series of statutory transfers.

**Prime Sponsors:** Senator Grantham and Representative Young

#### **Bill Summary**

The bill establishes the Hazard Mapping Program, administered by the Colorado Water Conservation Board (CWCB) in the Department of Natural Resources, to: (1) provide floodplain, erosion zone, and debris flow mapping to reflect current hazards based on post-flood conditions; and (2) help communities make land use decisions during the flood recovery process and establish policy on future development in flood-impacted areas.

The bill creates the Natural Hazard Mapping Fund to receive program revenue, which includes gifts, grants, and donations, as well as the following General Fund transfers established in the bill:

- \$3,800,000 General Fund in FY 2015-16;
- \$2,400,000 General Fund in FY 2016-17; and

#### **Fiscal Impact**

This bill transfers \$3.8 million from the General Fund to the Natural Hazard Mapping Fund in FY 2015-16 for the first year of the Hazard Mapping Program. The total fiscal impact for all three years of the program is \$6.87 million General Fund.

### SUMMARY OF S.B. 15-247:

**CONCERNING THE AUGMENTATION OF THE SCOPE OF SERVICES OF THE STATE DRUG ASSISTANCE PROGRAM ADMINISTERED BY THE DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT TO AUTHORIZE FUNDING FOR PREVENTION, INTERVENTION, AND OTHER SERVICES, AND, IN CONNECTION THEREWITH, MAKING AN APPROPRIATION.**

**Prime Sponsors:** Senator Steadman and Representative Young

### Bill Summary

The bill augments the scope of services of the Drug Assistance Program (Program) to include funding for preventative and nondrug-related health services and allows moneys appropriated for the Program to be used for screening, general medical, preventative, and pharmaceutical costs for qualifying individuals of lower income who have medical or preventative needs concerning AIDS or HIV, viral hepatitis, or a sexually transmitted infection. The bill also:

- Creates the Drug Assistance Rebate Fund, which consists of rebates received from pharmaceutical companies, and, subject to annual appropriation, allows the Department of Public Health and Environment to expend moneys from such fund for the Program;
- Expands the duties of the existing subcommittee of the Governor's Advisory Group on HIV and AIDS Policy, which currently only provides advice and recommendations to the Department concerning which pharmaceutical products should be listed on the drug formulary for the Program, to include the provision of advice regarding Program eligibility requirements and uses of Program funding;
- Provides prioritization criteria for enrollment in the Program among eligible applicants if the Program is reaching its fiscal limitations; and
- Eliminates end of fiscal year transfers of unexpended and unencumbered moneys in the AIDS and HIV Prevention Fund to the Tobacco Litigation Settlement Cash Fund, and requires all such moneys to remain in the AIDS and HIV Prevention Fund.

### Fiscal Impact

The bill appropriates \$863,033 cash funds to the Department of Public Health and Environment for FY 2015-16. Of the total appropriation, \$600,000 is from the newly created Drug Assistance Rebate Fund, and \$263,033 is from the AIDS and HIV Prevention Fund. The appropriation from the AIDS and HIV Prevention Fund reflects the amount of funds that would have been transferred to the Tobacco Litigation Settlement Cash Fund under current law.

## LONG BILL PACKAGE BILL

### SUMMARY OF S.B. 15-251:

#### CONCERNING THE EXCLUSION OF APPROPRIATIONS FOR REAL PROPERTY LEASE-PURCHASE PAYMENTS FROM THE BASIS FOR THE CALCULATION OF THE GENERAL FUND RESERVE.

**Prime Sponsors:** Senator Lambert and Representative Hamner

#### Bill Summary

Currently, a portion of the unrestricted balance in the General Fund at the end of a fiscal year must be retained as the General Fund reserve. The General Fund reserve is equal to 6.5 percent of the amount appropriated for expenditure from the General Fund for the fiscal year. The bill excludes appropriations for lease-purchase payments from the amount used to calculate the necessary General Fund reserve.

#### Fiscal Impact

In the FY 2015-16 Long Bill, a total of \$39,074,536 in state-funded lease purchase payments were moved from the capital construction section to the operating section. The bill will reduce the set-aside necessary to fund the General Fund reserve by \$2,539,845.

#### Background Information

Joint Rule 45, adopted in 2014, added standards for assessing whether budget items should be addressed in the operating budget, in the capital construction budget, or in the information technology projects budget. These standards provide more consistent authority over those budget items through the Joint Budget Committee (JBC), Capital Development Committee (CDC), and Joint Technology Committee (JTC) processes.

Annual lease-purchase payments such as certificates of participation (COPs) are annual, ongoing payments and should be located within the operating budget once the construction of the COP-financed building is substantially complete. Historically, annual lease-purchase payments have been located in the capital construction budget, and to the extent they are state-funded, they have been funded from the Capital Construction Fund. Capital Construction Fund appropriations in the capital construction budget are excluded from the amount used to calculate the General Fund reserve. Excluding appropriations for COP payments located in the operating budget from the amount used to calculate the General Fund reserve maintains their historical exclusion.

**Senate Bill 15-195***Spending Savings from Earned Time in DOC*

This bill, as introduced, limits the amount of earned time savings that may be used towards education and parole programs in the Department of Corrections. The Department is directed to prioritize the use of this funding for parole wrap-around services that are administered based on evidence-based practices. For budget balancing purposes, the JBC has assumed \$1,500,000 General Fund will be appropriated to the Department in this bill for FY 2015-16 and the earned time savings usage limit established in the bill will be increased to \$6.5 million.

**Senate Bill 15-228***Medicaid Rate Review Process*

The bill establishes a process for the Department of Health Care Policy and Financing to review provider fee rates. It requires the Department to establish a schedule of rates to be reviewed so that every rate is reviewed every five years. It authorizes out-of-cycle review of rates at the request of the JBC or the Medicaid Provider Rate Review Advisory Committee established pursuant to the bill. For budget balancing purposes, the JBC has assumed \$269,912 General Fund will be appropriated to the Department in this bill for FY 2015-16.

**House Bill 15-1034***Add Judge in Twelfth Judicial District*

This bill increases the allocation of district judges in the Twelfth Judicial District (Alamosa, Conejos, Costilla, Mineral, Rio Grande, and Saguache Counties) from three to four. For budget balancing purposes, the JBC has assumed \$333,361 General Fund will be appropriated to the Judicial Department for FY 2015-16.

**House Bill 15-1149***Office of the Respondent Parents' Counsel*

Under current law, the Judicial Department is required to establish an Office of Respondent Parents' Counsel (ORPC) to oversee the provision of legal representation for parents involved in dependency and neglect proceedings who are unable to afford private counsel. This bill delays by six months (to July 1, 2016) the date that the ORPC is to assume responsibility for court-appointed counsel for respondent parents. In addition, the bill creates a nine-member governing commission for the ORPC. For budget balancing purposes, the JBC has assumed this bill will reduce General Fund appropriations to the Judicial Department by \$603,145 for FY 2015-16.

**House Bill 15-1153***Oversight of Child & Family Investigators*

This bill consolidates oversight of all court-appointed "child and family investigators" (CFIs) under the State Court Administrator's Office, effective January 1, 2016. 1. Expands eligibility to add children ages 6 to 8;
2. Allows children who begin services before age 8 to receive a full three years of services, and no more than three years;
3. Allows General Fund support, and thereby eliminates the current enrollment cap of 75 children;
4. Eliminates the annual statutory \$25,000 per child expenditure cap on services and allows the cap to be adjusted through the budget process; and
5. Provides for an annual evaluation of the effectiveness of services for people with autism.

The bill continues the Family Planning Program within the Department of Public Health and Environment. The funding must be used to continue a grant program providing Long Acting Reversible Contraception (LARC) methods to low-income and uninsured women to reduce the number of unintended pregnancies in Colorado. For budget balancing purposes, the JBC has assumed \$5,000,000 General Fund will be appropriated to the Department in this bill for FY 2015-16.

### **House/Senate Bill (bill number pending)**

#### *School Finance Bill*

For budget balancing purposes, the JBC has assumed \$25,000,000 General Fund will be appropriated to the Department of Education in this bill for FY 2015-16.

### **House/Senate Bill (bill number pending)**

#### *Severance Tax Revenue Transfer*

For budget balancing purposes, the JBC has assumed that \$20,000,000 of total severance tax revenue received in FY 2014-15 will be transferred to the General Fund to be available starting in FY 2015-16.

## **Appendix B – General Policies**

The appropriations for many line items are determined by general policies applied consistently to all agencies. A brief explanation for each of these policies is provided below.

### Administrative Law Judge Services

Funds for Administrative Law Judge (ALJ) services are included for the 14 departments that use these services. The recommended billing is calculated by identifying the budget year's base costs (personal services, operating expenses, and indirect costs) plus the program's share of the Department of Personnel's prior fiscal year's benefits and common policy costs. These costs are then allocated to departments for the upcoming fiscal year according to actual percentage use by agency in the prior fiscal year. For FY 2015-16, statewide spending authority for ALJ services totals approximately \$5.3 million, compared to \$4.1 million for FY 2014-15.

### Capitol Complex Leased Space

This line item is a payment to the Department of Personnel for property management for departments occupying space in the Capitol Complex, the North Campus facility, the Pierce Street Building, the Grand Junction State Office Building, and Camp George West. This line item appears in each department's Executive Director's Office, with some exceptions. Each campus has a distinct rental rate per square foot calculated on the pooled expenses of the campus. For FY 2015-16, statewide agency allocations total approximately \$15.0 million in comparison to \$10.7 million for FY 2014-15.

### Community Provider Rates

Community provider rate adjustments are applied to programs and services which, if not provided by contracted provider organizations or county staff, would need to be provided by state staff. The bill includes a common policy 0.5 percent increase for providers paid from the Medical Services Premiums line item in the Department of Health Care Policy and Financing and a 1.7 percent provider rate increase for all other community providers. In addition to the common policy provider rate increases, the bill includes targeted rate increases for select Medicaid providers. See the Department of Health Care Policy and Financing for more information about the targeted rate increases.

### Health, Life, and Dental

The bill adjusts the state contribution to health, life, and dental insurance premiums to match prevailing compensation. The state contribution is set at 80.0 percent for FY 2015-16, consistent with the state contribution rate for FY 2014-15. Statewide health, life, and dental appropriations total \$217.3 million total funds, including \$124.4 million General Fund in FY 2015-16, compared to \$184.5 million total funds including \$105.8 million General Fund in FY 2014-15.

### Lease Purchase

The bill continues existing lease purchase agreements. Requests for additional lease purchase funds are examined on an individual department basis and funded where appropriate. Moneys may not be expended for lease purchase unless they are specifically appropriated for that purpose.

### Leased Space

This line item appears in a department's Executive Director's Office, division, or program for the payment of leased space expenses including rent, share of facility operating costs, and leased space escalators.

### Legal Services

This line item appears in the Executive Director's Office of most departments. The bill's appropriations allow departments to purchase necessary legal services from the Department of Law, similar to how legal services are purchased from a private-sector law firm. For FY 2015-16, agencies will pay a blended legal rate of \$95.01 per hour for legal services, which are provided by both attorneys and legal assistants. This compares to a rate of \$99.01 per hour for FY 2014-15. The payments that client agencies make to the Department of Law are sufficient to pay all the direct and indirect costs of supplying the services. The Department of Law expects to provide 410,040 hours of legal services to client agencies in FY 2015-16.

### Operating Expenses

For FY 2015-16, the bill funds operating expenses at a continuation level of funding, with some individual exceptions. The General Assembly has periodically provided inflationary increases for operating expenses related to food, medical, and laboratory services in departments for which these costs are not incidental. The bill does not include inflationary increases for any operating expenses for FY 2015-16.

### Payments to OIT

This line item appears in each department's Executive Director's Office, with some exceptions, and represents each department's share of the State's information technology services provided by the Governor's Office of Information Technology (OIT). For FY 2015-16, the bill includes recoverable costs totaling \$124.8 million, including \$51.9 million General Fund.

### Payment to Risk Management and Property Funds

This line item appears in each department's Executive Director's Office. The bill represents each department's share of the statewide cost of property and liability insurance coverage, based on a three-year average loss history as verified by an independent actuarial firm. The Department of Personnel has continuous spending authority for the property and liability programs claims, premiums, and legal expenses, but not for administrative costs. For FY 2015-16, the bill's appropriation for the risk management and property program is \$17.3 million, comprised of \$6.8 million for property and \$10.5 million for liability. This compares to \$16.9 million for FY 2014-15, comprised of \$6.8 million for property and \$10.1 million for liability.

### Personal Services

For FY 2015-16, the bill funds personal services at a continuation level of funding plus a base adjustment for the salary survey and merit pay provided in FY 2014-15.

### S.B. 04-257 Amortization Equalization Disbursement (AED)

Pursuant to S.B. 04-257, the State contributes additional funds to assist in the amortization of the Public Employees' Retirement Association's (PERA) unfunded liability. The appropriation amount is based on employees' base salaries, including shift differential pay. While the amount is calculated on statewide base salary and is therefore considered as a compensation common policy, AED is not an item paid to state employees for compensation. The contribution amount will increase by 0.4 percent each calendar year until it reaches the maximum contribution rate of 5.0 percent in calendar year 2017. The contribution rate is 4.2 percent for calendar year 2015, and 4.6 percent for calendar year 2016. The bill's appropriations for FY 2015-16 total \$70.1 million, including \$37.7 million General Fund, compared to \$63.0 million total funds, including \$34.0 million General Fund in FY 2014-15.

### S.B. 06-235 Supplemental Amortization Equalization Disbursement (SAED)

In addition to the AED contribution amounts, S.B. 06-235 provides a supplemental PERA contribution. The intended fund source is money that would otherwise be available for, but not yet awarded as employee salary increases. The appropriation amount is based on employees' base salaries including shift differential pay. While the amount is calculated on statewide base salary and is therefore considered as a compensation common policy, and the intended fund

source is money that would otherwise be available for salary increases, SAED is not an item paid to state employees for compensation. SAED will increase by 0.5 percent each calendar year until it reaches its maximum contribution rate of 5.0 percent in 2017. The contribution rate is 4.0 percent for calendar year 2015, and 4.5 percent for calendar year 2016. The bill's appropriations for FY 2015-16 total \$67.3 million, including \$36.1 million General Fund, compared to \$59.1 million, including \$31.9 million General Fund in FY 2014-15.

### Salary Survey and Merit Pay Awards

Salary survey line item appropriations total \$25.0 million statewide, including \$16.1 million General Fund for a 1.0 percent across-the-board increase in FY 2015-16. This compares to \$51.4 million, including \$29.3 million General Fund in FY 2014-15, which provided for a 2.5 percent across-the-board increase.

The merit pay line item appropriations total \$17.0 million statewide, including \$9.4 million General Fund for a weighted average 1.0 percent increase to provide funding for raises according to a formula that rewards performance, but also gives greater percentage increases to employees at the lower end of the pay range. This compares to \$16.3 million statewide, including \$8.7 million General Fund in FY 2014-15, for a weighted average 1.0 percent increase. The following table outlines the merit pay matrix for FY 2015-16.

Merit Pay Matrix				
Performance Rating	Income quartile of class range			
	Q1	Q2	Q3	Q4
3	1.8%	1.6%	1.4%	1.2%
2	1.0%	0.8%	0.6%	0.4%
1	0.0%	0.0%	0.0%	0.0%

### Shift Differential

Shift differential payments provide higher wages for evening, night, and weekend shifts. The bill's appropriations for FY 2015-16 total \$13.9 million, including \$11.4 million General Fund, primarily for the Departments of Corrections and Human Services, compared to \$13.5 million, including \$10.9 million General Fund, in FY 2014-15.

### Short-term Disability

All state employees are eligible for employer-paid, short-term disability insurance. The bill's appropriations are calculated based on 0.22 percent of employees' base salaries, including shift differential pay. This line item appears in each department's Executive Director's Office and cannot be expended for any other purpose. Statewide short-term disability appropriations for FY 2015-16 total approximately \$3.4 million, including \$1.8 million General Fund, which compares to \$3.3 million, including \$1.8 million General Fund, in FY 2014-15.

### Statewide Indirect Costs

Indirect costs are the overhead costs associated with the operation of general government functions and departmental administrative duties. Indirect cost recoveries are intended to offset the costs of providing central services for cash-funded and federally-funded programs that would otherwise be supported by General Fund. For FY 2015-16, the statewide indirect cost recovery plan is estimated to recover \$16.2 million in comparison to \$17.2 million for FY 2014-15.

### Vehicle Lease Payments

Pursuant to Section 24-30-1117, C.R.S., state agency motor vehicles may only be purchased through the Fleet Management Program in the Department of Personnel. The bill's appropriations are based on the amount necessary for each department's vehicle lease payments, which vary according to vehicle model and type. For FY 2015-16, the bill includes funding to replace 634 vehicles, including up to 221 compressed natural gas vehicles, compared to FY 2014-15 which replaced 684 vehicles, including 153 compressed natural gas vehicles. The appropriation to the state agency Vehicle Lease Payments line items for FY 2015-16 totals \$22.6 million in comparison to \$21.0 million for FY 2014-15. The appropriation for the Vehicle Replacement Lease/Purchase line item for FY 2015-16 is \$17.4 million in comparison to \$19.0 million for FY 2014-15.

### Workers' Compensation

This line item appears in each department's Executive Director's Office. The bill represents each department's share of the statewide cost of workers' compensation coverage, based on a three-year average loss history as verified by an independent actuarial firm. The State is self-insured and provides coverage for employees in all departments (except for institutions of higher education which operate separate self-insured programs). The Department of Personnel's appropriation totals \$38.5 million for workers' compensation premiums for FY 2015-16 in comparison to \$45.1 million for FY 2014-15.

## Appendix C -- Highway Users Tax Fund Appropriation Comparison

The following table shows the bill's FY 2015-16 "Off-the-Top" appropriations from the Highway Users Tax Fund (HUTF), which are limited to an annual growth rate of 6.0 percent over the previous year's "Off-the-Top" appropriations. These moneys are referred to as "Off-the-Top" because they are removed from available HUTF revenue before the statutory allocation to cities, counties, and the Department of Transportation. Pursuant to Section 43-4-201 (3) (a) (I) (C), C.R.S., "Off-the-Top" appropriations are limited to the Colorado State Patrol in the Department of Public Safety and related capital projects.

The capital construction section of the bill includes an increase of \$2,076,402 to replace the Loma Eastbound Port of Entry and the Greeley Troop Office.

## Appendix D – General Fund Exempt Account and Amounts Exempt from the Statutory Limit on General Fund Increases

The appendix provides additional information on General Fund appropriations in two categories, reflected in two tables below, including:

- Appropriations of General Fund moneys that have been deposited in the General Fund Exempt Account in compliance with Section 24-77-103.6 (2) and 24-77-104.5 (1), C.R.S. The General Fund Exempt Account includes General Fund moneys the State is allowed to retain and spend in excess of limits imposed by Article X, Section 20 of the State Constitution (TABOR) as TABOR was originally adopted. Referendum C, passed by Colorado voters in November 2005, allows the State to retain and spend all revenue that is collected in excess of the TABOR limit for FY 2005-06 through FY 2009-10. For FY 2010-11 and subsequent fiscal years, Referendum C allows the State to retain all revenues that are in excess of the TABOR limit, but less than the excess state revenues cap, for that fiscal year. This revenue must be placed in the General Fund Exempt Account.

## Appendix E – (I) Notations

The Long Bill and other legislation indicate when an amount is shown for informational purposes through an "(I)" notation. As defined in the Long Bill headnotes:

Where the letter "(I)" appears directly to the right of a [Long Bill amount], that amount is not an appropriation, nor does it limit the expenditure of such moneys. The amount is included for informational purposes only. It provides a record of funds anticipated to be expended and, in some instances, may indicate assumptions used relative to those funds in developing appropriated amounts.

Informational funds comprise 25.4 percent of the FY 2015-16 operating budget. Some of the largest sources of informational funds include the following:

*General Fund:* General Fund amounts annotated with the "(I)" include Senior Citizen and Disabled Veteran Property Tax Exemption amounts in the Department of the Treasury, Cigarette Tax Rebate, Old Age Heat and Fuel, Property Tax Assistance, and Retail Marijuana Sales Tax Distributions to Local Governments in the Department of Revenue, and payments for Volunteer Firefighter Retirement Plans in the Department of Local Affairs.

*Cash Funds:* Some of the largest cash fund amounts annotated with the "(I)" include tuition and fees in the Department of Higher Education, cash funds overseen by the State Transportation Commission in the Department of Transportation, Local Government Mineral and Energy Impact Grants and Disbursements in the Department of Local Affairs, and Old Age Pension allocations and the local share of various social services programs in the Department of Human Services.

*Reappropriated Funds:* The largest reappropriated funds amount annotated with the "(I)" is for workers compensation claims in the Department of Personnel.

*Federal Funds:* Most federal funds in the Long Bill are annotated with the "(I)". The exceptions are some funds in the Departments of Human Services and Public Health and Environment that are appropriated by the General Assembly pursuant to federal law and funds annotated with the "(M)" and "(H)" notations, primarily in the Department of Health Care Policy and Financing, for which adjustments in federal funds drive a reduction in state funds allocations.

The table below summarizes, by department, those Long Bill appropriations annotated with the "(I)" in the FY 2015-16 Long Bill.
