A board of county commissioners is currently authorized to license and regulate an owner or owner's agent of a lodging unit that is rented or advertised for short-term stays, and "owner's agent" expressly excludes an internet hospitality service.

The bill modifies this regulatory authority by clarifying that it applies to lodging units that are available for short-term rentals, which are

rentals for less than 30 days, and by excluding a hotel unit from the scope of the authority.

The bill also changes "internet hospitality service" to "vacation rental service" (service), defines the term, and provides separate authority for a board of county commissioners to regulate a service. This authority, however, is limited to requiring:

- An owner or owner's agent to include a rental license or permit number, if applicable, in any listing for a lodging unit on the service's website or other digital platform; and
- The service to remove a listing from the service's website or other digital platform, if properly notified by a county that the owner of the listed lodging unit has had a local short-term rental license or permit suspended or revoked or has been issued a notice of violation or similar legal process for not possessing a valid local short-term rental license or permit or that the county has a prohibition on short-term rentals that applies to the lodging unit. The service has 7 days from receiving the county notification to remove the listing.

To facilitate a service's ability to comply with a county ordinance, a county, upon request of the owner of a hotel unit or a vacation rental service on which the hotel unit is listed, is required to provide written verification that the hotel unit is exempt from the ordinance because it is not a lodging unit.
