throughout the duration of the person's incarceration or commitment.

The bill allows a person to dispose of any controlled substances at a safe station and request assistance in gaining access to treatment for a substance use disorder. The bill defines a "safe station" as any municipal police station; county sheriff's office; or municipal, county, or fire protection district fire station.

The bill requires the department of corrections and jails to ensure that continuity of care is provided to inmates prior to release.

The bill requires the executive director of the department of corrections, in consultation with the offices of behavioral health and economic security in the department of human services, the department of health care policy and financing, the department of local affairs, and local service providers to develop resources for inmates post-release that provide information to help prepare inmates for release and reintegration into their communities.

If a person who is the subject of a petition to seal criminal records has entered into or successfully completed a licensed substance use disorder treatment program, the court is required to consider such factor favorably in determining whether to issue the order.

The bill allows the office of behavioral health in the department of human services to contract with cities and counties for the creation, maintenance, or expansion of criminal justice diversion programs. The bill requires the department of human services to include an update regarding the current status of funding and implementation of the criminal justice diversion programs in its annual SMART presentation.

The bill appropriates money to the office of behavioral health in the department of human services for criminal justice diversion programs.
