Bill Summary

(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at <http://leg.colorado.gov>.)

The bill requires the state treasurer to establish the Colorado household financial recovery program (program) in the department of the treasury to partner with financial institutions to incentivize lending to low-income individuals and households impacted by the COVID-19 pandemic or its negative economic impacts.

Shading denotes HOUSE amendment. Double underlining denotes SENATE amendment.
Capital letters or bold & italic numbers indicate new material to be added to existing statute.
Dashes through the words indicate deletions from existing statute.

Money available for the program must be used for one or more of the following purposes:

- To establish a loan loss reserve to partially offset risk to lenders in making loans to individuals and households impacted by the COVID-19 pandemic;
- To make payments to lenders to buy down interest rates on loans made to individuals and households impacted by the COVID-19 pandemic;
- To provide lending capital for affordable, small loans to individuals and households impacted by the COVID-19 pandemic; or
- To award grants to nonprofit community-based organizations to conduct marketing and outreach to individuals and households impacted by the COVID-19 pandemic who may be eligible to participate in the program.

The state treasurer may select one or more program administrators, including banks, community development financial institutions, or credit unions, to administer all or a portion of the money available for the program. The administrator or administrators are selected based, in part, on their proposed use of the money, their ability to partner with nonprofit community-based organizations that work with individuals and households impacted by the COVID-19 pandemic, and to connect borrowers to affordable banking products and other financial services.

The bill specifies program policies, including loan terms, and requires the state treasurer and administrators to establish and publicize additional program policies as necessary.

The state treasurer or an administrator may establish a loan loss reserve to partially offset loan losses and thereby incentivize lending by financial institutions to individuals and households impacted by the COVID-19 pandemic. The state treasurer shall determine the amount of the offset and shall establish and publicize policies for participating financial institutions.

The state treasurer shall report annually to the governor and certain committees of the general assembly concerning the use of program money and other information concerning the program.

The bill creates a fund for the program and identifies allowable uses of the money in the fund.
