affairs (DOLA) for the purpose of offering grant money and other forms of state assistance to local governments to promote innovative solutions to the development of affordable housing across the state.

Local government affordable housing development incentives grant program (housing development incentives grant program). This program will provide grants to local governments that adopt not less than 3 policy and regulatory tools from among a menu of options that create incentives to promote the development of affordable housing. A local government that adopts such tools is eligible for a grant from the housing development incentives grant program as an incentive to develop one or more affordable housing developments in their community that are liveable, vibrant, and driven by community benefits. The division of local government (DLG) within DOLA administers the housing development incentives grant program.

The bill enumerates items included in the menu of policy and regulatory tools.

Local government planning grant program. This program will provide grants to local governments that lack one or more of the policy and regulatory tools that provide incentives to promote the development of affordable housing that forms the basis for a grant under the housing development incentives grant program and that could benefit from additional funding to be able to create and make use of these policy and regulatory tools. Money under the planning grant program will be available to a local government to enable the government to retain a consultant or a related professional service to assess the housing needs of its community or to make changes to its policies, programs, development review processes, land use codes, and related rules to become an eligible recipient of a grant under the housing development incentives grant program. The planning grant program will be administered by the DLG. As part of its administration of the planning grant program, the DLG will provide assistance to local governments on best land use practices and tools and is required to update and publish model county and municipal land use codes for the benefit of local governments across the state.

The affordable housing guided toolkit and local officials guide program (housing toolkit program). This program creates the housing toolkit program within the division of housing (DOH) within DOLA. The purpose of the housing toolkit program is to award funding to qualified counties and municipalities selected in a competitive process who commit to the adoption of best land use practices with demonstrated success in the development of affordable housing. Under the housing toolkit program, technical assistance will be provided by consultants and related professionals to local governments who demonstrate an understanding of the housing needs of their communities, take steps to engage their entire communities in this process, make changes to their land use codes and related processes that provide incentives and reduce barriers to the

development of affordable housing, obtain and support viable sites in their communities for the development of affordable housing, and attract developers committed to making such investments in their communities. The DOH is to administer the housing toolkit program.

In evaluating applications for grants from the housing development incentives grant program, the bill requires the DLG to prioritize proposals submitted by local governments based on factors specified in the bill.

On or before September 1, 2021, the bill requires the executive director of DOLA or the executive director's designee to adopt policies, procedures, and guidelines for the 3 different state assistance programs that include, without limitation:

- Procedures and timelines by which an eligible recipient may apply for a grant;
- Criteria for determining the amount of grant awards;
- Performance criteria for grant recipients' projects; and
- Reporting requirements for grant recipients.

On the effective date of the bill, or as soon as practicable thereafter, the state treasurer is required to transfer \$9,300,000 from the general fund to the Colorado heritage communities fund for the creation, implementation, and administration by the DLG of the housing development incentives grant programs.

On the effective date of the bill, or as soon as practicable thereafter, the state treasurer is required to transfer \$2,100,000 from the general fund to the Colorado heritage communities fund for the creation, implementation, and administration by the DLG of the planning grant program.

On the effective date of the bill, or as soon as practicable thereafter, the state treasurer is required to transfer \$1,600,000 from the general fund to the housing development grant fund for the creation, implementation, and administration by the DOH of the housing toolkit program.

All costs incurred in administering any of the 3 programs created under the bill must be paid out of the money transferred under the bill. All money transferred under the bill for the 3 state programs must be expended over the subsequent 3 state fiscal years.

On or before November 1 of each year, the executive director of DOLA or the director's designee is required to publish a report summarizing the use of all assistance that was awarded from the 3 different programs created under the bill in the preceding fiscal year. The bill specifies additional required contents of the reports. The reports must be shared with the general assembly and posted on DOLA's website.

The bill updates and repeals obsolete statutory provisions concerning the office of smart growth (OSG) within DOLA and the Colorado heritage communities fund.

The bill authorizes the OSG, as money becomes available, to

provide grants or other forms of assistance to counties and municipalities to address critical planning issues and specifies examples of the forms of assistance that may be provided by the office. The OSG is required to create guidelines to specify the activities on the part of local governments that will qualify for grant funding or other forms of assistance provided under the bill. The OSG is permitted to use available money to administer the Colorado heritage grant program.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 hereby finds, determines, and declares that:

4 (a) Coloradans have identified housing affordability as the biggest
5 issue facing the state as one in every seven Colorado households is
6 spending more than half of its income on housing according to a study by
7 Shift Research Lab;

8 (b) The median home price to median income ratio has increased
9 across markets all across the nation. As of 2019, the price-to-income ratio
10 was considerably larger for renters than owners, with the gap most
11 significant in major metropolitan areas with a population greater than
12 three million people. Across large metropolitan areas with a population
13 greater than one million but less than three million, the gap in
14 price-to-income ratio for renters was largest in Providence, Denver, and
15 Salt Lake City.

16 (c) The same measurement on a statewide scale puts Colorado
17 among just five states with a greater than sixty percent gap between home
18 price and income growth between 2009 and 2019. Between 2012 and
19 2019, Colorado fell from being one of the most affordable states to one
20 of the least affordable states in the country based on median income to
21 median pricing.

22 (d) Currently, Colorado has a shortage of nearly 121,000

1 affordable rental units, and the Colorado housing and finance authority
2 reports that nearly half of all Colorado renters are considered cost
3 burdened, with an additional twenty-four percent being severely cost
4 burdened;

5 (e) By this act, the general assembly is focusing a portion of the
6 stimulus dollars it has received from the federal government to begin to
7 remedy this affordable housing crisis in Colorado with innovative
8 legislation that will jumpstart the production of housing statewide in the
9 next three years through three programs detailed in the act. In
10 combination, these programs focus on removing regulatory barriers to
11 affordable housing development and offering incentives to local
12 governments to make policy changes, as well as a mechanism for local
13 governments to receive expertise or financial assistance from the state.

14 (f) The general assembly recognizes that local governments
15 throughout the state vary in their stages of meeting the housing needs of
16 their communities. In order to help local governments respond to these
17 needs and to encourage them to extend their ability to create housing and
18 more liveable and vibrant communities, the divisions of local government
19 and housing within the department of local affairs will focus on three
20 programs.

21 (g) When a local government is at the nascent phase of addressing
22 affordable housing needs, it may require additional help to develop an
23 overall strategy. The housing toolkit program grant would offer local
24 governments comprehensive support to make effective change by
25 assessing housing needs, building effective communication strategies
26 around the need for affordable housing, understanding which actions
27 might have the biggest impact, and supporting the local government

1 through the steps preparatory to taking action to address these housing
2 needs.

3 (h) When a local government is at an intermediate phase of
4 addressing affordable housing needs, it may require particular expertise
5 to help it refine and advance its housing strategy. The planning grant
6 program awards local governments funding to hire assistance to adopt
7 qualifying land use strategies that prepare the local government to meet
8 this phase of its housing needs by conducting a needs assessment,
9 reviewing model land use codes, or making investments in its community
10 that would enable the local government to be competitive in applying for
11 a housing development incentives grant.

12 (i) If a local government is demonstrating an ongoing commitment
13 to advancing its land use regulations and policies to address the
14 affordable housing needs in its community, it may be eligible to apply for
15 a housing development incentives grant. This grant is focused on
16 allowing local governments to adopt effective tools to spur housing
17 creation. The menu of strategy options is broad enough that any
18 community can be successful in finding the right mix of strategies that fit
19 its community, or the local government may introduce its own innovative
20 or unique approach. Local governments would choose the strategies that
21 best fits the character of their community to pursue the grant funding
22 from the state whether they are in an urban, rural, mountain resort, or
23 eastern plains location. Additionally, the department of local affairs
24 would have the discretion to select novel, creative, or innovative
25 proposals from communities that offer an additional approach to create
26 affordable housing or would be able to consider how those local
27 governments that have already taken steps to address housing

1 affordability would be eligible to continue and advance their approaches
2 if they have already undertaken some of the best practice approaches. The
3 most competitive local governments will demonstrate a continued
4 commitment to removing barriers to affordable housing development.
