Summary of Legislation

Beginning January 1, 2020, the Marijuana Enforcement Division (MED) in the Department of Revenue is required to treat a metered-dose inhaler the same as a vaporized delivery device for purposes of regulation and testing through rulemaking. This bill repeals this provision.

Background

A metered-dose inhaler is a medical device used for delivering a precise amount of medication into the lungs in a fine mist. A vaporized delivery device for marijuana requires a heat source and a delivery mechanism.

State Expenditures

By removing this provision, the bill reduces the rulemaking workload for the MED by a minimal amount in FY 2020-21 only. This reduction does not require a change in appropriations.

Effective Date

The bill takes effect August 5, 2020, if the General Assembly adjourns on May 6, 2020, as scheduled, and no referendum petition is filed.
