Section 1 of the bill requires owners of certain large buildings (covered buildings), on an annual basis, to collect and report to the Colorado energy office (office) the covered building's energy use. The bill establishes a process requiring certain electric and gas utilities to provide energy-use data to a covered building owner when requested by the covered building owner.

Section 1 also requires that, on or before June 1, 2027, a covered building owner demonstrate that, in 2026, the covered building met performance standards set forth in the bill. A covered building owner must demonstrate compliance with the performance standards every 5 years after June 1, 2027. The air quality control commission (commission) is required to adopt rules in 2026 or 2027 that extend or modify the performance standards. Thereafter, the commission may, as the commission deems necessary, modify the performance standards by rule.

Section 2 requires the office to assist covered building owners with the reporting requirements set forth in section 1 by:

- Creating a database of covered buildings and owners required to comply with section 1;
- Developing publicly available, digitally interactive maps and lists showing the energy-use and performance-standard data reported;
- Coordinating with any local government that implements its own energy benchmarking requirements or energy performance program, including coordination of reporting requirements; and
- Collecting an annual fee from owners of covered buildings of \$100 per covered building. The office is required to transfer the fees collected to the state treasurer, who will credit the fees to the climate change mitigation and adaptation fund (fund) created in section 2.

Section 3 imposes penalties for violations of section 1, ranging from \$500 to \$5,000, depending on whether the violations are first violations or subsequent violations, and requires that the civil penalty payments be credited to the fund. Certain subsequent violations are also subject to a penalty of 2 cents per square foot of gross floor area of the covered building for each day that the violations continue.

Section 4 modifies the definition of an "energy performance contract" that a governing body of a municipality, county, special district, or school district (board) enters into for evaluation, recommendations, or implementation of energy-saving measures to remove requirements that a board's payment for goods and services pursuant to the contract be made within a certain number of years of the contract's execution.

7 GENERAL ASSEMBLY FINDS, DETERMINES, AND DECLARES THAT THE
8 REGULATION OF BUILDING PERFORMANCE IS A MATTER OF STATEWIDE
9 CONCERN BECAUSE:

10 (a) AS OF 2020, BUILDINGS REPRESENTED A SIGNIFICANT SOURCE
11 OF GREENHOUSE GAS POLLUTION IN THE STATE OF COLORADO;

12 (b) ENERGY CONSUMPTION AND GREENHOUSE GAS EMISSIONS
13 ASSOCIATED WITH A BUILDING PRODUCE IMPACTS FAR BEYOND ITS WALLS
14 AND THE BOUNDARIES OF THE LOCAL GOVERNMENT WITHIN WHICH THE
