Section 1 of the bill modifies the ballot selfie prohibition in the "Uniform Election Code of 1965". Specifically, section 1 deletes existing language prohibiting a voter from showing his ballot after it is prepared for voting to any person in such a way as to reveal its contents. Under the bill, any voter may show his completed ballot to any other person. The bill further provides that any voter makes available an image of the voter's own ballot through electronic means after it is prepared for voting is deemed to have consented to the transmittal of that image and such transmitted image is in the public domain. The ability of a voter to exercise such right at a voter service and polling center (VSPC) or at any other location at which votes are being tabulated is subject to the power of a county clerk and recorder to monitor activity at such VSPC or other location, including placing reasonable restrictions on the use of photography in such settings or imposing other restrictions on activity in such settings as the county clerk and recorder finds necessary, to ensure the fair and efficient conduct of elections.

The bill expands the existing restriction prohibiting any person from endeavoring to induce any voter to show how he or she marked his or her ballot to include taking a photograph of any other voter's ballot after it has been prepared for voting.

Section 2 of the bill makes parallel modifications to the "Uniform Election Code of 1992" as section 1 of the bill regarding ballot selfie requirements.

Section 3 of the bill creates a new election offense that makes it unlawful for any person, directly or indirectly, alone or through any other person, to trade a vote or offer to trade a vote with another elector in this state or a person in another state in exchange for the other elector's or person's vote for or against a particular candidate, ballot issue, or ballot question.
