History: This message has been replied to.

Mr. Kolker,

I had a comment/amendment on [SB24-207 Access to Distributed Generation](https://www2.leg.state.co.us/CLICS/CLICS2024A/commsumm.nsf/signup.xsp?h=SWT), but going thru <https://www2.leg.state.co.us/CLICS/CLICS2024A/commsumm.nsf/signup.xsp?h=SWT>, I discover that even though it is on the agenda for the Finance Committee you serve on, it is not open for written testimony. Could you please add the comment below or at least let me know that it was on the agenda for "action only".

Thank you,

Bennett Rutledge

Gentlefolk,

SB24-207 Access to Distributed Generation seems to be focused exclusively on solar. Would not the provisions apply just as well to wind or other renewable sources of electrical services? Please expand the scope of SB24-207

Bennett Rutledge
