HB 18-1232

**FINAL
FISCAL NOTE**

Drafting Number: LLS 18-0039
Prime Sponsors: Rep. Young
 Sen. Coram; Kerr

Date: June 11, 2018
Bill Status: Postponed Indefinitely
Fiscal Analyst: Marc Carey | 303-866-4102
 marc.carey@state.co.us

Bill Topic: NEW SCHOOL FUNDING DISTRIBUTION FORMULA

Summary of Fiscal Impact:

- State Revenue *(conditional)*
- State Expenditure *(conditional)*
- State Transfer
- TABOR Refund *(conditional)*
- School District *(conditional)*
- Statutory Public Entity

Contingent on voter approval of a statewide ballot measure, this bill creates a new public school funding allocation formula to replace the existing formula from the 1994 School Finance Act, effective the year following voter approval of a ballot measure in a statewide election that raises sufficient revenue. Revenue and expenditure impacts are ongoing.

Appropriation Summary: If a statewide ballot measure to increase state revenue for P-12 education is approved by the voters, the Colorado Department of Human Services will incur additional expenses beginning in FY 2019-20.

Fiscal Note Status: This fiscal note reflects the introduced version of the bill. This bill was not enacted into law; therefore, the impacts identified in this analysis do not take effect.

**Table 1
State Fiscal Impacts Under HB 18-1232**

	FY 2018-19	FY 2019-20	FY 2020-21
Revenue	(The bill is contingent on voter approval of a ballot initiative increasing state revenue for P-12 education by at least \$1.6 billion in FY 2019-20; see technical issues on page 7.)		
Cash Funds		\$100,948	\$259,341

	Centrally Appropriated	\$32,652	\$69,428
Total		\$1.530 billion	\$1.583 billion
Total FTE		2.6 FTE	5.5 FTE
Transfers	Total	-	-
TABOR Refund		\$100,948	

Summary of Legislation

This bill creates a new public school funding allocation formula, to replace the existing formula from the 1994 School Finance Act. The new formula is effective for the second budget year following voter approval of a ballot measure, no later than January 1, 2023, that increases state revenue for funding preschool through 12th grade (P-12) education. Revenue from a potential ballot measure is not included in the bill. The earliest budget year in which the new funding formula could take effect is FY 2019-20.

Under current law, funding for school districts is set by a statewide base per pupil amount, which is modified to provide additional funding for each district according to various factors, such as a district's cost of living, enrollment, or percentage of at-risk students. The number of pupils eligible for funding is generally set by a single student count date, on October 1 of each year, although districts with declining enrollment are allowed to use the greater of the October 1 count or an average enrollment count over a period of up to five years.

This bill provides a new funding formula for school districts and Charter School Institute (CSI) schools and changes how pupils are counted for funding purposes. Components of the new funding formula are discussed below.

Funded Pupil Count. Under the bill, the number of pupils funded will continue to be based on a single pupil enrollment count date. Districts with declining enrollment will be allowed to use the greater of the district's pupil count or an average enrollment count over a period of up to five years. Full-day and retained kindergarten students are funded as full time students, while part-time kindergarten students are funded as half-time. All preschool students are funded as half-day students, and the bill anticipates conforming changes to the Colorado Preschool Program (CPP) removing limits on the number of children eligible to attend state-funded preschool.

Funding Formula. The new funding allocation formula calculates a school district's funding formula by starting with the statewide base per pupil amount, which would be determined annually by the General Assembly. It then calculates a preliminary total program amount for each district, which includes additional funding for certain student and district characteristics, including:

- poverty factor funding for each additional student that qualifies for free- and reduced-price lunch;
- English language learner (ELL) funding, adjusted for district size, for each additional ELL student for up to 7 years;
- gifted child factor funding, adjusted for district size, for each additional gifted student; and
- special education factor funding, adjusted for district size and type of disability, for each additional special education student.

The formula then calculates a total program amount, which includes additional funding from:

- online funding at 95 percent of base per pupil;
- extended high school funding at base per pupil; and
- cost-of-living factor funding, which is allocated proportionately and limited to 5 percent of statewide aggregate cost-of-living funding calculated using the cost-of-living and personnel cost factors as specified in current law; and
- size factor funding, based on district enrollment.

Floor Funding. Districts are guaranteed a minimum funding level, based on 95 percent of the statewide per pupil average.

Hold Harmless Provision. The bill also includes a hold harmless provision if a district's total funding level under the new formula is less than it was for the previous year under the current formula before application of the budget stabilization factor.

Categorical Programs. The bill moves funding for most ELL, gifted and special education students inside the formula by creating ELL, gifted child, and special education factors. The bill anticipates using ELL categorical funding only for ELL students with no English proficiency and special education categorical funding only for high-cost disability reimbursement grants.

State Revenue

The bill is contingent on a statewide ballot measure increasing state revenue for P-12 education. The bill specifies that the ballot measure must increase state tax revenue for P-12 education by at least the amount needed to pay for the state share of total program under the new formula in the second budget year after voter approval. This amount is currently estimated at \$1.5 billion in FY 2019-20, assuming the statewide base per pupil amount increases by inflation in both FY 2018-19 and FY 2019-20. Ballot Initiative 93, approved by the Secretary of State's Office, is projected to generate \$726.6 million in FY 2018-19 and \$1.6 billion in FY 2019-20, if approved by the voters, and is described in the technical note of this fiscal note. If the ballot initiative fails to get voter approval, another citizen-initiated ballot measure would need to be adopted by January 1, 2023 to trigger implementation of HB18-1232.

If the bill is implemented, it is also expected to increase cash fund revenue by \$100,948 in FY 2019-20 and \$259,341 in FY 2020-21 and following years due to a projected increase in the number of preschool students who will require preschool facilities and providers. The Office of Early Childhood (OEC) in the Colorado Department of Human Services is responsible for licensing and inspecting preschools throughout the state. According to OEC, in FY 2019-20, the annual licensing fee will be \$250 per facility and \$2 per child, and increase to \$300 per facility and \$3 per child beginning in FY 2020-21. Assuming an average size of 30 students per classroom, the anticipated preschool student increase is expected to require about 550 new facilities that must be licensed when the program is fully implemented. The licensing of these additional preschools is expected to start July 1, 2019.

TABOR Refund

Revenue subject to TABOR. The bill increases state revenue subject to TABOR by \$100,948 in FY 2019-20 which will increase the amount of money required to be refunded under TABOR for FY 2019-20. Since the bill increases the TABOR refund obligation without a corresponding change in General Fund revenue, the amount of money available in the General Fund for the budget will decrease by an identical amount. While the bill increases cash fund revenue by \$259,341 in FY 2020-21, state revenue subject to TABOR is not estimated for years beyond FY 2019-20.

Revenue not subject to TABOR. The bill is contingent on a statewide ballot measure increasing state revenue for P-12 education by at least the amount needed to pay for the state share of total program in the second budget year after voter approval. Assuming Initiative 93 is

passed by the voters in November 2018, this amount is currently estimated at \$726.6 million in FY 2018-19 and \$1.6 billion in FY 2019-20, assuming the statewide base per pupil amount increases by inflation in both FY 2018-19 and FY 2019-20. Initiative 93 specifies that the revenue increment it generates is not subject to TABOR, and therefore will not impact current or future TABOR refunds.

State Expenditures

School finance act expenditures. If a ballot measure is approved this fall, state expenditures for school finance will increase by an estimated \$1.5 billion, starting in FY 2019-20. Table 2 illustrates the projected change in school finance funding in FY 2018-19, based on the latest available data, although the new formula is not effective until FY 2019-20 at the earliest.

Table 2
Comparison of School Finance Act Funding Elements, Current Law vs HB 18-1232
(Assumes \$822.4 Million Budget Stabilization Factor)

School Finance Elements	Current Law*	HB 18-1232	Change
Total Program	\$6,929,517,083	\$8,278,589,980	\$1,349,072,897
Supplemental Floor Funding	\$0	\$125,924,868	\$125,924,868
State Share Hold Harmless Funding	\$0	\$3,553,748	\$3,553,748
Total School Finance Funding	\$6,929,517,083	\$8,408,068,596	\$1,478,551,513
Funded Pupil Count	870,641	959,312	88,671
Per Pupil Funding (with floor and hold-harmless)	\$7,959	\$8,765	\$806
Local Share	\$2,542,655,348	\$2,542,655,348	\$0
State Share (with floor and hold harmless)	\$4,386,861,735	\$5,865,413,248	\$1,478,551,513
State Share (with floor and hold-harmless) increased by inflation and pupil growth (3.5 percent in FY 2019-20)			\$1,530,300,816

* Appendix A contains a table estimating the change in total program and state share resulting from the bill for each school district.

CDE Administrative Expenses. Beginning in FY 2018-19, the CDE will incur additional workload to prepare for and implement the bill. Workload increases will occur both within the school finance unit and the information management services unit. Additional workload within these units will result from implementation of the new school finance formula for school districts, updating required reports, and configuring the department's information technology framework. Because of time available to prepare for implementation, this workload impact is absorbable within existing appropriations. This workload impact is conditional on voters passing a statewide ballot measure which sufficiently increases state revenue for P-12 education.

Categorical Programs. Beginning in FY 2019-20, the General Assembly will no longer appropriate money for the majority of ELL, gifted and talented students and disabled students through the traditional categorical programs. Instead, funding for these students will be provided on a per pupil basis through the formula in the new school finance act. In FY 2017-18, \$161.6 million was allocated to school districts for disabled students, \$19.3 million for ELL students, and \$9.0 million for the gifted and talented students. These amounts would be increased to \$320.6 million, \$176.5 million, and \$65.5 million, respectively, by moving funding for these programs within the new funding formula. Table 3 illustrates the change in funding for these programs that would have occurred if HB 18-1232 had been in place in FY 2017-18. Appendix B contains district-by-district detail of these differences.

**Table 3
 Comparison of Categorical Funding, Current Law vs HB 18-1232
 (Special Education, ELL and Gifted and Talented Programs, FY 2017-18)**

Categorical Programs	Current Law*	HB 18-1232	Change
Special Education	\$161,643,300	\$320,611,863	\$158,968,563
ELL	\$19,304,350	\$176,522,211	\$157,217,861
Gifted and Talented	\$9,045,415	\$65,449,024	\$56,403,609
Total	\$189,993,065	\$562,583,098	\$372,590,033

* Appendix B contains a table estimating the district-by-district change in funding for these categorical programs assuming the new funding formula was in place in FY 2017-18. Totals do not equal actual appropriations because of deducted administrative expenses and funding caps, and do not include distributions made to the Charter School Institute.

Colorado Department of Human Services (CDHS). The Office of Early Childhood (OEC) within the CDHS will incur conditional costs of \$164,492 in FY 2019-20 and \$325,985 in FY 2020-21 to license and inspect additional preschool facilities, conditional upon the passage of a statewide ballot measure to increase funding for P-12 education.

It is assumed that an additional 32,000 preschool students will be induced annually to enroll in an expanded Colorado Preschool Program (CPP), and that the total increase in CPP students will phase in equal increments over a two-year period. Approximately 1,050 new preschool classrooms in 550 new facilities will be needed to serve the new CPP students, assuming two half-day preschool classes per classroom. The fiscal note assumes that the licensing of additional facilities will begin July 1, 2019, requiring 2.6 FTE in FY 2019-20 and 5.5 FTE in FY 2020-21. Currently, the caseload for licensing preschools in the OEC is about 100 facilities per specialist. Table 4 summarizes these costs.

Table 4
Office of Early Childhood Expenses Under HB 18-1232

Cost Components	FY 2019-20	FY 2020-21
Department of Human Services		
Personal Services	\$141,514	\$303,242
Operating Expenses and Capital Outlay Costs	\$14,698	\$5,225
Travel Reimbursement	\$8,281	\$17,518
Centrally Appropriated Costs*	\$32,652	\$69,428
FTE – Personal Services	2.6	5.5
Total	\$197,145	\$395,413
Total FTE	2.6	5.5

* Centrally appropriated costs are not included in the bill's appropriation.

Centrally appropriated costs. Pursuant to a Joint Budget Committee policy, certain costs associated with this bill are addressed through the annual budget process and centrally appropriated in the Long Bill or supplemental appropriations bills, rather than in this bill. These costs, which include employee insurance and supplemental employee retirement payments, are estimated to be \$32,652 in FY 2019-20 and \$69,428 in FY 2020-21.

School District Impact

The bill will directly impact how much money school districts receive in school finance funding,

School Finance Funding. This fiscal note includes three appendices summarizing the school finance impacts for school districts. Appendix A illustrates the change in each district's funded pupil count, total program, and per pupil funding resulting from implementation of the new funding formula. Overall in FY 2018-19, the bill would increase the funded pupil count by 88,671, total program spending by \$1.5 billion, and per pupil spending by \$806. Because the bill does not affect district's local share, changes to total program and state share will be identical. The funded pupil count increases are primarily because of the additional kindergarten and preschool students receiving funding under the bill.

Categorical Funding. Under current law, most districts receive allocations for the ELL, disabled student, and gifted and talented categorical programs. This bill will move the majority of funding for these programs within the school finance funding formula. Allocations will be made on a per pupil basis, and district funding for these three programs will be increased by \$157.2 million, \$159.0 million, and \$56.4 million, respectively. Appendix B contains a district-by-district summary of changes in funding for these three programs that would have occurred if the new formula had been in place in FY 2017-18. Actual allocations in FY 2017-18 included an additional \$3.6 million to the Charter School Institute and BOCES that are not included in the appendix.

Floor Funding. Certain school districts will also receive supplemental funding per pupil (floor funding) if their per pupil revenue is less than 95 percent of the statewide average per pupil revenue. The 11 districts receiving floor funding would receive a total of \$125.9 million if the new funding formula were in place in FY 2018-19. A district-by-district summary of this projected floor funding is available in Appendix C.

Hold-Harmless Funding. The bill also specifies that certain districts are eligible for hold-harmless funding if their state funding under the bill is less than what they received in state share in the previous fiscal year. Eight districts would be eligible to receive hold-harmless funding, if the new funding formula were in place in FY 2018-19. These districts will receive an estimated \$3.6 million per year. A district-by-district summary of this projected hold-harmless funding is also available in Appendix C.

Technical Note

Implementation of this bill is contingent on passage of a ballot initiative to increase state tax revenue for P-12 education. Initiative #93 has received approval to petition from the Secretary of State's office, and if passed by the voters in the fall, is currently estimated to generate \$726.6 million in FY 2018-19 and \$1.6 billion in FY 2019-20 to be deposited in the newly created Quality Public Education Fund. The revenue estimate for FY 2018-19 is a half year impact. The revenue generated is expected to grow over time with growth in population, income and business earnings. Based on the effective date language in HB 18-1232, this would appear to satisfy the measure's requirement for implementation of the new school finance formula.

Effective Date

The bill was postponed indefinitely by the House Education Committee on April 25, 2018.
