A BILL FOR AN ACT

CONCERNING THE RESOLUTION OF DISCIPLINARY ACTIONS BY AGENCIES WITHIN THE DEPARTMENT OF REGULATORY AGENCIES.

Bill Summary

(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at http://leg.colorado.gov.)

Section 2 of the bill directs the Colorado dental board to conduct a review of its disciplinary procedures, identify inefficiencies, devise improvements, and implement the improvements.

Section 3 defines "health care prescriber board" to mean the following boards in the department of regulatory agencies: The Colorado
podiatry board; the Colorado dental board; the Colorado medical board; the state board of nursing; the state board of optometry; and the state board of veterinary medicine. Section 3 also adjusts the boards' disciplinary procedures as follows:

! Within 15 days after receipt of a complaint, the board shall provide the complainant with a comprehensive, written summary of the procedures, timelines, and complainant and respondent rights that apply to the processing and resolution of complaints and the contact information for the person who will be coordinating the board's response to the complaint;

! Within 30 days after receiving or initiating a complaint, the board shall notify the licensee named in the complaint of the complaint and provide a copy of the notice to the complainant, if any. If patient records are potentially relevant to resolution of the complaint, the notice must state that the licensee shall provide the board with the records within 30 days after the board sent the notice.

! Within 30 days after the board sent the notice, the licensee named in the complaint is required to provide a written response to the complaint to the board and include all patient records specified in the notice. If the licensee fails to timely respond, the board is to send the licensee a second notice and include a statement that failure to respond within 30 days will result in license suspension.

! If the licensee fails to timely respond to a second notice of complaint, the board is to suspend the licensee's license unless good cause is shown;

! The board is to notify the complainant if it receives a response from the licensee or if it suspends the licensee for failure to respond to a second notice of complaint;

! If the complainant is a patient, the board must promptly notify the patient of the patient's right to receive a copy of the patient records; and

! If an investigation was initiated by a complaint and the board took formal action regarding the alleged misconduct, the board shall provide the complainant, within 30 days after the action, with written notice of any initial disposition or board action, the next steps in the investigation process, and the final disposition of the investigation or complaint, as applicable.

By December 31, 2017, each board shall adopt rules regarding the procedures, timelines, and complainant and respondent rights that apply to the processing and resolution of disciplinary actions. The boards are directed to use their best efforts to make an initial disposition of
disciplinary actions within 6 months after initiation of an investigation or receipt of a complaint. An initial disposition includes a formal determination that more time is needed to resolve the action.

Section 1 requires health insurance companies to update their participating provider lists at least monthly, based on information on the department's health care prescriber boards' websites, to remove a provider whose license has been suspended or revoked.
