**Bill Summary**

*(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at <http://leg.colorado.gov>.)*

The bill directs the Colorado commission on higher education (commission) to adopt a developmental education policy requiring the governing boards of state institutions of higher education (institutions) to maximize the likelihood of success in entry-level (gateway) college-level course work when placing students into developmental education. The

bill also specifies that institutions cannot place a student into developmental education based on a single instrument or test.

For institutions authorized to offer developmental education, this bill requires that, by 2022, such institutions shall not directly enroll a student into stand-alone developmental education courses that may extend the student's time to degree. Instead, a student should be enrolled in a gateway college-level course with additional supports through supplemental academic instruction (SAI) or co-requisite remediation.

The bill allows institutions to pilot new approaches to remediate students who may not benefit from SAI or co-requisite remediation and to seek waivers from the commission to expand or duplicate successful pilots.

The bill authorizes all 4-year institutions to offer SAI, without approval from the commission, to students who need additional supports to be successful in college-level courses.

The bill clarifies and adds reporting requirements relating to developmental education and SAI.

The bill changes the term "basic skills" in statute to "developmental education" and makes conforming amendments throughout.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly  
3 hereby finds and declares that:

4 (a) Colorado has set an ambitious educational attainment goal to  
5 ensure that the state is able to meet its workforce needs;

6 (b) Thirty-five percent of all Colorado high school graduates and  
7 more than half of Colorado high school graduates who attend community  
8 college are assessed as not being academically ready for gateway English  
9 and mathematics courses upon enrollment in a postsecondary institution;

10 (c) Low-income and minority students are disproportionately  
11 placed into developmental education courses;

12 (d) Students who are assessed as not college-ready have  
13 historically been required to enroll in one or more developmental  
14 education courses that cost them money, do not count toward their degree

1 requirements, and extend the time needed to graduate;

2 (e) There are serious adverse consequences when a student is  
3 placed into developmental education courses. These adverse  
4 consequences include discouraging some students from pursuing a  
5 postsecondary education, as well as burdening other students with higher  
6 educational costs and delaying the student's degree plan.

7 (f) Many students successfully complete developmental education  
8 courses but fail to enroll in and complete their gateway courses,  
9 indicating that alternative approaches to developmental education are  
10 necessary;

11 (g) Institutions that deliver supplemental academic supports while  
12 students are enrolled in college-level gateway courses as supplemental  
13 academic instruction, rather than a stand-alone prerequisite  
14 developmental education course, reduce student attrition;

15 (h) Colorado data shows that a higher percentage of students who  
16 receive supplemental academic support complete a gateway course than  
17 do those who are placed in traditional developmental education courses;  
18 and

19 (i) Instruction in English as a second language (ESL) is distinct  
20 from remediation in English. Students enrolled in ESL credit course work  
21 are foreign language learners who require additional language training in  
22 English, require support to successfully complete degree and college-level  
23 course work in English, or require both.

24 **SECTION 2.** In Colorado Revised Statutes, 23-1-113, **amend**  
25 (1)(c), (1.5), (8)(b), (8)(c), (8)(d), (9), (10), (11)(b), and (11)(e); and **add**
