Bill Summary

(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at <http://leg.colorado.gov>.)

The bill requires an online dating service (service) to have a safety policy that includes certain elements. It is a deceptive trade practice if a service does not have a compliant safety policy. A safety policy must include:

- Information about whether and under what circumstances the service conducts background screenings of members

who use the service (members) and whether the service excludes from membership individuals with past criminal convictions;

- A definition of misconduct used by the online dating service;
- A description of whether and when the service suspends a member profile or bars a member from the service as a result of reports of misconduct committed by the member;
- Guidelines for reporting misconduct committed by a member to the service and information about how those reports are shared with other members;
- A notice that engaging in sexual conduct with another person without the other person's consent violates the safety policy and criminal laws, and may result in criminal or civil liability;
- Information about resources available for members who experience misconduct committed by another member; and
- Measures taken by the platform that are reasonably designed to promote safer online and in-person dating experiences for members.

A service shall post its safety policy on the front page of its website or mobile application, include the policy in its dating service contract, and file its safety policy with the attorney general's office.

A service shall annually file a report with the attorney general's office that includes information about reports of misconduct committed by members that the service has received and actions taken by the service against members who are the subject of those reports.

If a member who brings an enforcement action against a service for the deceptive trade practice of not having an adequate safety policy was injured by another member and a report against the other member was filed with the service prior to the incident, the service is liable for the amount of the member's actual damages or, if the service received more than one report about the other member and fails to take timely remedial action against the other member, 3 times the amount of the member's actual damages.

The bill creates a civil cause of action for a person who was tracked by means of a tracking device or tracking application to bring a claim against the actor who installed a tracking device on the person's property or who caused a tracking device or tracking application to track the person or person's property without the person's consent.

Existing law prohibits posting a private image for harassment; posting a private image for pecuniary gain; and posting, possession, or exchange of a private image by a juvenile. The bill adds to those offenses posting a computer generated or digitally altered sexual image that:

- Depicts an actual person engaging in speech or conduct

that the person did not engage in and is so realistic that a reasonable person would believe it depicts the actual conduct of the depicted person;

- Was produced by technological means; and
- Realistically depicts the private intimate parts of another person or artificially generated private intimate parts presented as those of the depicted person or displays the depicted person in a sexual act.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 finds and declares that:

4 (a) Three in ten adults, including half of 18- to 29-year-olds, in
5 the United States have used a dating site or app;

6 (b) 31% of women on dating apps surveyed had been sexually
7 assaulted or raped by someone they met through a dating app;

8 (c) Three in four users experienced dating app-facilitated sexual
9 violence, with the highest rates among LGBTQIA users;

10 (d) It is relatively easy for minors to create profiles and use dating
11 apps, because most apps do not verify the identity or age of the account
12 holder;

13 (e) Predators have repeatedly used dating app platforms for serial
14 criminal enterprises for financial fraud, as well as stalking, homicide, and
15 rape;

16 (f) Colorado is in the top five most dangerous states for online
17 dating;

18 (g) The small size and inexpensive nature of available tracking
19 devices enable tracking devices to increasingly be used to track people
20 and their property without consent;

21 (h) From 2019 to 2023, there was a 550% increase in sexual

1 deepfakes published online;

2 (i) Intimate image abuse, including images that are digitally
3 created or altered, affects survivors' mental health, including a high risk
4 of suicide, and may negatively impact survivors' employment prospects,
5 academic success, and physical well-being; and

6 (j) The risks and reality of technology-facilitated crimes impacts
7 the public and is a matter of statewide public safety and concern.

8 (2) Therefore, in order to improve the public health, safety, and
9 welfare of Coloradans, it is necessary to ensure that:

10 (a) Each online dating service develops thoughtful and transparent
11 safety policies that are posted in a conspicuous place on the service's
12 website or app for users;

13 (b) Online dating services take prompt remedial action for
14 misconduct carried out through dating sites or apps;

15 (c) Data regarding the frequency of reported misconduct and the
16 responses of dating sites or apps is tracked and available to consumers;

17 (d) An online dating service can be held accountable when it fails
18 to act on reports of misconduct or criminal attacks;

19 (e) Consent is required for tracking a person or another's property;
20 and

21 (f) Existing intimate image abuse laws include deepfakes and
22 digitally altered images.
