Summary of Legislation

House Bill 20-1377, if passed, will set aside up to \$49 million generated by the issuance of certificates of participation to be used for controlled maintenance projects, including capital renewal projects. House Bill 20-1408 establishes a prioritized list of these projects to be funded.

State Expenditures

Assuming that the maximum amount of \$49 million anticipated from the passage of HB 20-1377 is credited to the Capital Construction Fund, the bill appropriates money to the following departments:
