**Committee.** The bill modifies the Colorado health service corps program administered by the primary care office in the department of public health and environment as follows:

- ! For purposes of determining areas in the state in which there is a shortage of health care professionals and behavioral health care providers to meet the needs of the community, allows the primary care office, under guidance adopted by the state board of health, to develop and administer state health professional shortage areas using state-specific methodologies;
- ! Allows behavioral health care providers, which include licensed and certified addiction counselors, licensed professional counselors, licensed clinical social workers, licensed marriage and family therapists, clinical psychologists, advanced practice nurses, and physicians certified or trained in addiction medicine, pain management, or psychiatry, and candidates for licensure as an addiction counselor, professional counselor, clinical social worker, marriage and family therapist, or psychologist, to participate in the loan repayment program on the condition of committing to provide behavioral health care services in health professional shortage areas for a specified period;
- ! Directs the advisory council to prioritize loan repayment and scholarships for those behavioral health care providers, candidates for licensure, or addiction counselors who provide behavioral health care services in nonprofit or public employer settings but permits consideration of applicants practicing in a private setting that serves underserved populations;
- ! Establishes a scholarship program to help defray the education and training costs associated with obtaining certification as an addiction counselor or with progressing to a higher level of certification;
- ! Adds 2 members to the advisory council that reviews program applications, which members include a representative of an organization representing substance use disorder treatment providers and a licensed or certified addiction counselor who has experience in rural health, safety net clinics, or health equity;
- ! Modifies program reporting requirements and requires annual reporting that coincides with required SMART Act reporting by the department; and
- ! Requires the general assembly to annually appropriate \$2.5 million from the marijuana tax cash fund to the primary

care office to provide loan repayment for behavioral health care providers and candidates for licensure participating in the Colorado health service corps and to award scholarships to addiction counselors participating in the scholarship program.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly  
3 finds and determines that:

4 (a) Colorado faces a health care workforce shortage in many  
5 health care areas, including a shortage in behavioral health care providers  
6 who work with patients with mental health and substance use disorders;

7 (b) With an opioid epidemic and increasing overdose rates  
8 affecting all corners of the state, the need for health professionals who  
9 can treat patients with substance use disorders is particularly acute;

10 (c) Additionally, providers who seek to hire mental health and  
11 substance use disorder professionals report difficulty in filling positions,  
12 leading to reduced services despite having the physical space for beds or  
13 outpatient treatment rooms;

14 (d) The state currently operates a loan repayment program, known  
15 as the Colorado health service corps, that targets the need for primary care  
16 services in health professional shortage areas throughout the state by  
17 providing loan repayment to a health care professional who commits to  
18 practicing and providing primary care in a shortage area for a minimum  
19 period;

20 (e) The Colorado health service corps program, in its current  
21 form, is limited to specific providers providing primary or psychiatric  
22 care in areas of the state designated as health professional shortage areas  
23 under federal guidelines;

1 (f) Further, the existing loan repayment program is available only  
2 to providers who have already obtained a license, which can require at  
3 least one to two years of supervised practice, depending on the license  
4 type, after completion of a master's or doctorate degree, yet the need for  
5 assistance with repaying student loans is often greatest during this  
6 supervised practice period since salary earnings are lower;

7 (g) While the current program requirements are well suited for  
8 providing greater access to primary and psychiatric care, they do not  
9 address the increasing demand for behavioral health care services to treat  
10 other mental health or substance use disorders and the financial burdens  
11 faced by candidates for licensure who are progressing to licensure but are  
12 not eligible for loan repayment and are often working at an entry-level  
13 salary;

14 (h) Moreover, the federal guidelines for determining a health  
15 professional shortage area do not adequately measure the shortage of  
16 other mental health or substance use disorder professionals in areas of the  
17 state experiencing an increased need for behavioral health care services;

18 (i) In order to expand access to behavioral health care providers  
19 and behavioral health care services in areas of the state where the need for  
20 behavioral health care is great and the access to care is limited, it is  
21 important to:

22 (I) Allow behavioral health care providers and candidates for  
23 licensure as a behavioral health care provider to participate in the loan  
24 repayment program through the Colorado health service corps to provide  
25 incentives to those providers and candidates to deliver behavioral health  
26 care services in health professional shortage areas in the state and to ease  
27 the financial burdens they face when practicing in health professional

1 shortage areas;

2 (II) Establish a scholarship program to provide financial  
3 assistance to addiction counselors seeking initial or a higher level of  
4 certification to defray education and training costs in exchange for a  
5 commitment to provide behavioral health care services in health  
6 professional shortage areas;

7 (III) Allow the primary care office, under guidelines adopted by  
8 the state board of health, to designate health professional shortage areas  
9 in the state using state-specific guidelines rather than federal guidelines;

10 (IV) Add representatives of substance use disorder service  
11 providers to the advisory council that reviews and makes  
12 recommendations on loan repayment applications; and

13 (V) Dedicate an amount of money from the marijuana tax cash  
14 fund to provide loan repayment to behavioral health care providers and  
15 candidates for licensure and scholarships to addiction counselors in order  
16 to expand access to behavioral health care services to individuals  
17 suffering from a mental health or substance use disorder.

18 (2) The general assembly further finds that expanding access to  
19 the health care professional loan repayment program to behavioral health  
20 care providers will expand access to behavioral health care services and  
21 treatment for people with mental health or substance use disorders, and  
22 therefore, the use of retail marijuana tax revenues to fund loan  
23 repayments for behavioral health care providers under the Colorado  
24 health service corps program is authorized under section 39-28.8-501  
25 (2)(b)(IV)(C).

26 **SECTION 2.** In Colorado Revised Statutes, 25-1.5-402, **add** (11)  
27 as follows:

1           **25-1.5-402. Definitions.** As used in this part 4, unless the context  
2 otherwise requires:

3           (11) "STATE-DESIGNATED HEALTH PROFESSIONAL SHORTAGE  
4 AREA" MEANS AN AREA OF THE STATE DESIGNATED BY THE PRIMARY CARE  
5 OFFICE, IN ACCORDANCE WITH STATE-SPECIFIC METHODOLOGIES  
6 ESTABLISHED BY THE STATE BOARD BY RULE PURSUANT TO SECTION  
7 25-1.5-404 (1)(a), AS EXPERIENCING A SHORTAGE OF HEALTH CARE  
8 PROFESSIONALS OR BEHAVIORAL HEALTH CARE PROVIDERS.

9           **SECTION 3.** In Colorado Revised Statutes, 25-1.5-404, **amend**  
10 (1)(a) as follows:

11           **25-1.5-404. Primary care office - powers and duties - rules.**

12 (1) The primary care office has, at a minimum, the following powers and  
13 duties:

14           (a) To assess the health care AND BEHAVIORAL HEALTH CARE  
15 professional needs of areas throughout the state AND CREATE AND  
16 ADMINISTER STATE-DESIGNATED HEALTH PROFESSIONAL SHORTAGE AREAS  
17 IN ACCORDANCE WITH STATE BOARD RULES ADOPTED UNDER THIS  
18 SUBSECTION (1)(a) ESTABLISHING STATE-SPECIFIC METHODOLOGIES FOR  
19 DESIGNATING AREAS EXPERIENCING A SHORTAGE OF HEALTH CARE  
20 PROFESSIONALS OR BEHAVIORAL HEALTH CARE PROVIDERS. THE PRIMARY  
21 CARE OFFICE SHALL COORDINATE WITH THE DEPARTMENT OF HEALTH CARE  
22 POLICY AND FINANCING IN DEVELOPING THE HEALTH PROFESSIONAL  
23 SHORTAGE AREA DESIGNATION METHODOLOGIES AND IN DRAFTING RULES  
24 UNDER THIS SUBSECTION (1)(a).

25           **SECTION 4.** In Colorado Revised Statutes, **amend** 25-1.5-501  
26 as follows:

27           **25-1.5-501. Legislative declaration.** (1) The general assembly

1 hereby finds that there are areas of Colorado that suffer from a lack of  
2 health care professionals OR BEHAVIORAL HEALTH CARE PROVIDERS to  
3 serve, and a lack of nursing or other health care professional faculty to  
4 train health care professionals to meet, the medical AND BEHAVIORAL  
5 HEALTH CARE needs of communities. The general assembly further finds  
6 that the state needs to implement incentives to encourage health care  
7 professionals AND BEHAVIORAL HEALTH CARE PROVIDERS to practice in  
8 these underserved areas and to encourage nursing faculty and other health  
9 care professional faculty to teach ~~these~~ health care professionals.

10 (2) It is therefore the intent of the general assembly in enacting  
11 this part 5 to create a state health service corps program that uses state  
12 ~~moneys~~ MONEY, federal ~~moneys~~ MONEY, when permissible, and  
13 contributions from communities and private sources to help repay the  
14 outstanding education loans that many health care professionals,  
15 BEHAVIORAL HEALTH CARE PROVIDERS, CANDIDATES FOR LICENSURE,  
16 nursing faculty, and health care professional faculty hold. In exchange for  
17 repayment of loans incurred for the purpose of obtaining education in  
18 their chosen health care AND BEHAVIORAL HEALTH CARE professions, the  
19 health care professionals, BEHAVIORAL HEALTH CARE PROVIDERS, AND  
20 CANDIDATES FOR LICENSURE will commit to provide health care OR  
21 BEHAVIORAL HEALTH CARE services, AS APPLICABLE, in communities with  
22 underserved health care OR BEHAVIORAL HEALTH CARE needs throughout  
23 the state, and the nursing and health care professional faculty will commit  
24 to providing a specified period of service in a qualified faculty position.

25 (3) IN ADDITION, FOR PURPOSES OF INCREASING THE AVAILABILITY  
26 OF CERTIFIED ADDICTION COUNSELORS, IT IS THE INTENT OF THE GENERAL  
27 ASSEMBLY TO CREATE A SCHOLARSHIP PROGRAM TO PROVIDE

1 SCHOLARSHIPS TO ADDICTION COUNSELORS WHO, IN EXCHANGE FOR  
2 RECEIVING SCHOLARSHIPS TO ASSIST THEM IN OBTAINING THE REQUIRED  
3 EDUCATION AND TRAINING TO BE CERTIFIED AS AN ADDICTION  
4 COUNSELOR, COMMIT TO PRACTICE IN A HEALTH PROFESSIONAL SHORTAGE  
5 AREA FOR A SPECIFIED PERIOD.
