HOUSE BILL 21-1200

A BILL FOR AN ACT

CONCERNING FINANCIAL LITERACY STANDARDS FOR PUBLIC SCHOOLS,

AND, IN CONNECTION THEREWITH, MAKING AN APPROPRIATION.

Bill Summary

(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at http://leg.colorado.gov.)

The bill directs the state board of education (state board) to review, during a recurring interval specified in the bill, standards relating to the knowledge and skills that a student should acquire in school to ensure that the financial literacy standards for ninth through twelfth grade include an understanding of the costs associated with obtaining a postsecondary degree or credential and how to budget for and manage the payment for
those costs, including managing student loan debt and accessing student aid through completion of the free application for federal student aid (FAFSA) and the Colorado application for state financial aid (CASFA); understanding credit cards and credit card debt; understanding homeownership and mortgages; and understanding retirement plans, including investments and retirement benefits.

The bill adds to the resources contained in the existing financial literacy resource bank created and maintained by the state board specific references relating to assessing the affordability of higher education and how to budget and pay for higher education, as well as how to manage student loan debt; understanding the purpose of and how to access and complete the FAFSA or CASFA; understanding credit cards and credit card debt; understanding the home buying process, including home loans and managing mortgage debt; and understanding retirement plans, including investments and retirement benefits.

Under current law, school districts are encouraged to adopt a financial literacy curriculum and to make completion of a course in financial literacy a graduation requirement. The bill adds assessing the affordability of higher education and how to budget and pay for higher education, as well as how to manage student loan debt, to the suggested financial literacy curriculum, as well as familiarizing students with the process and required forms to apply for financial aid, grants, and scholarships, including the FAFSA and CASFA.

Further, the bill requires school districts and charter schools, as part of the process of establishing the individual career and academic plan for a student in grades 9 through 12, to inform the student and the student's parents of the importance of completing the FAFSA and CASFA and to provide help in completing the forms, if requested.

Be it enacted by the General Assembly of the State of Colorado:

SECTION 1. Legislative declaration. (1) The general assembly finds and declares that:

(a) Colorado students today face a far different financial world than their parents and grandparents did. Fortunately, strong financial literacy standards can better prepare students for the future. Financial literacy education can provide students with better tools to navigate paying for higher education, accessing apprenticeships and trade schools, wisely managing credit card debt, planning for future home purchases,
and successfully planning for retirement.

(b) In Colorado, more than 743,000 people have student loan debt, with an average debt burden of more than $38,000. Statewide, Coloradans carry $28.6 billion in student debt and currently owe approximately $9.1 billion in private student loan debt. By assisting Colorado students and their families with planning for the affordable attainment of higher education, we can help reduce a portion of this burden over time.

(c) The federal free application for student aid, known as FAFSA, determines a student's eligibility for financial aid in postsecondary education. Improving FAFSA completion is key to improving college attendance rates. High school seniors who complete the FAFSA are 84% more likely to immediately enroll in postsecondary education.

(d) United States consumers owe $893 billion in credit card debt. About 41% of households carry revolving debt, and the poorest households have the highest total debt burden. Teaching students how to manage credit card debt can help them throughout their lives.

(e) The benefits of owning a home in the United States include creating wealth for homeowners that in turn can benefit families for generations, reducing economic risk by protecting families from rising rent prices, increasing homeowners' psychological health, and offering greater stability for homeowners' children. Providing students with the financial tools to plan for a future home purchase can yield generational benefits.

(f) Nearly half of all families in the United States have no retirement assets. Even among those families who are nearing retirement, four out of ten have no retirement assets. Middle-class, working-age families whose incomes are at the fiftieth percentile have, on average,
only $5,000 saved in retirement accounts. Most African-American and
Latinx families have no retirement savings. Finally, older workers are
working longer and delaying their retirement. By providing students with
information on saving for retirement early in life, they can begin building
the assets they need to be comfortable when they grow old.

SECTION 2. In Colorado Revised Statutes, 22-7-1005, add (2.8)
as follows:

(a) "COLORADO APPLICATION FOR STATE FINANCIAL AID" OR "CASFA" MEANS THE APPLICATION TO DETERMINE STUDENT FINANCIAL NEED AND ELIGIBILITY FOR STATE FINANCIAL AID PROGRAMS USING FEDERAL FAFSA METHODOLOGY, OR ANY SUCCESSOR FORM.

SECTION 4. In Colorado Revised Statutes, 22-32-135, amend
(1) introductory portion, (1)(d), (1)(e), (2), and (3) as follows:

22-32-135. Financial literacy curriculum - definition. (1) The general assembly hereby finds that:

(d) Recent Studies of consumer finances by the federal reserve board show that, at the end of the third quarter of 1999, household debt in the United States totaled over six trillion three hundred billion fourteen and one-half trillion dollars. Almost one trillion four hundred billion dollars of this debt was consumer credit debt, while four trillion four hundred billion dollars consisted of mortgage debt. Over one and one-half trillion dollars of this debt is student debt, over eight hundred billion dollars is credit card debt, and over ten trillion dollars is mortgage debt.

(e) With the recent growth in consumer debt and the apparently low level of education and understanding with regard to personal finances, it is imperative that the public schools of the state provide
students with a thorough, high-quality curriculum of financial literacy to
enable students to understand and master personal finance skills,
including, at a minimum, managing bank accounts; household budgeting;
understanding and managing personal debt, including credit card
debt and student loan debt; and managing personal savings,
retirement savings, homeownership, and investment.

(2) As used in this section, "financial literacy" means knowledge
of personal finances that is sufficient to enable a person to manage
savings, investment, and checking accounts; to design and maintain a
household budget; to assess the affordability of and how to
budget for postsecondary education; to understand the purpose
of and how to access and complete the free application for
federal student aid and the Colorado application for state
financial aid, or successor forms for accessing federal and
state financial aid; to manage personal debt, including student loan
debt; to understand consumer credit and finance; to manage personal
credit options, and including credit cards; to understand and select
from among short-term and long-term investment options; to
understand the home buying process, including home loans and
managing mortgage debt; and to understand retirement plans,
tax-deferred accounts, pensions, and government retirement
benefits.

(3) (a) Each school district board of education is strongly
couraged to adopt as part of its district curriculum courses pertaining
to financial literacy to be taught in grade-appropriate courses at the
elementary, middle, junior high, and high school grade levels. When
selecting mathematics and economics textbooks, each school district is
strongly encouraged to select those texts that include substantive provisions on personal finance, including personal budgeting; credit; debt management; STUDENT LOAN BORROWING AND FINANCIAL AID; HOMEOWNERSHIP; RETIREMENT, INCLUDING LONG-TERM INVESTMENTS, TAX-DEFERRED ACCOUNTS, PENSIONS, AND GOVERNMENT RETIREMENT BENEFITS; and similar personal finance topics.

(b) The curriculum described in subsection (3)(a) of this section must also include content relating to how to assess the affordability of and budget for different options for obtaining a postsecondary degree or credential and how to pay for higher education. The curriculum should familiarize students with the process and necessary forms for applying for federal and state financial aid, student loans, scholarships, and grant programs, including accessing and completing either the free application for federal student aid or the Colorado application for state financial aid, or successor forms to access federal and state financial aid, and should ensure that students have an awareness of federal and state programs that may be available to manage student loan debt.

SECTION 5. In Colorado Revised Statutes, 22-2-136, amend (1) as follows:

**22-2-136. Additional duty - state board - individual career and academic plans - standards - rules.** (1) On or before February 1, 2010, the state board shall promulgate rules pursuant to the "State Administrative Procedure Act", article 4 of title 24, C.R.S., to establish standards for individual career and academic plans for students enrolled in the public schools in the state. AS PART OF THE PROCESS OF ESTABLISHING THE INDIVIDUAL CAREER AND ACADEMIC PLAN, THE STUDENT AND THE STUDENT'S PARENTS MUST BE MADE AWARE OF THE IMPORTANCE OF COMPLETING THE FREE APPLICATION FOR FEDERAL STUDENT AID OR THE COLORADO APPLICATION FOR STATE FINANCIAL AID, OR SUCCESSOR FORMS FOR ACCESSING FEDERAL AND STATE FINANCIAL AID, AND BE PROVIDED HELP IN COMPLETING THE FORMS, IF REQUESTED.

SECTION 6. In Colorado Revised Statutes, 22-30.5-525, amend (1) as follows:

22-30.5-525. Individual career and academic plans. (1) Each institute charter school shall assist each student and his or her THE STUDENT'S parent or legal guardian to develop and maintain the student's individual career and academic plan, referred to in this section as an "ICAP", no later than the beginning of ninth grade but may assist the student and his or her THE STUDENT'S parent or legal guardian to develop and maintain the student's ICAP in any grade prior to ninth grade. In assisting a student and his or her parent or legal guardian in creating and maintaining the ICAP, the institute charter school shall, at a minimum, discuss with the student and parent or legal guardian the various career pathways created pursuant to section 24-46.3-104 and the types of certificates and jobs to which each pathway leads and discuss the skills and educational opportunities available through military enlistment. To implement this act, the department may use this appropriation for content specialists.

SECTION 8. Act subject to petition - effective date. This act takes effect at 12:01 a.m. on the day following the expiration of the ninety-day period after final adjournment of the general assembly; except that, if a referendum petition is filed pursuant to section 1 (3) of article V of the state constitution against this act or an item, section, or part of this act within such period, then the act, item, section, or part will not take effect unless approved by the people at the general election to be held in November 2022 and, in such case, will take effect on the date of the official declaration of the vote thereon by the governor.
