Summary of Legislation

The bill creates a voluntary online transparency task force (task force) to recommend ways to enhance citizens' online access to rules and the rulemaking process, as well as to increase transparency of the rulemaking process through potential improvements to new or existing online resources. The executive director of the Statewide Internet Portal Authority (SIPA) will serve as the task force's chair and host the first meeting of the task force. By January 1, 2021, the task force must submit a written report to the business and state affairs committees of the General Assembly.

Background

Statewide Internet Portal Authority. In 2004, the General Assembly created SIPA to create an efficient, effective, and user friendly statewide internet portal to serve as a place where citizens can electronically access state government information, products, and services. SIPA also provides e-government services to state and local governments. SIPA is an enterprise for purposes of Article X, Section 20 of the Colorado Constitution. SIPA is primarily funding by assessing administrative fees on certain transaction services.

State Expenditures

In FY 2020-21 only, the bill may increase workload for all state agencies that choose to participate in the task force. These workload increases can be accomplished within existing appropriations.

Statutory Public Entity

In FY 2020-21, the bill will increase workload for SIPA to host the task force and submit a written report. This workload increase is expected to be minimal.

Effective Date

The bill takes effect August 5, 2020, if the General Assembly adjourns on May 6, 2020, as scheduled, and no referendum petition is filed.
