This bill establishes coverage requirements for occupational accident insurance for certain commercial vehicle operators. The bill increases state workload in FY 2022-23 only.

Appropriation Summary: No appropriation is required.

Fiscal Note Status: The revised fiscal note reflects the reengrossed bill.

Summary of Legislation

Under current law, a contract between motor or contract carriers and independent contractors must provide for coverage under workers' compensation or an occupational accident insurance policy that provides similar coverage. This bill changes the definition of similar coverage for occupational accident insurance to mean a policy that provides a minimum aggregate policy limit of \$1,500,000 for all benefits paid for the benefit of the operator, including medical, temporary and permanent disability, death and dismemberment, and survivor benefits. Under the bill, a commercial vehicle operator who meets certain requirements is eligible to purchase an occupational accident insurance policy rather than a workers' compensation policy.

State Expenditures

In FY 2022-23 only, the Division of Insurance in the Department of Regulatory Agencies will have an increase in workload to review additional rate and form filings, and respond to inquiries on the new coverage. This can be accomplished within existing appropriations.

Effective Date

The bill takes effect 90 days following adjournment of the General Assembly sine die, assuming no referendum petition is filed.
