for all school districts and institute charter schools to not less than \$9,735,767,429.

The bill repeals the total program reserve fund on July 1, 2025.

The bill adds rural funding to the district's total program formula to provide additional funding to small rural districts or large rural districts.

The bill requires the state treasurer to transfer \$15,715,539 from the state education fund to the mill levy override match fund.

Current law requires a new at-risk measure in the public school funding formula to be implemented in the 2024-25 budget year. The bill extends the implementation of this requirement to the 2025-26 budget year.

For the 2024-25 budget year, a school district's at-risk funding is the greater of the school district's at-risk funding amount for the 2023-24 budget year or the 2024-25 budget year.

Current law requires a qualified third-party evaluator (evaluator) who facilitates a facility school work group (work group) to submit a report to the work group and the office of facility schools by September 1, 2025. The department of education (department) is required to submit the evaluator's report to the joint budget committee by October 1, 2025. The bill extends the report deadlines to September 1, 2026, and October 1, 2026, respectively.

The bill requires school districts, a district charter school, an institute charter school, or a board of cooperative services to offer the writing portion of a college entrance exam to students digitally.

Current law requires a school district to receive the daily rate for education services provided by approved facility schools for a juvenile who is held in a jail or facility and receives at least 4 hours of educational services per week from the school district. The bill changes the daily rate to the rate for educational services provided by the Colorado school for the deaf and the blind or the education program operated by the Colorado mental health institute at Pueblo or Fort Logan.

The bill increases the cap on how much can be spent on administration for the ninth-grade success grant program from 5% to 8%.

The bill clarifies that a student with disabilities (student) who receives transition services and has postsecondary goals outlined in the student's individualized education program is eligible for concurrent enrollment courses.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly

3 finds and declares that:

1 (a) The annual total program funding of Colorado's schools is a
2 collaborative effort between school districts and the state;

3 (b) In recent years, the stabilization of the state budget has
4 required a reduction in the amount of the annual appropriation to fund the
5 state's share of total program funding for all school districts and institute
6 charter schools. This reduction is commonly referred to as the "budget
7 stabilization factor".

8 (c) The school districts' share of total program funding is
9 primarily derived from nonresidential and residential property tax
10 revenue;

11 (d) Colorado's current economic conditions are mixed. There are
12 significant increases in property values, generally increasing the school
13 districts' share of total program funding and consequently decreasing the
14 state's share of total program funding.

15 (e) The current economic conditions have also increased the
16 amount of revenue available to the state for the 2024-25 budget year,
17 allowing the state to significantly increase the amount of appropriation for
18 the state's share of total program funding for school districts and institute
19 charter schools, thereby eliminating the budget stabilization factor; and

20 (f) There is, however, a great deal of uncertainty concerning the
21 continuity and longevity of these current economic conditions and
22 whether high property values and increased revenue will continue.

23 (2) Therefore, the general assembly declares its commitment to
24 eliminating the budget stabilization factor in this year and subsequent
25 years to the degree possible, subject to the continuing high levels of
26 property values and changing economic conditions.

27 **SECTION 2.** In Colorado Revised Statutes, 22-45-103, **add**

26 application of the budget stabilization factor in the budget year in which
27 the assessed value is reduced. The amount of supplemental assistance

1 paid pursuant to this subsection (1)(a)(VIII) shall not exceed twenty-five
