CONCERNING REQUIRED DEMENTIA TRAINING FOR DIRECT-CARE STAFF OF
SPECIFIED FACILITIES THAT PROVIDE SERVICES TO CLIENTS LIVING
WITH DEMENTIA.

Be it enacted by the General Assembly of the State of Colorado:

SECTION 1. Legislative declaration. (1) The general assembly finds that:

(a) In 2022, an estimated seventy-six thousand Coloradans are living with Alzheimer's disease, and that number is predicted to rise by more than twenty-one percent by 2025;

(b) As dementia progresses, individuals living with the disease increasingly rely on direct-care staff to help them with activities of daily living, such as bathing, dressing, and eating, among others, and are dependent on staff for their health, safety, and welfare;

Capital letters or bold & italic numbers indicate new material added to existing law; dashes through words or numbers indicate deletions from existing law and such material is not part of the act.

(c) Direct-care staff in particular settings are more likely to encounter people with dementia, as evidenced by the following data:

(I) Forty-eight percent of nursing facility residents have dementia;

(II) Forty-two percent of residents in residential care facilities, including assisted living residences, have dementia; and

(III) Thirty-one percent of individuals using adult day care services have dementia;

(d) During the COVID-19 pandemic, when families were restricted from visiting their loved ones with dementia who live in nursing or other residential facilities, the critical need for direct-care staff to be adequately trained in dementia care was highlighted;

(e) Training has the dual benefit of supporting direct-care staff and increasing the quality of care provided to residents or program participants to whom they provide care;

(f) Staff turnover presents a major challenge to direct-care employers across the country, especially given that recruitment and training is often costly and time consuming;

(g) Dementia training can more adequately prepare direct-care staff for the responsibilities of these jobs, potentially reducing stress, staff burnout, and turnover; and

(h) The single most important determinant of quality dementia care across all care settings is direct-care staff.

SECTION 2. In Colorado Revised Statutes, **add** 25-1.5-118 as follows:

25-1.5-118. Training for staff providing direct-care services to residents with dementia - rules - definitions.
