Points to Consider

Legislative Appropriation Authority

SB22-200

JBC Staff Analysis

Continuous spending authority, also known as **continuous appropriations**, allows departments to spend money for statutorily specified purposes up to the amount of money in the fund without seeking annual legislative approval. An annual appropriation provides a limit on spending authority, while a continuous appropriation provides unlimited spending authority.

This method of funding moves these expenditures off-budget, and thus expenditures are not reported or accounted for through the budget process. Is it necessary for the Department of Health Care Policy and Financing to **not** seek annual authority from the General Assembly to spend money from the Rural Provider Access and Affordability Fund?
