## Summary of Legislation

The regulation of conveyances and conveyance mechanics, contractors, and inspectors by the Director of the Division of Oil and Public Safety in the Department of Labor and Employment is due to repeal on July 1, 2022. This bill continues the regulation until September 1, 2031.

## Background

The conveyance program is responsible for the administration of the safety of public conveyances, by regulating the installation, maintenance, inspection and testing of conveyances. The state has approximately 23,000 elevators, escalators, and other conveyances, 30 conveyance contractors, 500 mechanics and 60 inspectors. Each conveyance is registered once with the Division of Oil and Public Safety and certified annually by the division or a local jurisdiction. The 2021 sunset report for the regulation of conveyances can be found here:

## Continuing Program Impacts

Based on the department's FY 2022-23 budget request, the Department of Labor and Employment is expected to have revenue of \$748,754 and expenditures of \$1,162,836 to administer the regulation of conveyances. If this bill is enacted, current revenue and expenditures will continue for the program starting in FY 2023-24. This continuing revenue is subject to the state TABOR limits. If this bill is not enacted, the program will end on July 1, 2023, following a wind-down period, and state revenue and expenditures will decrease starting in FY 2023-24 by the amounts shown in Table 1.

## Effective Date

The bill was signed into law by the Governor and took effect May 26, 2022.
