Water Resources Review Committee. The bill codifies rules promulgated by the water quality control commission (commission) of the Colorado department of public health and environment concerning
allowable uses of reclaimed domestic wastewater, which is wastewater that has been treated for subsequent reuses other than drinking water. **Section 3** of the bill defines 3 categories of water quality standards for reclaimed domestic wastewater, sets forth the allowable uses for each water quality standard category, and adds industrial hemp cultivation as an allowable use for reclaimed domestic wastewater. Section 3 also authorizes the commission to establish new categories of water quality standards and to recategorize any use of reclaimed domestic wastewater to a less stringent category of water quality standard. Section 3 also authorizes the division of administration in the department of public health and environment to grant variances for uses of reclaimed domestic wastewater. **Sections 1, 2, and 4** make conforming amendments.
