(2) ANY LIMITATIONS OR REQUIREMENTS IMPOSED ON THE USE OF MONEY RECEIVED PURSUANT TO THE FEDERAL ACT OR THE WAGNER-PEYSER ACT DO NOT APPLY TO STATE MONEY APPROPRIATED OR PASSED THROUGH TO THE DEPARTMENT PURSUANT TO THIS SECTION.

(3) FOR ANY APPROPRIATION MADE BY THE GENERAL ASSEMBLY OR PASS-THROUGH OF MONEY FROM ANOTHER ENTITY PURSUANT TO THIS SECTION, THE DIVISION, IN PARTNERSHIP WITH THE STATE COUNCIL, SHALL DETERMINE THE USE OF, AND ANY LIMITATIONS ON THE USE OF, THE MONEY FOR WORKFORCE DEVELOPMENT ACTIVITIES TO ADDRESS THE ECONOMIC AND LABOR MARKET CONDITIONS.

SECTION 2. Legislative declaration. (1) The general assembly finds and declares that:

(a) The COVID-19 pandemic that spread to Colorado in February of 2020 has led to extensive job losses throughout the state;

(b) The devastating effects of the COVID-19 pandemic have disproportionately impacted communities of color as well as women and low-income, senior, and disabled populations in the state;

(c) In order to assist states in recovering from the impacts the COVID-19 pandemic has had on states' economies, on March 11, 2021, the federal government enacted the "American Rescue Plan Act of 2021" (ARPA), pursuant to which Colorado will receive $3,828,761,790 from the federal coronavirus state fiscal recovery fund to be used for certain specified purposes, including "to respond to the public health emergency with respect to the Coronavirus Disease 2019 (COVID-19) or its negative economic impacts, including assistance to households, small businesses, and nonprofits, or aid to impacted industries such as tourism, travel, and hospitality";

(d) Under the authority granted under section 602 (f) of the ARPA,
the secretary of the United States treasury adopted regulations providing further guidance to states regarding the authorized uses of the money allocated to states from the federal coronavirus state fiscal recovery fund to respond to the public health emergency or its negative economic impacts, which include:

(I) Assistance to unemployed workers, including job training for individuals who want and are available for work;

(II) Aid to impacted industries to respond to the negative economic impacts of the COVID-19 public health emergency; and

(III) Programs, services, or other assistance for populations disproportionately impacted by the COVID-19 public health emergency, such as programs or services that address or mitigate the impact of the public health emergency on education;

(e) A program to award funding to work force development areas, local governments, institutions of higher education, and community-based nonprofit organizations to support reskilling, upskilling, and next-skilling workers who lost employment or have remained unemployed due to the COVID-19 public health emergency and its negative economic impacts, including providing short-term training to obtain an industry-recognized certificate and related services, that will aid unemployed workers, including those from communities disproportionately impacted by the public health emergency, and that will assist employers and nonprofit organizations working with these unemployed workers, is a program to respond to the public health emergency and its negative economic impacts on workers and industry;

(f) A program through which local work force development boards award grants to drive innovation to build in-demand skills, connect workers and learners to quality jobs, and drive employer engagement in talent development will provide job training assistance to unemployed workers and will aid impacted industries;

(g) Likewise, statewide innovation initiatives to support employers and trade associations in developing training programs for use in multiple counties, to align statewide activities in partnership with local work force development areas for skills-based hiring and talent development, and to
engage and provide support to local work force development boards and community leaders in designing and implementing statewide work force innovative initiatives are programs, services, or other assistance to respond to the public health emergency and its negative economic impacts on workers and industry;

(h) Additionally, allocating federal funding to:

(I) Postsecondary career and technical education (CTE) providers to expand CTE equipment, facility, and industry capacity in key CTE job demand areas will encourage high-wage, demand-driven training and short-term program growth to meet post-pandemic demand and will provide job training to unemployed workers, assist industries negatively impacted by the public health emergency, and address the impacts of the public health emergency on education by expanding the availability of and access to CTE programs in key job demand areas; and

(II) The adult education and literacy program established in article 10 of title 22, Colorado Revised Statutes, that provides next-level education and training to many Colorado unemployed adults will provide training to adults disproportionately impacted by the COVID-19 public health emergency for better employment outcomes.

(2) Therefore, the general assembly determines that the programs enacted under the "Investments in Reskilling, Upskilling, and Next-skilling Workers Act" and the "Work Force Innovation Act" and the allocation of federal funding to expand CTE equipment, facility, and industry capacity in key CTE job demand areas and to the adult education and literacy program are appropriate uses of the money transferred to Colorado under the federal "American Rescue Plan Act of 2021" to respond to the COVID-19 public health emergency and its negative impacts on Colorado's economy, including its workers, industries, and education systems.
