**Summary of Legislation**

This *reengrossed* bill alters the manner by which base salaries for members of the General Assembly are set. Under the bill, a member elected between 2018 and 2022 or appointed to fill a vacancy will be paid a base salary, payable in twelve monthly amounts, equal to 25 percent of the total annual salary of the judges of the county court in Class B counties as established in the appropriation act of 2016.

Prior to the first day of the 2025 legislative session and every two years thereafter, the director of research for Legislative Council Staff (LCS) is required to adjust the base salary for inflation using January 1, 2019, as the starting point for the calculation, and to post this information on the General Assembly's website. The base salary for members of each legislative session beginning on or after January 2025 is to be the most recently adjusted amount calculated by LCS.

**Background**

Under current law, member salaries are required to be set to an amount equal to 25 percent of the total salary paid to the judges of the county court in Class B counties. The FY 2017-18 Long Bill is expected to set the salary for a judge in a Class B county as \$156,278. Under current law, and assuming that the county judge salary level grows by 2.5 percent in FY 2018-19, all members of the General Assembly will earn a base salary of \$40,046 beginning in January 2019. Member salaries are paid in twelve monthly installments.

### **State Expenditures**

This bill is anticipated to result in General Fund savings of \$79,089 in FY 2018-19 (half year impact) and \$158, 178 in FY 2019-20. The first two years of savings assume all 65 House seats and 17 Senate seats are affected by the change and that member salaries will be fixed at \$38,117 until 2025. Beginning in FY 2020-21, this amount will increase to include all 35 Senate seats. In future years, savings will depend on the comparison between judge salaries and inflation changes; these impacts have not been estimated.

Beginning in FY 2024-25, LCS workload will increase to adjust member salaries for inflation and to post this information on its website. These workload changes can be accomplished within existing appropriations.

### **Effective Date**

The bill takes effect August 9, 2017, if the General Assembly adjourns on May 10, 2017, as scheduled, and no referendum petition is filed.
