Note: This bill was not enacted into law; therefore, the impacts identified in this analysis do not take effect.

Summary of Legislation

This bill modifies the list of allowable documents used for voter identification to remove non-photo identification, and require that any identification shown for voter verification purposes contains a photo of the eligible voter. The bill also clarifies that certain persons eligible for a free state-issued identification card under current law may receive one and use it for voting purposes.

Background

Under current law, the Department of Revenue does not charge a fee to issue a state identification card for an applicant who is:

- age sixty years or older;
- referred by a county department of social services; or
- referred by the department of corrections, division of youth corrections, or a county jail.

State Expenditures

For FY2016-17, this bill increases state cash fund expenditures in the Department of State Cash Fund by \$28,355. The department will need to print new voter registration forms to update the list of allowable forms of identification.

Local Government Impact

The bill may increase workload and expenditures for local governments by a minimal amount. County clerks will need to update documents and communicate the changes in acceptable forms of identification to voters. Removal of non-photo identification options may also increase the number of provisional ballots cast which require additional workload to process.

Effective Date

The bill was postponed indefinitely by the House State, Veterans, and Military Affairs Committee on April 20, 2016.

State Appropriations

Consistent with this fiscal note, for FY 2016-17, this bill appropriates \$28,355 from the Department of State Cash Fund to the Department of State.
