#### **Bill Summary**

(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at

#### http://leg.colorado.gov.)

Under current law, the conservation easement oversight commission (commission) and the certified holder program (program) are repealed on July 1, 2026. The bill eliminates the repeal dates to extend the commission and program indefinitely.

There is currently a cap of \$45 million for the total value of conservation easement income tax credits (credits) that may be claimed by and credited to donors of a conservation easement in one calendar year. Credits filed after the cap is reached are placed on a wait list for the next calendar year. The bill increases the cap to \$75 million beginning in calendar year 2025.

Current law provides that partnerships, S corporations, or other similar entities (pass-through entities) may not be transferees of a credit. The bill allows pass-through entities to be transferees of a credit beginning on January 1, 2025. The bill also allows insurance companies to purchase credits to offset insurance premium taxes.

Currently, a credit may be transferred once, in whole or in part, from a donor to a transferee. The bill allows a transferee to transfer a credit to a subsequent transferee beginning with the income tax year starting on January 1, 2025.

1	Be it enacted by the General Assembly of the State of Colorado:
2	SECTION 1. Legislative declaration. (1) The general assembly
3	hereby finds and declares that:
4	(a) Over the last sixty years, Colorado families have conserved
5	over three million three hundred thousand acres of working farms,
6	ranches, and private lands across the state;
7	(b) Since 2000, Colorado has proactively invested in conservation
8	through the conservation easement tax credit program;
9	(c) The conservation easement tax credit program incentivizes
10	private landowners to voluntarily protect their properties, which creates
11	public benefits to Colorado's lands, waters, wildlife, and people.
12	(d) The benefits of conservation are unique and wide-ranging.
13	Conservation has contributed significantly to the protection of wildlife

1	habitat, critical wetlands, urban open space, and working farms and
2	ranches.
3	(e) The conservation easement tax credit program has aided
4	Colorado in reducing its carbon emissions and accomplishing its
5	biodiversity goals, while supporting rural economic resiliency, benefiting
6	<u>all Coloradans;</u>
7	(f) In pursuit of greater equity in conservation, it is crucial to
8	enhance programs that promote public benefits for all Coloradans; and
9	(g) Equity in conservation requires ongoing collaboration with
10	private landowners, state and federal public land managers, and counties
11	and municipalities. Underscoring and investing in the inclusion of
12	underserved communities, tribes, and historically marginalized land
13	interests will further amplify these efforts.
14	(2) Therefore, it is in the best interests of Coloradans to enhance
15	the conservation easement tax credit program.
