**Joint Budget Committee.** The bill removes the date by which the department of health care policy and financing (department) must select payment projects to be included in the medicaid payment reform and innovation pilot program (pilot program), allowing the department to continue selecting new payment projects for the pilot program. Further, the bill removes the date for completion of pilot projects.

The bill amends the department's ongoing reporting requirements to specify information that must be included in the annual report. The bill also includes issues relating to the department's evaluation of the payment projects that are part of the pilot program.
