Summary of Legislation

The Colorado Professional Fire Fighters special license plate was created by Senate Bill 19-167. That bill directs the Department of Revenue to designate an organization to qualify applicants to be issued the plate, and established criteria that an organization must meet in order serve in this role. Thus far, no organization has applied and satisfied the criteria to qualify applicants, so the license plate has not yet been created.

This bill changes the criteria that an organization must meet to be designated to qualify applicants for the special license plate: they must have been in existence for 15 years rather than 20 years, and a signed affidavit may serve as sufficient evidence that the organization has met the minimum membership requirement.

State Expenditures

The bill increases workload for the Department of Revenue in FY 2021-22. The bill requires the department to update criteria in its application process for organizations that wish to qualify applicants for the Colorado Professional Fire Fighters special license plate. Funding for the special license plate has already been appropriated, and any additional work required by this bill can be accomplished within existing resources.

Effective Date

The bill was signed into law by the Governor on May 7, 2021, and takes effect on September 7, 2021, assuming no referendum petition is filed.
