amount was established during the 2018 legislative session. In addition, local property tax and specific ownership tax receipts are more than anticipated, increasing the local share of total program funding.

The bill declares the general assembly's intent to reduce state share of total program funding to maintain the budget stabilization factor established during the 2018 legislative session. The bill adjusts the amount of total program funding specified in statute to reflect this intent.

The bill makes an appropriation to the department of education to correct errors in the calculation and distribution of at-risk funding to the state charter school institute in 2 previous budget years.

Be it enacted by the General Assembly of the State of Colorado:

SECTION 1. Legislative declaration. (1) (a) The general assembly finds and declares that:

(I) The actual funded pupil count and the actual at-risk pupil count for the 2018-19 school year are lower than anticipated when the appropriation was established during the 2018 legislative session for total program funding for the 2018-19 budget year. As a result, total program funding is \$21,494,856 lower than anticipated when appropriations were established for the 2018 session.

(II) In addition, based on actual local property taxes and specific ownership taxes available to school districts for the 2018-19 budget year, the local share of total program funding is \$56,095,569 higher than anticipated when appropriations were established in the 2018 legislative session; and

(III) It is the general assembly's intent to reduce the state share of total program funding, maintaining the dollar amount of the budget stabilization factor established during the 2018 legislative session.

(b) Therefore, the general assembly finds it necessary to revise the total program funding for the 2018-19 budget year.

(2) Further, the general assembly finds and declares that due to the

1 implementation of a new information technology system within the
2 department of education's school finance division, the department of
3 education made errors in the calculation and distribution of at-risk
4 funding specific to the state charter school institute for the 2015-16 and
5 2016-17 budget years, resulting in an underpayment to the state charter
6 school institute for those budget years. To correct this underpayment, an
7 appropriation of \$545,147 must be made to the department of education
8 for the state charter school institute during the 2018-19 budget year.

9 **SECTION 2.** In Colorado Revised Statutes, 22-54-104, **amend**
10 (5)(g)(I)(I) as follows:

11 **22-54-104. District total program - definitions.** (5) (g) (I) For
12 the 2010-11 budget year and each budget year thereafter, the general
13 assembly determines that stabilization of the state budget requires a
14 reduction in the amount of the annual appropriation to fund the state's
15 share of total program funding for all districts and the funding for
16 institute charter schools. The department of education shall implement the
17 reduction in total program funding through the application of a budget
18 stabilization factor as provided in this subsection (5)(g)(I). For the
19 2010-11 budget year and each budget year thereafter, the department of
20 education and the staff of the legislative council shall determine, based
21 on budget projections, the amount of such reduction to ensure the
22 following:

23 (I) That, for the 2018-19 budget year, the sum of the total program
24 funding for all districts, including the funding for institute charter
25 schools, after application of the budget stabilization factor, is not less than
26 ~~seven billion eighty-eight million seven hundred seventy-six thousand~~
27 ~~two hundred thirty dollars (\$7,088,776,230)~~ SEVEN BILLION SIXTY-SIX

1 MILLION FIFTY THOUSAND NINE HUNDRED SEVENTY DOLLARS
2 (\$7,066,050,970); except that the department of education and the staff
3 of the legislative council shall make mid-year revisions to replace
4 projections with actual figures, including but not limited to actual pupil
5 enrollment, assessed valuations, and specific ownership tax revenue from
6 the prior year, to determine any necessary changes in the amount of the
7 reduction to maintain a total program funding amount for the applicable
8 budget year that is consistent with this subsection (5)(g)(I)(I). For the
9 2019-20 budget year, the difference between calculated statewide total
10 program funding and actual statewide total program funding must not
11 exceed the difference between calculated statewide total program funding
12 and actual statewide total program funding for the 2018-19 budget year.

13 **SECTION 3. Appropriation.** For the 2018-19 state fiscal year,
14 \$545,147 is appropriated to the department of education. This
15 appropriation is from the general fund. To implement this act, the
16 department may use this appropriation to correct the distribution of total
17 program funding to institute charter schools from prior years.
