action plan to the commission, the state board of human services, the joint budget committee, the health and human services and education committees of the senate or any successor committees, and the public health care and human services and education committees of the house of representatives or any successor committees no later than December 1, 2019.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 finds that:

4 (a) Family child care homes provide an essential element of the
5 child care network in both urban and rural areas of the state;

6 (b) In certain counties, there are no child care centers, making
7 family child care homes the only option working families have for
8 licensed child care;

9 (c) Eighty-nine percent of child care businesses in the nation are
10 owned by women, making the viability of child care businesses an
11 important component of the state's economic success;

12 (d) Many parents prefer family child care homes, where children
13 experience a home-like environment conducive to healthy and safe
14 development;

15 (e) The state has a shortage of licensed, safe, and affordable child
16 care options, and there is a growing need for child care facilities due to
17 the increase in working parents;

18 (f) Since 2010, the state has experienced a decline of one thousand
19 five hundred eighty-two family child care homes, at an average of
20 approximately two hundred family child care homes closing each year;
21 and

22 (g) Because infant child care is more often provided in family

1 child care homes than in child care centers, the decline of family child
2 care homes has resulted in over seven thousand three hundred fewer
3 infant slots in the state in 2018 than in 2010.

4 (2) The general assembly declares, therefore, that it is necessary
5 that the state department, in consultation with the early childhood
6 leadership commission, study the decline of family child care homes and
7 available infant child care in the state to identify the reasons for these
8 shortages and to recommend strategies for improving the recruitment and
9 retention of family child care homes and available infant child care
10 throughout the state.
