AN ACT

CONCERNING REMOVING EQUITY GAPS IN HIGHER EDUCATION BY ENSURING MORE STUDENTS HAVE ACCESS TO SUPPLEMENTAL ACADEMIC INSTRUCTION.

Be it enacted by the General Assembly of the State of Colorado:

SECTION 1. Legislative declaration. (1) The general assembly hereby finds and declares that:

(a) Colorado has set an ambitious educational attainment goal to ensure that the state is able to meet its workforce needs;

(b) Thirty-five percent of all Colorado high school graduates and more than half of Colorado high school graduates who attend community college are assessed as not being academically ready for gateway English and mathematics courses upon enrollment in a postsecondary institution;

(c) Low-income and minority students are disproportionately placed into developmental education courses;

(d) Students who are assessed as not college-ready have historically been required to enroll in one or more developmental education courses that cost them money, do not count toward their degree requirements, and extend the time needed to graduate;

(e) There are serious adverse consequences when a student is placed into developmental education courses. These adverse consequences include discouraging

some students from pursuing a postsecondary education, as well as burdening other students with higher educational costs and delaying the student's degree plan.

(f) Many students successfully complete developmental education courses but fail to enroll in and complete their gateway courses, indicating that alternative approaches to developmental education are necessary;

(g) Institutions that deliver supplemental academic supports while students are enrolled in college-level gateway courses as supplemental academic instruction, rather than a stand-alone prerequisite developmental education course, reduce student attrition;

(h) Colorado data shows that a higher percentage of students who receive supplemental academic support complete a gateway course than do those who are placed in traditional developmental education courses; and

(i) Instruction in English as a second language (ESL) is distinct from remediation in English. Students enrolled in ESL credit course work are foreign language learners who require additional language training in English, require support to successfully complete degree and college-level coursework in English, or require both.
