A BILL FOR AN ACT

101 **CONCERNING AUTHORIZING EMILY GRIFFITH TECHNICAL COLLEGE TO**
102 **OFFER AN ASSOCIATE OF APPLIED SCIENCE DEGREE.**

Bill Summary

(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at <http://leg.colorado.gov>.)

The bill permits Emily Griffith technical college (college) to offer an associate of applied science degree program (degree program) with approval from the state board for community colleges and occupational education (board). The degree program must include a registered apprenticeship program and certain transferable general education courses.

Shading denotes HOUSE amendment. Double underlining denotes SENATE amendment.
Capital letters or bold & italic numbers indicate new material to be added to existing law.

In considering the college's request to offer a degree program, the board shall consider student and workforce demand, alignment with registered apprenticeship programs, cost-effectiveness for students and the state, and accreditation and licensing requirements. An approved degree program is eligible to receive federal "Carl D. Perkins Career and Technical Education Improvement Act" funds.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 finds and declares that:

4 (a) Over the past decade, higher education in the United States has
5 expanded its ability to meet the needs of students through adjustments to
6 the role and mission of its institutions and through innovations in
7 workforce training and education, including the expansion of
8 apprenticeship opportunities;

9 (b) Colorado has been at the forefront of these innovations, and
10 the state's institutions have played a critical role in developing programs
11 that address the needs of today's learners;

12 (c) Emily Griffith technical college plays an integral role in
13 Colorado's education system, providing career-relevant training and
14 instruction that includes registered apprenticeships;

15 (d) Registered apprenticeships offer learners high-quality career
16 pathways through paid hands-on work in a chosen field. Through
17 registered apprenticeships, learners gain the skills and competencies to
18 make informed choices about their futures while employers build their
19 talent pipelines.

20 (e) While registered apprenticeships can give students a valuable,
21 nationally recognized credential, many Emily Griffith learners complete
22 apprenticeship programs just a few general education credits shy of an

1 applied associate degree;

2 (f) According to data from the Georgetown University Center on
3 Education and the Workforce, students in many high-demand applied
4 associate degree programs have higher earning potential than those with
5 certificates or high school diplomas;

6 (g) According to a 50-state analysis conducted in 2021 by
7 Advance CTE, over a quarter of responding states reported that their area
8 technical colleges offered associate degrees; and

9 (h) Allowing Emily Griffith technical college to build on its
10 apprenticeship programs by adding associate degrees to its offerings gives
11 learners greater access to the job market and promotes lifelong learning.
12 Programmatic growth at this vital institution is necessary to ensure that
13 Colorado's higher education landscape continues to serve the needs of
14 today's learners and employers.
