Summary of Legislation

The bill grants simplified regulatory treatment by the Public Utilities Commission (PUC) in the Department of Regulatory Agencies for nonprofit water companies as long as their rates, charges, and terms and conditions of service with their customers are just and reasonable. The PUC will resolve any complaint alleging a violation of these conditions if signed by a representative of a local jurisdiction, the chief executive officer of an affected public utility, or at least 25 customers or prospective customers of the water company that is the subject of the complaint.

Assessment of No Fiscal Impact

Currently, the PUC does not regulate any nonprofit water companies, but will respond to complaints. As such, this bill codifies current practice and will not impact the revenue, expenditures, or workload of any state agency or local government.

Effective Date

This bill was signed into law by the Governor on April 2, 2018, and takes effect August 8, 2018, assuming no referendum petition is filed.
