prescription pharmaceutical products from Canada for sale to Colorado consumers. The program design must ensure both drug safety and cost savings for Colorado consumers. The department shall submit the program design to the secretary of the United States department of health and human services and request the secretary's approval of the program, as required by federal law, to import Canadian pharmaceutical products.

If the secretary approves the program, the department shall implement the program. The department shall adopt a funding mechanism to cover the program's administrative costs, and the department shall annually report on the program to the general assembly.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 hereby finds and declares that:

4 (a) United States consumers pay some of the highest prescription
5 drug prices in the world, and it is estimated that United States consumers
6 pay twice as much as the amount Canadian consumers pay for patented
7 prescription drugs and twenty percent more for generic drugs;

8 (b) Federal law, as codified in 21 U.S.C. sec. 384, authorizes the
9 secretary of the United States department of health and human services
10 to allow wholesale importation of prescription drugs from Canada if such
11 importation is shown to be both safe and less costly for United States
12 consumers;

13 (c) Although importing prescription drugs would be less costly,
14 there may be risks posed to consumer health and safety if the source,
15 quality, and purity of prescription drugs sold by online pharmacies cannot
16 be verified;

17 (d) Canada has a rigorous regulatory system to license prescription
18 drugs, equivalent to the licensing system in the United States;

19 (e) In the United States, Title II of the federal "Drug Quality and
20 Security Act", Pub.L. 113-54, referred to as the "Drug Supply Chain

1 Security Act", has significantly improved drug security and safety through
2 a system of pharmaceutical product track-and-trace procedures; and

3 (f) A wholesale drug importation program for the exclusive
4 benefit of Colorado residents should be designed and implemented to
5 provide Colorado consumers access to safe and less expensive
6 prescription drugs.

7 **SECTION 2.** In Colorado Revised Statutes, 25.5-1-201, **amend**
8 **(1) introductory portion, (1)(f), and (1)(g); and add (1)(h) as follows:**
