Be it enacted by the General Assembly of the State of Colorado:

SECTION 1. Legislative declaration. (1) The general assembly hereby finds, determines, and declares that:

(a) For many Colorado nonprofit corporations, and other entities with a focus on providing a community benefit, such as child care, transit, education, affordable housing, healthcare, food access, and economic development, one of the key barriers to providing services is finding adequate and affordable spaces to do so;
(b) This barrier has only become higher as the Colorado real estate market has strengthened and property values have increased;

(c) The identification of usable real property owned or under the control of each state agency, state institution of higher education, county, municipality, district, or authority, is an invaluable tool for these nonprofit corporations and other entities with a focus on providing a community benefit because it provides them with information about the underutilized publicly owned properties that are potentially available to purchase or use; and

(d) The identification of such property is a model of good government, demonstrates to taxpayers that elected officials are being open and transparent with their resources, and creates opportunities for dormant or underutilized spaces to be put to good use for the benefit of the community.

(2) By enacting House Bill 20-____, the general assembly intends to assist Colorado nonprofit corporations, and other entities with a focus on providing a community benefit, with using or purchasing real property currently owned by state agencies and state institutions of higher education as well as counties, municipalities, boards, and authorities.
