A BILL FOR AN ACT
CONCERNING THE IMPLEMENTATION OF RECOMMENDATIONS FROM
PRISON UTILIZATION STUDIES, AND, IN CONNECTION THEREWITH,
RENAMING AND REPURPOSING CERTAIN CORRECTIONAL
FACILITIES.

Bill Summary
(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at http://leg.colorado.gov.)

The bill states that the general assembly intends that the department of corrections (department) shall close excess facilities, as prioritized by a 2013 prison utilization study, when prison population
projections indicate excess capacity within correctional facilities.

The bill states that on or before June 30, 2019, and thereafter, the department shall operate the Centennial south campus of the Centennial correctional facility to:

- Administer a diagnostic program;
- Administer a reentry program;
- Provide support and other services to the department; and
- Use the remaining capacity of the campus to house inmates, as appropriate.

Current law prohibits the department from operating the Centennial south campus for the purpose of housing inmates in housing units. The bill removes this prohibition and appropriates money to make physical modifications at the Centennial south campus to comply with legal requirements for housing inmates.

The bill renames the facility formerly referred to as the "Denver reception and diagnostic center" as the "Denver correctional facility" and requires the Denver correctional facility to administer a residential treatment program that provides mental health treatment services to inmates. The department shall also utilize the Denver correctional facility to house inmates with physical, cognitive, and medical conditions that require long-term treatment.

The bill states that on and after July 1, 2019, subject to available appropriations, the Centennial north campus shall serve as a transportation unit for the department and as a support facility for the Centennial correctional facility.

The bill requires the department to include certain information in its annual "State Measurement for Accountable, Responsive, and Transparent (SMART) Government Act" report to the committees of reference through 2023.

Be it enacted by the General Assembly of the State of Colorado:

SECTION 1. Legislative declaration. (1) The general assembly finds that:

(a) In the 2012 regular legislative session, the general assembly enacted House Bill 12-1336, which required the office of state planning and budgeting within the governor's office to contract with a vendor for a system-wide analysis of the department of corrections that identifies the most appropriate and cost-effective uses of the available public and
private inmate beds that house the department's jurisdictional population;

(b) In June 2013, a Colorado prison utilization study was completed and delivered to the office of state planning and budgeting; and

(c) In response to this study, the office of state planning and budgeting commissioned a second prison utilization study, which was completed and delivered to the office of state planning and budgeting in February 2016.

(2) The general assembly further finds that each of these studies offered constructive criticism of the department's utilization of prison facilities and included certain recommendations for improving such utilization. Specifically:

(a) (I) The 2013 study identified three tiers of functionality and placed each correctional facility into a tier; and

(II) The third tier of facilities, according to the study, includes seven prison facilities that are "less essential to the core functions of the department", and, accordingly, "in the event of a significant drop in the prison population . . . should receive serious consideration for closure".

(b) (I) The 2016 study made specific recommendations regarding the immediate future of the Centennial south campus of the Centennial correctional facility in Fremont, which was partially opened in 2010 but subsequently closed in 2012, and which remains vacant to this day; and

(II) The recommendations include the relocation of the department's central reception and diagnostic review functions from the Denver regional reception and diagnostic center to the Centennial south campus.

(3) Now, therefore, the general assembly declares that:
(a) On or before June 30, 2019, and thereafter:

(I) The department shall operate the Centennial south campus of the Centennial correctional facility to administer a diagnostic program, administer a reentry program, provide support and other services to the department, and use the remaining capacity of the campus to house inmates, as appropriate;

(II) The facility formerly referred to as the "Denver reception and diagnostic center" shall be renamed and repurposed as the "Denver correctional facility"; and

(III) The department shall utilize the Denver correctional facility to house inmates with physical, cognitive, and medical conditions that require long-term treatment;

(b) On and after July 1, 2019, subject to available appropriations:

(I) The Centennial north campus of the Centennial correctional facility shall serve as a transportation unit for the department and as a support facility for the Centennial south campus; and

(II) The Denver correctional facility shall administer a residential treatment program that provides mental health treatment program that provides mental health treatment services to inmates; and

(c) It is the intent of the general assembly that, when prison population projections indicate excess capacity, the department shall proceed to close excess prisons as prioritized by the 2013 prison utilization study.
