A BILL FOR AN ACT

CONCERNING SUPPORTING THE PEER SUPPORT PROFESSIONAL WORKFORCE, AND, IN CONNECTION THEREWITH, MAKING AN APPROPRIATION.

Bill Summary

(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at http://leg.colorado.gov.)

The bill requires the department of human services (state department) to establish procedures to approve recovery support services organizations for reimbursement of peer support professional services. The bill also gives the executive director of the state department rule-making authority to establish other criteria and standards as
necessary.

The bill permits a recovery support services organization to charge and submit for reimbursement from the medical assistance program certain eligible peer support services provided by peer support professionals.

The bill authorizes the department of health care policy and financing to reimburse recovery support services organizations for permissible claims for peer support services submitted under the medical services program.

The bill requires contracts entered into between the state department's office of behavioral health and designated managed service organizations to include terms and conditions related to the support of peer-run recovery support services organizations.

Be it enacted by the General Assembly of the State of Colorado:

SECTION 1. In Colorado Revised Statutes, add 27-60-108 as follows:

27-60-108. Peer support professionals - cash fund - fees - requirements - rules - legislative declaration - definitions. (1) (a) The General Assembly hereby finds and declares that:

(I) Peer support professionals help people achieve their recovery goals through shared understanding, respect, and empowerment. Peer support offers a form of acceptance, understanding, and validation not often found in other professional relationships.

(II) The federal centers for medicare and medicaid services recognize that peer support professionals can be an important component in a state's delivery of effective mental health and substance use disorder treatment;

(III) Peer support services can cut hospitalizations, increase a person's engagement in self-care and wellness, and help to decrease a person's psychotic symptoms;
(IV) The COVID-19 pandemic has exacerbated Colorado's existing behavioral health workforce shortage, particularly in rural areas and communities of color;

(V) Colorado lacks a behavioral health workforce that reflects the culture, ethnicity, sexual orientation, gender identity, mental health service experiences, and substance use disorder experiences of individuals in the state;

(VI) In the past two years, the number of people who have needed but have not received behavioral health services has nearly doubled. Challenges to the workforce is considered the leading cause for the decreased availability of behavioral health services. Peer support professionals can help fill Colorado's workforce need.

(VII) The Substance Abuse and Mental Health Services Administration has identified peer-run organizations as an evidence-based practice. Peer-run organizations may offer a variety of services, including but not limited to:

(A) Peer-run drop-in centers;

(B) Recovery and wellness centers;

(C) Employment services;

(D) Prevention and early intervention activities;

(E) Peer mentoring for children and adolescents;

(F) Warm lines; or

(G) Advocacy services.

(VIII) Peer-run organizations, including recovery community organizations, are important components in Colorado's behavioral health system. These organizations help
INDIVIDUALS DEFINE THEIR LIFE GOALS AND FIND A UNIQUE PATH TOWARD RECOVERY IN A HOLISTIC MANNER.

(b) The General Assembly finds, therefore, that it is in the best interest of the state to support the peer support professional workforce through the creation of peer-run recovery support services organizations. Peer-run and peer-led organizations will help expand peer support services throughout the state, expand the behavioral health workforce, and save the state money by reducing the need for crisis services.
