Joint Budget Committee. The bill requires each designated regional managed service organization (MSO) throughout the state to assess the sufficiency of effective substance use disorder services in its
geographic region for adolescents ages 17 and younger, young adults ages 18 through 25, pregnant women, women who are postpartum and parenting, and other adults who are in need of such services. Each MSO will provide the department of human services (department) and the department of health care policy and financing with a community action plan to increase access to effective substance use disorder services in its geographic region based on the results of the community assessment. The department shall post the results of the MSO community action plans on its website, as well as provide a summary report of the community action plans to the joint budget committee, the health and human services committee of the senate, and the public health care and human services committee of the house of representatives, or any successor committees.

On July 1, 2016, the department shall disburse to each MSO 60% of the MSO's allocation from the marijuana tax cash fund. The department shall disburse to each MSO the remaining 40% of the MSO's allocation after submission of the MSO's community action plan. Each MSO may use up to 15% of its state fiscal year 2016-17 allocation from the marijuana tax cash fund for the community assessment and related community action plan and the remainder for what is not otherwise covered by public or private insurance. Each MSO may utilize money allocated to it from the marijuana tax cash fund to implement its community action plan and increase access to effective substance use disorder services. On July 1, 2017, and on July 1 each year thereafter, the department shall disburse to each MSO 100% of the MSO's allocation from the marijuana tax cash fund.

For state fiscal year 2016-17, and each state fiscal year thereafter, the department shall allocate money that is annually appropriated from the marijuana tax cash fund to MSOs based on the department's allocation of the federal substance abuse prevention and treatment block grant for specific geographic areas. The department shall modify the allocation methodology as necessary in subsequent fiscal years.

Each MSO shall submit mid-year and annual reports to the department on its activities, use of money, and the impact of its community action plan to increase access to effective substance use disorder services.

The department is directed to contract with an evaluation contractor and to work collaboratively with that entity and the department of health care policy and financing to study the overall effectiveness of intensive residential treatment in the state. Prior to entering into a contract for the evaluation of intensive residential treatment, the department shall seek input from MSOs and residential substance use disorder treatment providers concerning relevant outcome measures.
