Summary of Legislation

The bill corrects four references to a state sales and use tax statute among local government and special district provisions. The bill also corrects a reference in the sales and use tax definitions for an auction sale. Lastly, the bill repeals two obsolete provisions in the sales and use tax statutes. The first is a provision concerning remote sales tax collection that was not repealed along with other such provisions under House Bill 19-1240, which established economic nexus for out-of-state retailers and codified destination sourcing rules. The second repealed provision relates to a sales and use tax exemption for components used in solar thermal systems that was in effect from FY 2009-10 to FY 2016-17.

Assessment of No Fiscal Impact

The bill addresses defects and obsolete provisions and makes non-substantive changes to statute. It has no impact on state or local government revenue or expenditures and is assessed as having no fiscal impact.

Effective Date

The bill was signed into law by the Governor on May 20, 2022, and it took effect on August 9, 2022.
