Administrative Information

A. Issuing Office

This request for proposal (RFP) is issued by the Colorado Office of the State Auditor (OSA). The terms OSA, State Auditor, State, and State of Colorado are used interchangeably throughout this RFP.

As an agency within Colorado's Legislative Branch, the OSA and this solicitation are exempt from the State Procurement Code and State Procurement Rules [see Section 24-101-105(1)(a), C.R.S.].

All communications regarding this RFP must take place directly with the OSA's assigned contract monitor listed in Section I(E)–Inquiries and Section I(F)–Submission of Proposals.

B. Background Information

The OSA is soliciting proposals from qualified organizations to conduct a financial and compliance audit of the Auraria Higher Education Center (AHEC or the Center). The mission of the Center is to plan, manage, and operate the physical plant, facilities, buildings, and grounds of the Auraria campus. The Auraria campus is shared by three separate and distinct institutions of higher learning: Community College of Denver (CCD), Metropolitan State University of Denver (MSUD), and the University of Colorado at Denver (CU Denver) (the Constituent Institutions). The Center operates shared facilities on the Auraria Campus in addition to classrooms and offices, such as the Tivoli Student Union, the Health, Physical Education, and Recreation Facility; the Auraria Early Learning Center; and various parking facilities.

The Center is a separate state entity governed by a Board of Directors. The Board of Directors consists of nine voting members and two non-voting members. Three of the voting members are appointed by the Governor of the State of Colorado. In addition, the governing boards of the Constituent Institutions each appoint a voting member, and the president or chief executive officer of each of these institutions also serves as a voting member. The non-voting members are appointed by the students and faculties of CCD, MSUD, and CU Denver.

As of and for the fiscal year ended June 30, 2023, the Center reported total operating revenue of \$55.0 million and total assets and deferred outflows of resources of \$264.4 million. The State appropriated funds for general operations (general fund) are received directly from the Center's Constituent Institutions. The Center's annual budget is also comprised of auxiliary enterprise revenues and student fees. These components combine as the basis for the Center's continued provision of services and operations.

The Center is an agency of the State of Colorado. Thus, for financial reporting purposes, the Center is part of the State's primary government.

C. Services Required

The OSA is soliciting proposals from qualified organizations to conduct a financial and compliance audit of the Center for the fiscal year ending June 30, 2024.

Accounting and Auditing Standards

The financial and compliance audit shall be performed in accordance with generally accepted auditing standards as promulgated by the American Institute of Certified Public Accountants *in Statements on Auditing Standards*, the applicable revised standards for financial and compliance audits contained *in Government Auditing Standards* issued by the Comptroller General of the United States, the Single Audit Act as amended, the Provisions of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (federal uniform guidance), the *AICPA State and Local Governments- Audit and Accounting guide* and *Government Auditing Standards and Single Audits-Audit and Accounting Guide*, and Fiscal Rules promulgated by the State Controller. Further, auditors of colleges and universities should follow additional guidelines applicable to higher education, including, but not limited to, the following:

- a. Accounting principles promulgated by the National Association of College and University Business Officers (NACUBO) in its publication, *Financial Accounting and Reporting Manual*.
- b. Higher Education Accounting Standards established by the Colorado Higher Education' Financial Advisory Committee (FAC), and issued by the State Controller.
- c. The Colorado Department of Higher Education Audit Guide, *Colorado Funded Student Aid*.
- d. The U.S. Department of Education Audit Guide, *Student Financial Assistance Programs*.

Audit Scope

Audit work to be performed for the fiscal year ending June 30, 2024 consists of the following:

- a) Audit of the basic financial statements of the Center for the year ended June 30, 2024, including a review of the related internal control structure as required by generally accepted auditing standards and *Government Auditing Standards*. This includes the identification of the Center's key information technology systems, and determination of the extent of testing to be performed on those systems, in accordance with auditing standards.
- b) Audit of the Center's federal grant programs under the federal Single Audit Act for the year ended June 30, 2024, as applicable and as identified by the Office of the State Auditor. For purposes of this RFP, the federal programs anticipated for audit in Fiscal Year 2024 are noted in the Deliverables and Timelines section.
- c) Review of the Center's compliance with state and federal laws and regulations, State Fiscal Rules, and bond covenants that could have a material effect on the Center's financial statements.
- d) Performance of audit work to evaluate the Center's progress in implementing prior audit recommendations.

- e) Review of the Center’s exhibits required by the State Controller to be submitted to the Office of the State Controller in support of the statewide financial statements. Also, review of all of the Center’s adjusting entries, posted or not, after the Colorado Operations Resource Engine’s (CORE’s) final year-end closing.
- f) Submission of attestation memos to the OSA on the results of audit work performed. These memos will be used to support the audit of the statewide financial statements and statewide Single Audit. The attestation memo templates that were required for the Fiscal Year 2023 audit are included in Section IV, Supplemental Information, of this RFP for reference purposes. The attestation memos required for Fiscal Year 2024 will be provided at a later date.
- g) Preparation of report comments and/or a management letter, as appropriate based on assessed severity level, containing audit findings and recommendations for improvements in the operations, internal controls, and accounting procedures of the Center, along with any opportunities for cost savings determined through the audit. This will include obtaining and reviewing responses to the recommendations from the Center’s management and ensuring they meet the State’s established parameters for responses. In accordance with *Government Auditing Standards*, for any “Partially Agree” or “Disagree” response, the contractor shall prepare an Auditor’s Addendum as a rebuttal to the Center’s response. All report comments, management letters, responses, and Auditor’s Addenda must be reviewed and approved by the OSA. Note: Deficiencies in internal control will be written and included either as a finding or in a management letter and cannot be communicated orally. Any deficiencies that Contractor plans to communicate orally must be approved by the OSA.
 - i. Communicate in writing to the Center a summary of any exceptions identified during testing prior to the drafting of any findings or management letter comments.
- h) Issuance of an independent auditors’ report on the financial statements of the Center as of and for the year ended June 30, 2024.
- i) Issuance of an independent auditors’ report on internal control over financial reporting and on compliance and other matters based on an audit of the financial statements of the Center performed in accordance with *Government Auditing Standards* for the year ended June 30, 2024.

Deliverables and Timelines

The following are the general deliverables and timelines for the audit. These timelines correspond to the timelines within “Exhibit I–Reporting for Statewide Financial Statements and Single Audit” of the OSA’s standard contract, which is included in Section IV–Supplemental Information.

The general controls testing over the key information technology systems, and corresponding draft report findings and recommendations, must be completed by June 30, 2024.

All non-IT internal control and compliance audit work, and corresponding draft report findings and recommendations, must be completed by June 30, 2024.

The major programs for the Single Audit Act for the Center are determined by the OSA at the statewide level. For Fiscal Year 2024, it is anticipated that no major programs will be audited at the Center.

The Center's TABOR enterprise status and revenue testing must be completed by August 22, 2024.

The Center's prior year's audit recommendations must be tested and auditor's dispositions determined by September 13, 2024.

Proposed audit adjustments and their effect on the Center's financial statements should be provided to the State Auditor by October 9, 2024. A draft report, including all findings and recommendations, should be completed by about October 14, 2024. The final audit report, including all finding and recommendations along with written responses, must be delivered to the State Auditor by October 31, 2024.

The OSA expects the Contractor to satisfy the project deliverables and timelines outlined in this RFP to meet a December 2024 Legislative Audit Committee hearing date, at which point the audit report will be publicly released.

Work for this project is *estimated* to commence in May 2024. However, work could begin sooner or later depending on how long it takes to route and execute the contract after selection of the successful proposal. ***No billable work can begin on this project until the effective date of the contract.***

Work Location

Depending on the needs of the engagement or the nature of the work being performed, some work for this engagement may be able to be completed using email, phone, and other virtual file-sharing and remote meeting technologies. However, some amount of in-person or on-site work at the Center may also be required.

Findings Development and Report Review

The OSA has a rigorous findings development and report review process, which includes review and revisions at multiple levels of the organization as well as review and comment by the Center. Prospective bidders should take this into consideration when preparing a proposed calendar and budget. The findings must adhere to the OSA's standards as described in "Exhibit G—Developing and Presenting Findings" of the OSA's standard contract. The final report must adhere to the OSA's standards as described in "Exhibit H—Reporting Requirements and Format for Separately Issued Reports" of the OSA's standard contract. The OSA's standard contract containing both exhibits is included in Section IV—Supplemental Information.

Section IV—Supplemental Information also includes a link to the prior audit report issued by the OSA. Prospective bidders should review that report to gain an understanding of the OSA's high expectations in terms of form and presentation.

Oral Presentation

The Contractor may be required to testify for about one hour before the Legislative Audit Committee. This testimony will be an oral summary of the written report with questions by Committee members and verbal responses from the Contractor and from the Center.

If the final audit report will be presented with a hearing to the Legislative Audit Committee, then the Contractor must be present in person at the hearing at the end of the engagement when the report is publicly released. The OSA will make the determination in November for which reports will be presented with a hearing.

In addition, the Contractor is expected to provide oral presentations to the Center’s Board of Directors and management at the commencement and conclusion of the audit.

Various other meetings with the OSA and Center personnel will be required to communicate requirements, expectations, issues, and results, to ensure a smooth and timely completion.

The OSA reserves the right to accept or reject, in part or in its entirety, any or all bids received as a result of this RFP if the OSA determines that it is in the best interest of the State to do so. The lowest cost proposal will not necessarily be selected. The OSA also reserves the right to engage in further negotiation of the audit scope of work, price, and contract terms after selection of the Contractor if the OSA determines that it is in the best interest of the State to do so.

H. Addendum or Supplement to Request for Proposals

The OSA reserves the right to issue amendments to this RFP prior to the closing date for submission of proposals. In the event that it becomes necessary to revise any part of this RFP, an addendum to this RFP will be provided to each known prospective bidder.

I. Award Without Discussion

The OSA reserves the right to make an award without further discussion of proposals received. Therefore, proposals must be submitted in the most complete terms possible from both the technical and cost standpoint.

J. Award Information to Unsuccessful Firms

The OSA will notify all unsuccessful bidders after the award. No information will be released after the proposal submission deadline until an award has been made.

K. Joint Ventures

No joint venture proposals will be accepted. However, this requirement does not preclude the use of outside special consultants if deemed necessary by the Contractor.

L. Eligible Bidders

To be considered an eligible bidder, bidders must meet the following criteria:

1. Be a properly licensed certified public accounting firm authorized to practice in the State of Colorado.
2. Have participated in a quality control review within the past 3 years.
3. Not have any past history of substandard work.
4. Be independent for this audit engagement.

M. OSA Contract Monitor

The OSA will assign a contract monitor to serve as the Contractor's primary point of contact and liaison throughout the audit. The contract monitor will attend all key Department meetings during the engagement (e.g., entrance/exit conferences, findings clearing meetings, briefing meetings with management or boards/commissions, Legislative Audit Committee hearing); assist the Contractor in understanding the OSA's requirements, processes, and expectations; and facilitate the OSA's review of project deliverables, including providing guidance and feedback for revisions.

N. Award of Bid

The contract will be awarded to the bidder whose proposal the OSA determines to be the most advantageous to the State of Colorado, price and other factors considered. The successful bidder will be awarded a one-year contract which may be renewed on an annual basis for up to four additional years subject to acceptable performance and costs.

O. Submission of Invoices

The Contractor can submit monthly invoices for audit work completed. The OSA will withhold payment for 10 percent of the total contract amount pending satisfactory completion of the contract scope of work, which typically occurs after the Legislative Audit Committee hearing when the final report is publicly released.

Section II

Required Information

A. Proposal Sections

Proposals must include the following information. Failure to provide all required information may result in disqualification of the proposal.

Identify the RFP being responded to and the responding organization's name, local address, telephone number, contact person, and date.

2. Table of Contents

List the material included in the proposal by section and page number.

2024), and (iii) is planned for the Center or the State of Colorado (i.e., proposals submitted for work that has not yet been awarded or contracted).

- f. Affirm that the organization is independent for this audit engagement.

Prior, current, or planned work disclosed pursuant to Item #4(e) may create a threat to independence. In affirming the organization's independence for this audit engagement, the proposal must include explanation/analysis in accordance with the independence framework prescribed in *Government Auditing Standards* why this prior, current, or planned work would not impair the organization's independence—or create the appearance thereof—in performing this audit.

The proposal must include a resume of all principal staff highlighting their professional qualifications and similar audit work that they have performed. Resumes must be included in an appendix.

The OSA *may* require that the Contractor provide the OSA with the results of background checks conducted pursuant to the organization's standard employment practices on personnel assigned to the engagement. If background checks are not a standard employment practice for the Contractor, the OSA *may* require the Contractor to conduct a background check on personnel assigned to the engagement and provide the results to the OSA.

6. Organization's Approach to the Audit

The proposal must include a description of the methodology, approach, tools, and resources to be used to conduct the audit.

7. Contract Terms and Conditions

The OSA expects the successful bidder to execute and adhere to the terms and conditions in the OSA’s standard contract and its related exhibits (see Section IV–Supplemental Information).

Bidders should not wait until after the OSA has made a contract award to consult with their legal team/advisor about the contract terms and conditions. Bidders must identify any issues with the terms and conditions in the OSA’s standard contract and its related exhibits as part of their proposal, including proposing alternative language if appropriate. The OSA will consider this information when evaluating proposals and making the contract award.

8. Compensation and Staff Hours

This section of the proposal must:

- a. State the number of professional staff hours estimated to complete the audit work by staff level, the associated hourly rate, and the resulting total cost. Travel costs incurred in the performance of audits are reimbursable only as a part of the hourly rate and must be covered under said rate and will not be separately reimbursed.
- b. State the total inclusive maximum fee for which the work requested will be done, and provide separated fees for audit work of federal major programs. The fees for this audit work will be added to the base price. The anticipated fee for the audit of a federal major program for Fiscal Year 2024 is \$8,800.
- c. Affirm that all prices, terms, and conditions will be held firm for at least 90 days after the bid opening.

9. Delivery Schedule

Include a detailed proposed schedule of the audit work to be performed and deliverable due dates for the project milestones discussed in Section I(C)–Services Required.

10. Additional Data

Include additional information that is considered essential to the proposal but has not otherwise been provided in response to a specific item in this section.

B. Separate Redacted Proposal for Proposals Containing Proprietary Information

All proposals submitted to the OSA in response to this RFP are subject to the Colorado Open Records Act (CORA). In accordance with CORA, bidders may request that the OSA withhold proprietary information (i.e., trade secrets) in their proposals from public disclosure pursuant to a CORA request.

Bidders requesting that the OSA withhold proprietary information in their proposal from public disclosure pursuant to a CORA request must prepare and submit a separate redacted copy of their proposal to the OSA. In no event may an entire proposal be classified as proprietary information.

The OSA will review any designations of proprietary information for reasonableness and appropriateness as part of its review of proposals. If the OSA does not agree with the bidder's designation of proprietary information, the bidder will be notified and asked to provide additional explanation and clarification and, if necessary, refine what is designated as proprietary information and submit a revised redacted proposal.

Section III

Proposal Evaluation Process

A. General

An OSA evaluation team will judge the merits of proposals received in accordance with the general criteria defined below.

During the evaluation process, the evaluation team may, at its discretion, request any one or all bidders to make oral presentations or answer questions about their proposals. Not all bidders may be asked to make such oral presentations.

After an Incident, Contractor shall take steps to reduce the risk of incurring a similar type of Incident in the future as directed by the State, which may include, but is not limited to, developing and implementing a remediation plan approved by the State at no additional cost to the State. Any assignment, transfer, or subcontracting of Contractor’s rights or obligations under this Contract that is approved by the State is subject to the provisions of this Contract. Upon the request of the State, Contractor shall provide to the State a copy of any subcontract entered into by Contractor in connection with this Contract. Contractor is solely responsible for all aspects of subcontracting arrangements and performance, and any subcontract entered into by Contractor in connection with this Contract must comply with all applicable federal and state laws and regulations and provide that it is subject to all provisions of this Contract and governed by the laws of the State.

B. Binding Effect

Except as otherwise provided in §20.A. of this Contract, all provisions of this Contract, including the benefits and burdens, extend to and bind the Parties' respective successors and assigns.

C. Captions and References

The captions and headings in this Contract are for convenience of reference only, and shall not be used to interpret, define, or limit its provisions. Unless the context clearly otherwise requires, all references in this Contract to sections (whether spelled out or using the § symbol), subsections, or Exhibits refer to sections, subsections, or Exhibits contained in this Contract or incorporated by reference into this Contract.

D. Counterparts

This Contract may be executed in multiple identical original counterparts, each of which is an original, but all of which, taken together, constitute one and the same agreement.

E. Entire Understanding

This Contract represents the complete integration of all understandings between the Parties related to the Work, Services, and Work Product and all prior representations and understandings related to the Work, Services, and Work Product, whether oral or written are merged into this Contract. Prior or contemporaneous additions, deletions, or other changes to this Contract do not have any force or affect whatsoever, unless embodied in this Contract.

F. Digital Signatures

If any signatory signs this agreement using a digital signature, any agreement or consent to use digital signatures within the electronic system through which that signatory signed is incorporated into this Contract by reference.

G. Modification

Except as otherwise provided in this Contract, any modification of this Contract is only effective if agreed to in a formal written amendment to this Contract that is properly executed and approved in accordance with applicable State law.

H. Statutes, Rules, Regulations, and Other Authority

Unless otherwise specifically provided, any reference in this Contract to a federal or state statute, rule, or regulation or to any other source of legal or policy authority refers to the current version of the statute, rule, regulation, or other authority including any amendments or changes to the authority made after the Effective Date.

I. Order of Precedence

If a conflict or inconsistency arises between any provision contained in the main body of this Contract and any Exhibit, the conflict or inconsistency must be resolved by reference to the documents in the following order of priority:

- i. Colorado Legislative Branch Special Provisions;
- ii. The remaining provisions of the main body of this Contract; and
- iii. The Exhibits.

J. External Terms and Conditions

Notwithstanding anything to the contrary in this Contract, the State is not subject to any provision included in any terms, conditions, or agreements appearing on Contractor's or a Subcontractor's website or any provision incorporated into any click-through or online agreements related to the Work unless this Contract specifically references that provision.

K. Severability

The invalidity or unenforceability of any provision of this Contract does not affect the validity of or enforceability of any other provision of this Contract, which remains in full force and effect, so long as the Parties can continue to perform their obligations under this Contract in accordance with the intent of the Parties.

L. Survival of Certain Contract Terms

Any provision of this Contract that imposes an obligation on a Party that begins after or continues after the termination or expiration of this Contract survives the termination or expiration of this Contract and is enforceable by the other Party.

M. Taxes

The State is exempt from federal excise taxes under I.R.C. Chapter 32 (26 U.S.C. Subtitle D, Ch. 32) (Federal Excise Tax Exemption Certificate Registry No. 84-730123K) and from State and local government sales and use taxes under §§39-26-704(1), and 29-2-105(1)(d)(I), C.R.S. (Colorado Sales Tax Exemption Identification Number 98-20565). The State is not liable for the payment of excise, sales, or use taxes, regardless of whether any political subdivision of the State imposes such taxes on Contractor. Contractor is solely responsible for any exemptions from the collection of excise, sales, or use taxes that Contractor may wish to have in place in connection with this Contract.

N. Third Party Beneficiaries

Except for a person who assumes Contractor’s rights and obligations under this Contract as a successor or assign in accordance with §§20.A. and 20.B. of this Contract, this Contract does not and is not intended to confer any rights, obligations, or remedies upon any person or entity other than the Parties. Enforcement of this Contract and all rights and obligations under this Contract are reserved solely to the Parties. Any services or benefits that third parties receive as a result of this Contract are incidental to the Contract and do not create any rights for the third parties.

O. Waiver

A Party’s failure or delay in exercising any right, power, or privilege under this Contract, whether explicitly or by lack of enforcement, does not operate as a waiver of the right, power, or privilege, and a single or partial exercise of any right, power, or privilege does not preclude any other or further exercise of the right, power, or privilege.

P. CORA Disclosure

This Contract is a public record that, to the extent not prohibited by federal law, is subject to public release through CORA.

Q. Standard and Manner of Performance

Contractor shall perform its obligations under this Contract in accordance with the highest standards of care, skill, and diligence in Contractor’s industry, trade, or profession.

R. Indemnification

i. General Indemnification

Contractor shall indemnify, save, and hold harmless the State and the State’s employees, agents, and assignees (“Indemnified Parties”), against any and all costs, expenses, claims, damages, liabilities, court awards, reasonable attorney’s fees and costs, and other amounts claimed by third parties and incurred by any of the Indemnified Parties to the extent caused by any negligent act or omission or intentional, willful or deliberate misconduct by Contractor or Contractor’s employees, agents, Subcontractors, or assignees in connection with this Contract.

ii. Confidential Information Indemnification

Disclosure or use of State Confidential Information by Contractor in violation of this Contract may be cause for legal action by third parties against Contractor, the State, or their respective agents. Contractor shall indemnify, save, and hold harmless the Indemnified Parties against any and all costs, expenses, claims, damages, liabilities, court awards, reasonable attorneys’ fees, and other amounts, asserted by third parties and incurred by the State to the extent caused by any act or omission by Contractor or Contractor’s employees, agents, assigns, or Subcontractors that violates this Contract.

iii. Intellectual Property Indemnification

Contractor shall indemnify, save, and hold harmless the Indemnified Parties against any and all costs, expenses, claims, damages, liabilities, court awards, reasonable attorneys’ fees, and other amounts asserted by third parties and incurred by the Indemnified Parties to the extent caused by

any claim that any Work infringes a patent, copyright, trademark, trade secret, or any other intellectual property right.

S. Limitation of Contractor Liability

Any liability of Contractor and its personnel to the State for any breach of this contract or act or omission that directly damages the State is limited to the amount of the fee to be paid by the State to Contractor under this Contract. This limitation does not apply to any requirement of this Contract that Contractor indemnify the State for liabilities of the State to any third party that result from any negligent, intentional, or deliberate acts or omissions of Contractor.

1. Contractor's audit of the Audited Agency must include the following:
 - a) Audit of the basic financial statements of the Audited Agency for the year ended June 30, 20XX, including a review of the related internal control structure as required by generally accepted auditing standards and *Government Auditing Standards*. This includes the identification of the Audited Agency's key information technology systems, and determination of the extent of testing to be performed on those systems, in accordance with auditing standards.
 - b) Audit of the Audited Agency's federal grant programs (see Exhibit F) under the federal Single Audit Act for the year ended June 30, 20XX, as applicable.
 - c) Financial and compliance audit of the Statement of Appropriations, Expenditures, Transfers and Reversions of the Audited Agency's State-Funded Student Financial Assistance Programs, including a review of the related internal control structure as required by generally accepted auditing standards and *Government Auditing Standards*.
 - d) Review of the Audited Agency's compliance with state and federal laws and regulations, State Fiscal Rules, and bond covenants that could have a material effect on the Audited Agency's financial statements.

- e) Performance of audit work to evaluate the Audited Agency's progress in implementing prior audit recommendations.
- f) Review of exhibits required by the State Controller to be submitted to the State Controller in support of the statewide financial statements. Also, review of all of the Audited Agency's adjusting entries, posted or not, after the Colorado Operations Resource Engine's (CORE's) final year-end closing.
- g) Submission of attestation memos to the OSA on the results of audit work performed. These memos will be used to support the audit of the statewide financial statements and statewide Single Audit.
- h) Preparation of report comments and/or a management letter, as appropriate based on assessed severity level, containing audit findings and recommendations for improvements in the operations, internal controls, and accounting procedures of the Audited Agency, along with any opportunities for cost savings determined through the audit. This will include obtaining and reviewing responses to the recommendations from the Audited Agency's management and ensuring they meet the State's established parameters for responses. In accordance with *Government Auditing Standards*, for any "Partially Agree" or "Disagree" response, the contractor shall prepare an Auditor's Addendum as a rebuttal to the Audited Agency's response. All report comments, management letters, responses, and Auditor's Addenda must be reviewed and approved by the OSA. Note: Deficiencies in internal control will be written and included either as a finding or in a management letter and cannot be communicated orally. Any deficiencies that Contractor plans to communicate orally must be approved by the OSA.
 - i. Communicate in writing to the Audited Agency a summary of any exceptions identified during testing prior to the drafting of any findings or management letter comments.

- n) Issuance of an independent auditors' report on the application of agreed-upon procedures to the Audited Agency's (Division I/Division II) Intercollegiate Athletic Program Statement of Appropriations, Expenditures, Transfers and Reversions for the year ended June 30, 20XX.
2. As it performs the Work, Contractor shall maintain an awareness of any areas beyond the scope of the Services in which the Audited Agency may not be carrying out the Audited Agency's programs in an effective and efficient manner. Contractor shall discuss any such areas with the State to determine whether the State desires Contractor to expand the scope of Services of this Contract. The cost of such additional Services are not included within the scope of this Contract, and any additional Services shall be subject to negotiation and set forth in a separate agreement among Contractor, the State Auditor, and the Legislative Audit Committee.

B. Review by State

During the performance of Services under this Contract and prior to completion of the Work by the date specified in §6.A. of this Contract, the State has access to and the right to review Contractor's Work and Work Product, whether in draft or final form, for acceptability and to provide guidance, direction, and feedback and suggest revisions. Contractor may not submit written management letters, findings, or the Audit Report, whether in draft or final form, to the Audited Agency until they are deemed acceptable and approved by the State. A draft Audit Report, including findings and management letters, will be submitted to the State for review by October 16, 2024.

C. Availability

Contractor, upon the request of the State, shall furnish copies of Contractor's work programs developed pursuant to this Contract and make all other workpapers available to the State for review or use in future audits at no additional charge to the State.

D. Reports

Contractor shall prepare and deliver the Audit Report to the State on the due dates set forth in **Exhibit H and I, as applicable**. All Work will be completed no later than **October 28, 20XX**, unless the State has approved an extension of time. If Contractor becomes aware that the due date for the Audit Report cannot be met, Contractor shall notify the State in writing of the reasons for the delay and identify a specific date when the Audit Report will be delivered. For a separately issued Audit Report, Contractor shall deliver to the State up to 50 copies of the bound report as determined by the State at the time of report finalization. Acceptable binding formats for the Audit Report are limited to spiral, comb, or glued bindings; 3-ring bindings are not acceptable. Contractor shall also deliver to the State an electronic copy of the Audit Report in unprotected Adobe PDF format or any other format prescribed by the State.

E. Oral Presentations

Upon the request of the State, Contractor shall make an oral presentation of the Audit Report to the Legislative Audit Committee and, if applicable and upon notification by the State, one other legislative committee.

F. Entrance and Exit Conferences

The State shall participate in all entrance and exit conferences between the Audited Agency and Contractor, as well as other critical meetings, such as those dealing with audit findings.

3. PERSONNEL

A. Contract Monitor

Contractor's performance under this Contract shall be monitored by **NAME OF CONTRACT MONITORS**, employees or agents of the State, who are hereby designated as the Contract Monitors. The Contract Monitors shall review Contractor's Work and Work Product, attend key meetings (*e.g.* entrance and exit conferences), and act as liaisons between the OSA, Contractor, and the Audited Agency. With the exception of contract monitoring activities, and unless otherwise noted in this Contract, the State is not required to provide any additional staff time in connection with the Services provided or Work performed.

B. Other Key Personnel

The key personnel identified by Contractor in the Contractor's Proposal are deemed to be essential to the Work being performed under the Contract.

C. Replacement

Contractor shall immediately notify the State if any key personnel cease to be employed by Contractor. Before diverting any key personnel to other programs, Contractor shall give the State fifteen (15) days advance notice and shall submit to the State justification, including proposed personnel substitutions, in sufficient detail to permit evaluation of the impact on the Contractor's performance of the Work. Contractor shall not divert any key personnel without the prior written consent of the State, which the State shall not unreasonably withhold. Contractor shall replace any key personnel with personnel of substantially equal or greater ability and qualifications to perform the Work.

4. ACCEPTANCE CRITERIA

If the State determines that the Work or Work Product is unacceptable (either before or after a draft or a final Audit Report is issued) due to Contractor's failure to comply with applicable auditing standards or satisfy any requirements included in this Contract, the State, at the State's direction, may require Contractor to re-perform the Work at its own expense and submit a revised Work Product. The State's right to reject Contractor's draft or final Audit Report because of the failure to comply and Contractor's obligation to re-perform or revise extend throughout the term of this Contract and continue for one (1) full year after the termination of this Contract.

5. PAYMENTS

Payments shall be made in accordance with **Exhibit F** and any other applicable provisions of this Contract.

27. EXHIBIT E - INFORMATION SECURITY POLICY FOR CONTRACTORS

Applicability

This policy applies to all OSA Contractors at all locations who are conducting audits or professional services on behalf of the OSA using State of Colorado information or any information, electronic or otherwise, obtained, utilized, or generated by an OSA Contractor while performing work on behalf of the OSA.

Definitions

Confidential information assets – are defined in paragraph 5. below.

OSA Contractor(s) or Contractor(s) – any business, company, corporation, partnership, or individual conducting business on behalf of or in cooperation with the OSA, whether via contract, purchase order, or other purchasing agreement. OSA Contractors include Subcontractors and their employees.

Protected information assets - are defined in paragraph 4. below.

State of Colorado information, information or audit information – any information, whether in electronic or hard copy form, obtained, utilized, or generated by an OSA Contractor while performing work on behalf of the OSA.

State Auditor Authority and Responsibility

The State Auditor’s authority and responsibility for accessing and handling confidential information is set forth in the Colorado Revised Statutes. §2-3-107(2)(a), C.R.S., provides that the State Auditor or his or her designated representative “shall have access at all times... to all of the books, accounts, reports, vouchers, or other records or information in any department, institution, or agency, including records or information required to be kept confidential or exempt from public disclosure upon subpoena, search warrant, discovery proceedings, or otherwise.” Additionally, §2-3-103(3), C.R.S., provides that “work papers of the office of the State Auditor shall be open to public inspection only upon approval of the majority of the members of the audit committee” and that “work papers that have not been specifically approved for disclosure by a majority vote of the committee shall remain confidential.” Finally, §§2-3-103.7 and 2-3-107(2)(b), C.R.S., prescribe penalties for willful or unlawful release of confidential information and prohibit the release of information required to be kept confidential pursuant to any law. The volume and availability of confidential information in electronic and hardcopy format, along with the risk to the OSA should confidential information be inadvertently released or breached, heightens the need for rigorous procedures governing the receipt, storage, and destruction of confidential data.

Policy Compliance

1. All OSA Contractors and their personnel who are performing the Work are required to understand and abide by this policy.
2. By signing an OSA contract or purchase order, an OSA Contractor agrees to abide by this policy and require its personnel performing the Work, including Subcontractors and their employees, to understand and abide by this policy.

Data Classification

3. Any State information asset whether in hardcopy or electronic form (e.g., data, databases, reports, communications, manuals, documentation for systems, procedures, and plans) that is used in the course of an audit on behalf of the OSA is considered either “Protected” or “Confidential,” unless expressly stated otherwise in writing by the State Auditor.
4. “Protected information assets” are defined as information that: (i) is required by federal, state, or local laws and statutes to be protected; or (ii) would, in the event of a breach of confidentiality, loss of integrity, or lack of availability, seriously and adversely impact the OSA or the State, up to and including physical harm to individuals, or cause significant hardship to the OSA, the State, or commercial entities that have entrusted the information to the OSA.
5. All OSA Contractor audit information not categorized as “Protected” are automatically classified as “Confidential.”

Use and Protection of Information Assets

6. Contractors must take reasonable and prudent measures to protect all OSA audit information and the systems that process, store, and transmit such information from unauthorized disclosure and modification regardless of where the OSA audit information and the systems are located.
7. All State information systems (e.g., networks, intranets, internet connections, telephones, fax, etc.) are the property of the State and are for State business use only. Contractor shall not use State information systems to knowingly access, store, or distribute offensive material, such as pornography. Contractors may not use State of Colorado systems to knowingly compromise other systems, networks or safeguards unless the OSA specifically authorizes them to do so in order to test the security of such systems, networks, or safeguards for legitimate State purposes.
8. Any unauthorized attempt to access information that is outside Contractor’s “need-to-know” for his/her operational purposes is prohibited.
9. Contractors must encrypt all “Protected” and “Confidential” information when stored on portable computers or removable media (e.g., laptops, external hard drives, CDs, USB drives.)
10. Contractors must, at all times, physically secure portable computers used in storing and processing audit information on behalf of the OSA through the use of cable locks or other security measures or, when physically securing a portable computer at a work site is not feasible, use encrypted devices or other security measures to ensure that theft of a portable computer does not result in the loss or disclosure of State Confidential Information or Work Product.
11. Contractors shall not leave any portable computers, removable media (e.g., laptops, external hard drives, CDs, USB drives), or hard copy information containing “Protected” and “Confidential” information unattended, such as in vehicles or in checked airport luggage.

Viruses and Malicious Code

12. Contractors must effectively deploy personal firewall security and up-to-date malicious code/virus protection software for all systems and devices used to access audit information or in carrying out official OSA business.

Telecommunications Security and Information Transmission

13. Contractors are responsible for being aware of and protecting against current and potential telecommunications (e.g., telephones, voice mail, mobile phones, conference calls, instant messaging, and facsimile machines) security risks in their given environment.
14. Contractors are prohibited from connecting to any state networks in connection with the Services hereunder without prior authorization from the OSA and the information security officer of the Audited Agency. In the case of executive branch agencies, Contractors should submit a request with their agency liaison to obtain permission through the Governor's Office of Information Technology access management team.
15. Contractors shall make every effort to ensure that all State of Colorado information is protected from inadvertent disclosure when being sent over the Internet or other non-State of Colorado networks.
16. Contractors shall not connect portable computers containing "Protected" or "Confidential" data to any public WiFi networks (e.g., internet cafes) without adequately protecting such information through the use of hard drive encryption and the use of an encrypted VPN tunnel.
17. Contractors must always consider information sensitivity and transmission security issues when selecting a transmission medium. "Protected" and "Confidential" data must only be transported or transmitted over a public network when protected by encryption.
18. When data is stored on electronic media or a mobile computing device, the data must be encrypted at all times during physical transport.
19. Transmission of Protected or Confidential data over a public network by unencrypted email is prohibited.

Information Storage and Disposal

20. Media or hard copy documents containing Protected or Confidential information are to be appropriately labeled as such and protected in accordance with this **Exhibit E**.
21. Contractors must maintain physical media security by using locking filing cabinets or drawers and locking them when left unattended. Media security may also be achieved by locking the door of a private office.
22. Personal computers, laptops, USB drives, mobile phones, personal digital assistants (PDAs), and other devices and media containing State of Colorado information must be secured by their users from loss, theft, and unauthorized use.
23. Contractors shall not leave unattended any device containing State of Colorado information unless a password-engaged screensaver is used. The screen saver must engage after no more than 2 minutes of inactivity unless Contractor has a policy that requires its employees and its Subcontractors' employees to manually lock the device when leaving it unattended.
24. Contractors must ensure that portable storage devices (e.g., external hard drives, CDs, USB drives) that will be leaving their effective control or are at the end of their useful lives, are cleaned and sanitized (i.e., cleared, purged, and destroyed) of all Protected or Confidential data in conformance with NIST

Special Publication 800-88 or other standard procedures and requirements set by the U.S. Department of Defense, such as DoD 5220.22-M.

25. Hard copy documents containing Protected or Confidential information must be shredded prior to disposal.
26. Data storage devices (CDs, DVDs, and floppy disks) containing Protected data must be physically destroyed at the end of the audit. For thumb drives and portable hard drives, Contractor must either use an electronic shredding program to destroy the data or destroy the device at the end of the audit. A record of disposal is to be maintained in the workpapers by the Contractors. A record of disposal must contain the name of the individual disposing of the data, the method used to dispose of the data, identifying qualities of the data (such as the serial number of the media on which it was stored, if applicable), and the date of disposal.

Incident Reporting

27. All suspected loss or compromise of OSA audit information as a result of the loss of a desktop, portable, or mobile computing device or removable storage device by any means (e.g., theft, loss) used to store State of Colorado data shall be reported to the OSA Contract Manager within 24 hours of discovery.
28. 29. EXHIBIT G - DEVELOPING AND PRESENTING AUDIT FINDINGS

Developing and Presenting Audit Findings

An audit finding is a written explanation of the information developed during the audit engagement concerning errors, omissions, weaknesses, or areas for improvement. It is the source from which all audit recommendations flow. Audit findings have certain common elements. The five elements of an audit finding are criteria, condition, cause, effect, and recommendation.

Title of Finding

Provide brief background information about the program in one or two paragraphs. Do not include criteria, condition, cause, or effect in this background section.

What was the purpose of our audit work and what work was performed?

Describe the purpose of the audit work in one sentence. (i.e., “The purpose of the audit work was to XXXX.”)

Briefly describe the audit testwork that was performed using bullets and/or one to two paragraphs. (i.e., describe the data and documents reviewed, individuals interviewed, and the sample selected and sample methodology).

How were the results of the audit work measured? (*Criteria*)

The criteria are the standards against which the condition is measured. They are standards used to evaluate a particular event or process and describe “what should be.” Some examples of criteria include:

- Colorado Constitution
- Colorado Revised Statutes
- Colorado state agency rules and regulations
- federal laws and regulations
- State Fiscal Rules and Fiscal Procedures Manual
- Generally Accepted Accounting Principles
- program-specific written policies and procedures
- program-specific written goals and objectives
- good business practices
- unwritten policies, procedures, goals, and objectives as explained by the Audited Agency’s personnel

If the criteria are not already set forth in writing, it may be necessary to find information to serve as evidence of criteria. When common sense or expert opinion is used as criteria, the development of the finding must be logical and convincing to the reader, who may not possess the same level of expertise. This is also important because such criteria are less authoritative than other types of criteria.

This section should briefly describe the criteria of the finding. Strive to provide the essential information in one or two short paragraphs, bullets, or in a table.

What problem(s) did the audit work identify? (*Condition*)

The first step in developing a finding is to identify the statement of condition. This occurs during the “fact-finding” process when the auditor compares “what is” with “what should be.” When there is a difference between “what is happening” with “what should be happening,” the first element (condition) of an audit finding is identified. The condition should be a factual statement of what was found and be free of value judgments.

This section should describe the overall problem (the condition of the finding) in one or two sentences. Then provide specific examples that support the condition (e.g., exceptions identified during the audit test work). Use bullets and tables to describe the types of exceptions identified.

Why did this/these problem(s) occur? (*Cause*)

The cause is the element of the audit finding which explains why the “condition” exists. The cause represents what must be corrected to prevent the recurrence of the existing condition. As such, auditors must correctly identify the cause before a proper course of action can be devised. Developing the cause frequently requires a fairly extensive analysis of the problem. Often, there are multiple factors causing the problem. The human behavior aspect, which increases the difficulty in identifying the proper cause, is always present. Nevertheless, auditors should make a reasonable effort to determine as closely as possible the real cause of the problem. Examples of cause include:

- negligence
- inadequate resources
- inadequate training
- poor communication
- inadequate guidelines or standards
- absence of good management techniques
- failure to follow established policies and procedures

This section should describe the cause of the finding in one or two paragraphs or in bullets that correspond to the bullets used in the condition section above.

Why does/do this/these problem(s) matter? (*Effect*)

The effect represents the end result of the activity being measured. It is the impact of the difference between the statement of condition and the criteria. The attention given to an audit finding depends largely upon its significance, and significance is judged by effect. What is the result if nothing is done about the problem identified? Auditors frequently use materiality to measure the potential significance of findings. The effect of an adverse audit finding is what motivates management to take needed action to correct the condition. When the effect is insignificant, the auditor should consider eliminating the finding from the report or grouping it with other minor findings. Some examples of effect include:

- violation of law or regulation
- noncompliance with legislative intent
- loss of potential income
- program goals and objectives not being met
- increased costs
- poor service quality

- inefficient service delivery
- increased risk of fraud and abuse
- reduced effectiveness

When determining the effect of an audit finding, auditors should look at outcomes such as impacts on citizens, services, or public safety. In addition, the fiscal impact of the finding (e.g., increase or decrease in revenue or costs) should be quantified where possible. The estimated fiscal impact should be discussed with the Audited Agency and reported as an estimate (e.g., we estimate this change will eliminate one administrative support position with an estimated annual cost of \$26,000).

This section should describe the effect of the finding in one or two paragraphs or bullets. Quantify the effect to the extent possible.

Recommendation No. X:

The recommendation is the action believed necessary to correct the adverse situation. Generally, each finding will result in one or more recommendations. The following are guidelines for developing recommendations:

- Write recommendations that address or solve the “cause” of the problem.
- Write recommendations as realistically and specifically as possible so they are more likely to be understood by and prove useful to the Audited Agency.
- Present recommendations in a constructive tone and emphasize improvement rather than criticism of past activities. Auditors should keep in mind that their objective is to motivate the Audited Agency to take action. This can best be done by avoiding language that unnecessarily generates defensiveness and opposition.
- Write your recommendation so that it can be understood by itself (e.g., the reader will not have to refer to the finding to understand the recommendation).
- Avoid introducing new information in the recommendation that was not presented in the body of the finding. The recommendation should follow logically from what was presented in the finding.
- Avoid extreme language such as “immediately,” “without delay,” or “as soon as possible.” These phrases do not add to the substance of the recommendation. In situations where there is an urgency to correct a problem, include in the recommendation the consequence of delay (e.g., continued loss or waste of money).

The Department of XXXX should XXXX by:

- a.
- b.

The written Audit Report, which contains all audit findings and recommendations, is issued to legislators and other state and federal officials who have limited time to read reports. Therefore, the Contractor should present findings as concisely as possible, but with enough clarity to be understood by the reader. In addition to being clear and concise, audit findings should be logical, convincing, and constructive. The findings should be presented in a way that will convince the reader of their significance and motivate the Audited Agency to take action. This is accomplished by clearly presenting the five elements of an audit finding—condition, criteria, effect, cause, and recommendation.

For additional guidance regarding developing audit findings, please consult *Government Auditing Standards* issued by the U.S. Comptroller General, which is available online at <http://www.gao.gov/>.

If this applies to your Attest A1, please respond "Yes" to question 2b and question 4 on your submitted Attest A1 and provide your Contract Monitor an expected date of submission for these attachments.

D. If, during the course of your audit, any of the following items are revised, DO NOT submit a revised Attest A1. Revised risk assessments, audit approaches, and audit plans should be communicated to your contract monitor as soon as practical and be submitted with future Attest Memos.

Table with 2 columns: RESPONSE and EXPLANATION(S). Contains 10 rows of questions regarding planning procedures, risk assessment, and audit strategy.

7c. Are there additional major programs that were not identified in the preliminary major programs assessment provided by the OSA? If "Yes," please provide an explanation. For example, were there any federal programs not included on the preliminary analysis that will exceed the Fiscal Year 2023 Type A (\$32 million) or Type B (\$8 million) major program threshold by June 30, 2023?

7d. Did the department/institution receive any stimulus money directly from the Federal Government by June 30, 2023 that wasn't listed on the preliminary major program assessment provided by the OSA? If "Yes," then please provide an explanation that includes the following information:

- Amount of federal money received by the department/institution, and how much of that amount will be expended by June 30, 2023.
- Assistance Listing Number (ALN) number and name of program.
- Indicate whether the ALN number was previously/already used by the department/institution, or not (i.e., Is it a new program or additional funding for an existing program?).

7e. If OSA communicated that there were no preliminary major programs at the department/institution, do you agree with that communication provided by the OSA? If "No," then please provide an explanation that includes the following information:

- Amount of federal money received by the department/institution, and how much of that amount will be, or was, expended by June 30, 2023.
- Assistance Listing Number (ALN) and name of program.
- Indicate whether the ALN was previously/already used by the department/institution, or not (i.e., Is it a new program or additional funding for an existing program?).

8. In accordance with 2 CFR 200.518, we need to ensure that our evaluation of Low Risk Type A programs is accurate. Therefore, we need audit teams to provide the following information in relation to the Type A major program determinations in the preliminary major program assessment provided by the OSA.

Note: These questions should cover all of the department/institution low-risk Type A programs. Therefore, if a response for one program is Yes and one is No, then discuss in the explanation both programs and explain the "No" for the second program.

8a. Have there been any changes in personnel (either program or financial) affecting the Type A program(s)? If Yes, please provide a description of the changes.

8b. Have there been any changes in systems affecting the Type A program(s)? (Note: "Systems" includes changes in IT systems, internal control systems, etc.) If Yes, please provide a description of the changes.

8c. If either 8a or 8b is Yes, do these changes indicate significantly increased risk and preclude the program(s) from being low risk? If Yes, please provide the Major Program name and ALN . If no, please provide an explanation.

9. Based on planning, will you be able to test all auditable, direct, and material compliance requirements for the identified major program(s)? If no, please attach an explanation.

Note: The major program opinion covers the State. Therefore, a compliance requirement cannot be determined not direct and material if the requirement is performed at another State Department/Institution.

10. Have you identified any federal requests or review for an audit, or any requirements for a program audit, in any of the department's/institution's program grant agreements? If "Yes", please provide an explanation.

Note: Please add additional tabs or attachments, as necessary, to support explanations noted in responses above.

If "Yes," please provide an explanation of the audit areas that will have a High or Moderate control risk and additional substantive procedures to be performed.	<input type="text"/>	<input type="text"/>
ALL	5. We have performed the audit procedures indicated in the following table for risk factors identified related to financial statement internal controls for all activity related to financial statement reporting: (NOTE: Auditor judgment is required to assess risks for the audited department/institution. If the audited department/institution has been identified as a significant component, component materiality is required to be used to assess quantitative risk. Low risk and immaterial areas are not required to be tested unless otherwise deemed necessary by the department/institution auditor. These areas may include, but are not limited to, expenditures/expenses, revenue, payroll, appropriations, capital assets, and/or any type of transaction type within any of these categories. Report all testing performed even if no exceptions have been identified. Indicate those risks that are significant to the department/institution.)

General Attest Memo Instructions. Attest Memos will not be accepted if they don't adhere to the following:

A. Only submit FINAL versions of Attest Memos. DRAFT versions will not be accepted. If you anticipate that an Attest Memo will need to be submitted later than the Attest Memo due date of September 13, 2023, please contact your Contract Monitor to request preapproval for an extension.

B. Submit the Attest Memo as an unprotected Excel file.

C. DO NOT add additional rows to the Attest Memo, except for the table portion of this Memo (below).

D. When you need to provide explanations or additional information, please add a new tab or separate attachment, and include all explanations or additional information there.

Specific Attest D1 Instructions. Attest D1s will not be accepted if they don't adhere to the following:

E. If you answer "Yes" to question "1." below, then you MUST have PYAR statuses approved by the Financial Deputy State Auditor, and when applicable, the IT Audit Manager, PRIOR to submitting this Attest Memo to the Statewide team on September 13, 2022. Send this attest to the contract monitor or Manager for approval by the Financial Deputy State Auditor, and when applicable the IT Audit Manager, no later than August 31, 2023 so that the PYAR statuses can be approved before the Attest Memo due date of September 13, 2023. Provide all information requested in the table below (i.e., responses to questions 4 - 12) to the Financial Deputy State Auditor, and when applicable the IT Audit Manager, for review and approval. See Question 3 below for additional information regarding this approval.

F. The Attest D1 is used for different purposes than the Attest F1. The information included with the Attest D1 will be used to create the OSA's "Annual Report: Audit Recommendations Not Fully Implemented, as of June 30, 2023", which will be provided to all state legislators in Colorado, so timely submission is crucial. Also, the use of the status "Deferred" is different for Attest D1 and Attest F1. For the Attest D1:

- Only use the "Deferred" status on the Attest D1 if the department's/institution's original implementation date (provided when OSA first made the recommendation in prior years) is **after June 30, 2023**.
- If a department/institution changed its planned implementation date since the original recommendation was written, then "Deferred" is **not** a valid status on the Attest D1 (but may be a valid response on the Attest F1). For example, if PYAR 2022-03 has an implementation date of January 1, 2024, but was originally written as a recommendation in FY 2019 as rec 2019-01 with an implementation date of June 30, 2019, then "Deferred" CANNOT be used as a status on the Attest D1 (for the Attest F1, "Deferred" could be an acceptable status in this example).
- Additional examples on the use of "Deferred" are provided in the table below.

G. Please delete the information in the EXAMPLE rows in the table below (i.e., example responses to questions 4 - 12) prior to submission.

	RESPONSE Please select from the drop down box
<p>1. Does your department/institution have any Prior Year Audit Recommendations (PYARs)? -PYARs are the department/institution recommendations that were included in a prior year Statewide report or a stand-alone financial audit report, or outstanding PYARs in either report. -If your response to this question is "No," you are done with this attest memo and you may leave remaining questions, and the table below, blank.</p>	<input style="width: 100%; height: 50px;" type="text"/>
<p>2. Have you completed testing on all PYARs? -If your response to this question is "No," please indicate which PYARs still have testing in progress in the auditor's disposition column (i.e., question 8) in the table below. Additionally, include the following information in question 9 in the table below: (1) A detailed explanation as to why the testing is not completed, what partial testing has already been done, or reason for deferral of testing; (2) support/explanation for the preliminary auditor's disposition; (3) the expected completion date of the testing. -If significant issues have delayed PYAR testing, then PYAR testing must be completed no later than the Attest F1 due date of October 31, 2023.</p>	<input style="width: 100%; height: 50px;" type="text"/>
<p>3. Have all of the PYAR dispositions been included in the table below, and been submitted to, reviewed, and approved by the Financial Deputy State Auditor, and when applicable, the IT Audit Manager? -For contractors, please submit the dispositions to your contract monitor by August 31, 2023, and the contract monitor will let you know once the dispositions are approved by the Financial Deputy State Auditor, and when applicable, the IT Audit Manager. -Contract monitors and in-house teams, please send the below table to the Financial Deputy State Auditor, and when applicable, the IT Audit Manager. Please ensure all information in the table below is included in the document sent to the Financial Deputy State Auditor, and when applicable, the IT Audit Manager. All information included in the table below should be included in the document used to obtain approval from the Financial Deputy State Auditor, and when applicable, the IT Audit Manager. -See Instruction E above for additional details on this item.</p>	<input style="width: 100%; height: 50px;" type="text"/>

4. FY2022 Report Year-Rec. No., & Subpart. (Note: Each subpart should have its own line) ¹	5. If this recommendation was a recommendation made prior to FY2022, then list all PYARs. (Note: Indicate the pre-FY2022 audit year, the rec number, and the subpart) If this recommendation was NOT a recommendation prior to FY2022, then indicate N/A	6a. Department's Original Implementation Date for PYAR (Month and Year)	7. Department's/ Institution's Disposition from Exhibit K3 ²	8. PYAR Testing Status & Auditor's Disposition ² (See Question 2 above)	9. If PYAR Testing is not complete, or it's deferred, then provide the following in this column: (1) Explanation why testing is not done, what partial testing has already been done, or reason for deferral of testing; (2) Support/explanation for Auditor's Disposition in Question 8; (3) Expected completion date of PYAR testing. ² Dispositions can be any **one** of the following:

- "Implemented" (This is the disposition if the department/institution fully implemented all aspects of the recommendation, or the auditor's testing is in progress. If the Auditor's Disposition is "Implemented" no new implementation date needed),
 - "Not Implemented" (This is the disposition if the department/institution has not implemented any aspects of the recommendation. A new implementation date must be provided),
 - "Partially Implemented" (This is the disposition if the department/institution has taken some steps to implement some aspects of the recommendation. A new implementation date must be provided),
 - "Deferred" (Only use "Deferred" if the department's/institution's original implementation date that it provided when OSA first made the recommendation, is after June 30, 2023. see Instructions Part F at the top of this Attest Memo, and more examples in table above, for guidance in determining when "Deferred" should or should not be used. Also, Exhibit K3 does not have a "Deferred" option, so department/institution should respond "Not Implemented" when PYARs are deferred.
 - "No Longer Applicable" (This is the disposition only if there has been a change that has rendered this recommendation no longer applicable. For example, statutory change eliminated the requirement/need for a recommendation).
- *WE CANNOT ACCEPT "Implemented and Ongoing" as a disposition.

³ Level of Deficiency can be any **one** of the following: "Deficiency in Internal Control" (DIC), "Significant Deficiency" (SD), "Material Weakness" (MW), or "Not Classified - Not An Internal Control Issue".

- Examples of reasons why the Level of Deficiency may change since last year are:
- 1) Recommendation was implemented so the level of deficiency is no longer applicable;
 - 2) Recommendation was partially implemented, and after the auditor's reassessment, level dropped from SD to DIC;
 - 3) Recommendation was not implemented, and after the auditor's reassessment, additional factors have caused the level of deficiency to rise from a SD to a MW.

⁴ The new implementation date must be a specific **month and year**, and must be outside of the fiscal year tested --after June 30, 2023. The new implementation date cannot be on or prior to June 30, 2023.

General Attest Memo Instructions. Attest Memos will not be accepted if they don't adhere to the following:

A. Only submit FINAL versions of Attest Memos. DRAFT versions will not be accepted. If an Attest Memo is expected to be submitted later than the Attest Memo due date, then please contact your Team Lead/Contract Monitor and provide the expected date of submission.

B. Please submit the attestation memo as an unprotected Excel file. Additionally, DO NOT add additional rows to the attest memo. Please include explanations or additional information in Explanation(s) column, on a new tab, or as a separate attachment.

Specific Attest D2 Instructions and additional instructions noted at the bottom of the attest.

C. Please review the Attest D2 Memo prior to completing the Attest.

Please include all applicable adjustments (other than those that the auditor believes are clearly trivial) in the Schedule of Adjustments spreadsheet provided. The schedule should include all passed adjustments NOT posted in CORE identified by the department, auditor, or OSC; TAB#1: auditor-identified & Department posted adjustments; post-closing entries; and prior period adjustments. Please reference the Attest D2 Memo for additional information on what adjustments should and should NOT be included in the Schedule.

- Please exclude 999A (OSC) entries from the Schedule of Adjustments.
- Please DO NOT exclude adjustments based on assumptions about statewide triviality.
- If you are in doubt about whether to include an entry, the entry should probably be included.

The OSC has defined post-closing adjustments as any adjustments entered into CORE in Period 14 or later. Auditors should assess all entries made in Period 14 or later for the department/institution. This can be accomplished by pulling a GA-999 report from InfoAdvantage (or similar report) for all activity in Period 14 or later at the department/institution. Auditors must attest to examining these entries in this Attest Memo and material entries should be included in the attached Schedule.

	Response	Explanation
1. Are you aware of known differences that you and/or the department/institution identified during your audit? The adjustments related to these differences may be recommended for posting or be passed upon. These adjustments may be derived from your audit testwork or suggested by the department/institution. In proposing any adjustment, you duly considered relevant factors to assess whether the misstatements were material.	<input type="text"/>	
a. If yes, have you included these in the attached <i>Schedule of Adjustments</i> spreadsheet?	<input type="text"/>	<input type="text"/>
2. Did you identify likely misstatements during your audit?	<input type="text"/>	
a. If yes, have you included these in the attached <i>Schedule of Adjustments</i> spreadsheet?	<input type="text"/>	<input type="text"/>
b. For any likely misstatement that have been identified as material, did you request management to examine the entire account balance in order to identify and propose correcting adjusting entries for misstatements? (If yes, please attach an explanation and indicate which adjustments these are related to; If no, please attach an explanation on why examining the entire account balance was deemed unnecessary.)	<input type="text"/>	<input type="text"/>

3. Have you identified the amount used to define "clearly trivial" below, by fund? Please provide details below.

--	--

Note that "clearly trivial" is NOT synonymous with "not material." Matters that are clearly trivial will be of a wholly different (smaller) order of magnitude than materiality as determined under AU-C Section 320. These items should be clearly inconsequential for the Department/Institution, both individually and in the aggregate, whether judged by their amount, nature, or the circumstance under which they occur. When there is any uncertainty about whether one or more items are clearly trivial, the matter should most likely *not* be considered trivial.

a. Have you identified clearly trivial item adjustments in the explanation box or on another sheet? A description of the items, the affected fund, and dollar amounts for each trivial item must be provided. **NOTE:** Both posted and passed clearly trivial items must be included. Please provide enough information for the OSA to evaluate if the "clearly trivial" items should be audit adjustments or not.

--	--

b. If clearly trivial items were identified, have you provided a description of the "clearly trivial" threshold used for your analysis?

--	--

4. Have you assessed all post-closing adjustments, defined as any adjustments entered into CORE in Period 14 or later, that are posted by the Department, in order to determine that they are reasonable and materially accurate? Include the post-closing adjustments posted by the Department and tested by the auditor on TAB #2 of the *Schedule of Adjustments* spreadsheet? (**NOTE:** Refer to the instructions noted above or the Attest D2 memo for more information on post-closing adjustments)

--	--

5. Is the *Schedule of Adjustments* attached, including all adjusting entries needed to correct the known and/or likely identified errors (other than those that the auditor believes are clearly trivial)?
NOTE: Clearly trivial items must be listed at question 3a.

--	--

6. Have you completed all tabs and columns on the *Schedule of Adjustments* spreadsheet? **NOTE:** If a column on the Schedule is not applicable, please note N/A in cell.

--	--

7. Have you communicated all known adjustments and likely misstatements to the appropriate level of management on a timely basis?

--	--

8. Have you ensured that the department/institution's cumulative passed adjustments are below the Statewide performance materiality/component performance materiality thresholds?
NOTE: Include both known and likely adjustments when comparing cumulative passed adjustments to the Statewide performance/component performance materiality thresholds.

--	--

9. Based on your qualitative review, have you found known or likely differences which are indicative of possible fraud or management bias? If yes, please attach a detailed explanation.

--

a. If yes, has the auditor evaluated the implications of the misstatements with regard to other aspects of the audit, particularly the auditor's evaluation of materiality, management and employee integrity, and the reliability of management representations, recognizing that an instance of fraud is unlikely to be an isolated occurrence? Please include documentation of this evaluation in the detailed explanation referenced above.

--

10. Did the department/institution early implement any GASBs in Fiscal Year 2023 (ex. GASB Statement Nos. 99 or 100)? **NOTE:** The State is not early implementing any GASBs in FY2023. If the department/institution chooses to early implement, the State will need to adjust that entry or perform an analysis to see the impact to the State's Financial Statements.)

--

a. If yes, is there an adjustment needed to back out the early implementation on the State's financials?
Please include this entry on the *Schedule of Adjustments* .

--

***NOTE:** All adjustments related to early implementation of GASBs will be included on the OSC's adjustment spreadsheet in the Statewide Single Audit Report. These entries will not appear on the department/institution spreadsheet.*

PLEASE READ - The following items are noted for your information. Please contact your Team Leader/Contract Monitor if you have any questions.

- The information reported on this Attest Memo and the Schedule of Adjustments will be used to populate the adjustment spreadsheets included in the Statewide Single Audit Report, as well as the department/institution Management Representation Letter attachments, as applicable.
- Submission of a post-closing adjustment within CORE to the Office of the State Controller may not guarantee that the proposed adjustment will be posted to the State's financial statements.
- Adjustments to correct identified known misstatements that are "passed upon" at the department/institution level may still be posted to the State's financial statements when aggregated and evaluated with other adjustments across the State.
- The Office of the State Auditor evaluates each adjustment separately. The final determination of what will be posted to the State's financial statements will be made in late 2023. This evaluation may require additional adjustments to be posted.

Number	Question	Instructions for Response	Response	Explanation (if necessary)	Attachment Submitted for This Question?
1	For those auditors not issuing audit opinions on the department/institution being audited, in your professional judgment, did you obtain sufficient and appropriate audit evidence that the account balances material to the State's financial statements, based on the Statewide calculation of materiality, are presented fairly as of and for the year end? This determination is based on considerations of both quantitative and qualitative materiality factors.	If, in your professional judgment, the opinion would be other than unmodified or would contain an emphasis of matter and/or other matter paragraph, please select "No" and provide an explanation to the right. For standalone audits that issued an audit opinion, please select "N/A."			
2	For those auditors that received lead balances from the Statewide audit team, have you attached the lead schedules provided to you with a summary of how each lead schedule balance was tested (e.g., substantive analytic, internal control compliance testing, other sample testing)?	Only answer "N/A" if you did not receive lead balances for this department or agency. If you answer "No," please provide an explanation to the right.			
3	For those auditors issuing an audit opinion on the department's/institution's financial statements: Is your opinion on the department's/institution's financial statements unmodified? If "Yes," please provide a description of the significant deficiency and/or material weaknesses indicating that a report comment (i.e., finding) was written and whether or not the deficiency was identified due to fraud, abuse, and/or illegal acts. A report comment should also be prepared and submitted along with Attest F1 for those significant deficiencies and/or material weaknesses found. This report comment should also address whether the material instance was identified due to fraud, abuse and/or illegal acts, if applicable.

Please note that this department's/institution's audit team is reporting on, and responsible for, the State's compliance for the Major Program that is listed on this Attest Memo.

Required Information for the Pell Grant and Direct Loan Programs

Federal Pell Grant (Pell) (Assistance Listing 84.063)

The federal Pell Grant program provides grants to eligible students enrolled in eligible undergraduate programs and certain eligible post-baccalaureate teacher certificate programs and is intended to provide a foundation of financial aid. The program is administered by ED and postsecondary educational institutions. Maximum and minimum Pell Grant awards are established by statute, but the amount for which each student is eligible is based on Pell Grant Payment and Disbursement Schedules published every year by ED. ED provides funds to the institution based on actual and estimated Pell expenditures.

William D. Ford Federal Direct Loans (Direct Loan) (Assistance Listing 84.268) (Includes Direct Subsidized, Direct Unsubsidized, and Direct PLUS loans)

The Direct Loan Program makes Direct Subsidized Loans and Direct Unsubsidized Loans to eligible students, and Direct PLUS Loans to eligible graduate or professional students or to eligible parents of dependent undergraduate students, to pay for the cost of attending postsecondary educational institutions. Direct Loans are made by the secretary of education. The student’s SAR or ISIR, along with other information, is used by the institution to originate a student’s Direct Loan. The financial aid administrator is also required to provide and confirm certain information.

The Pell Grant and Direct Loan programs have been designated as programs susceptible to significant improper payments. As such, ED needs information concerning the audit sample to understand more fully the results of the audit and identify ways that ED can work with institutions to reduce improper payments. ED has concluded that the audit access provisions in 2 CFR 200.517(b) and Title IV regulations at 34 CFR 668.23(e)(1)(ii) give it the authority to collect certain information from the single audit in order for ED to carry out its oversight responsibilities with regard to improper payments. Therefore, when auditors are testing the SFA cluster as a major program, auditors must prepare the information described below in items 1, 2, and 3. See specific guidance below related to ED’s request for the information in item 4.

1. For audit procedures related to tests that may identify improper payments disbursements and returns of Pell funds (i.e., tests related to Eligibility, Cash Management, Verification, Disbursements to or on Behalf of Students, and Return of Title IV Funds), the auditor must provide the following if these procedures are tested at the student-level:

- a. A description of each sample drawn and details of the sample, including the number of sampled students that received Pell funds and amount of Pell funds disbursed to these sampled students for the period tested;
- b. The number of students that received Pell funds and amount of Pell funds disbursed for the population from which the sample was drawn for the period tested by sample drawn.

If these procedures (i.e., tests related to Eligibility, Cash Management, Verification Disbursements to or on Behalf of Students, and Return of Title IV Funds), are **not** tested at the student-level, the auditor must provide the following:

- a. A description of each sample drawn and details of the sample, including the amount of Pell funds sampled for the period tested;
- b. The amount of Pell funds disbursed for the population from which the sample was drawn for the period tested by sample drawn.

For samples and populations related to Return of Title IV Funds, the total Pell disbursed to the students is required even though the Return of Title IV Funds questioned costs identified from testing of the sample are based on the refunds.

If samples were drawn by Office of Postsecondary Education Identification (OPEID) number, provide the sample and population details by OPEID number (an eight-digit number). If this information is not available by OPEID, provide the aggregated sample and population amounts for the institution as a whole.

			Sample (s)	Sample (s)	Population for Each Sample	Population for Each Sample
Sample Description	Related Compliance Requirement	OPEID	Students Receiving Pell (#)	Pell Disbursed (\$)	Students Receiving Pell (#)	Pell Disbursed (\$)

2. For audit procedures related to tests that may identify improper payment disbursements and returns of Direct Loan funds (i.e., tests related to Eligibility, Cash Management, Verification, Disbursements to or on Behalf of Students, Return of Title IV Funds, and Distance Education), the auditor must provide the following if these procedures are tested at the student-level:

- a. A description of each sample drawn and details of the sample, including the number of sampled students that received Direct Loan funds and amount of Direct Loan funds disbursed to these sampled students for the period tested;
- b. The number of students that received Direct Loan funds and amount of Direct Loan funds disbursed for the population from which the sample was drawn for the period tested by sample drawn.

If these procedures (i.e., tests related to Eligibility, Cash Management, Verification Disbursements to or on Behalf of Students, Return of Title IV Funds, and Distance Education), are **not** tested at the student-level, the auditor must provide the following:

- a. A description of each sample drawn and details of the sample, including the amount of Direct Loan funds sampled for the period tested;
- b. The amount of Direct Loan funds disbursed for the population from which the sample was drawn for the period tested by sample drawn.

For samples and populations related to Return of Title IV Funds, the total Direct Loan disbursed to the students is required even though the Return of Title IV Funds questioned costs identified from testing of the sample are based on the refunds.

If samples were drawn by OPEID number, provide the sample and population details by OPEID number (an eight-digit number). If this information is not available by OPEID, provide the aggregated sample and population amounts for the institution as a whole.

- a. A description of each sample drawn and details of the sample, including the number of sampled students that received Pell funds and amount of Pell funds disbursed to these sampled students for the period tested;

If samples were drawn by Office of Postsecondary Education Identification (OPEID) number, provide the sample and population details by OPEID number (an eight-digit number). If this information is not available by OPEID, provide the aggregated sample and population amounts for the institution as a whole. If there is overlap in the samples and/or populations between compliance requirements and/or OPEIDs, provide the number of students and amount of Pell funds disbursed that overlap. For example, if the same sample is used for both disbursements and eligibility, the auditor would add narrative to the "#" and "\$" columns indicating that only one sample was selected for both disbursements and eligibility.

Item #3: For audit procedures related to tests that may identify improper payment disbursements and returns of Direct Loan funds (i.e., tests related to Eligibility, Cash Management, Verification, Disbursements to or on Behalf of Students, Return of Title IV Funds, and Distance Education), the auditor must provide the following if these procedures are tested at the student-level:

- a. A description of each sample drawn and details of the sample, including the number of sampled students that received Direct Loan funds and amount of Direct Loan funds disbursed to these sampled students for the period tested;
- b. The number of students that received Direct Loan funds and amount of Direct Loan funds disbursed for the population from which the sample was drawn for the period tested by sample drawn.

If these procedures (i.e., tests related to Eligibility, Cash Management, Verification Disbursements to or on Behalf of Students, Return of Title IV Funds, and Distance Education), are **not** tested at the student-level, the auditor must provide the following:

- a. A description of each sample drawn and details of the sample, including the amount of Direct Loan funds sampled for the period tested;
- b. The amount of Direct Loan funds disbursed for the population from which the sample was drawn for the period tested by sample drawn.

For samples and populations related to Return of Title IV Funds, the total Direct Loan disbursed to the students is required even though the Return of Title IV Funds questioned costs identified from testing of the sample are based on the refunds.

If samples were drawn by OPEID number, provide the sample and population details by OPEID number (an eight-digit number). If this information is not available by OPEID, provide the aggregated sample and population amounts for the institution as a whole. If there is overlap in the samples and/or populations between compliance requirements and/or OPEIDs, provide the number of students and amount of Direct Loan funds disbursed that overlap. For example, if the same sample is used for both disbursements and eligibility, the auditor would add narrative to the "#" and "\$" columns indicating that only one sample was selected for both disbursements and eligibility.
