(5) (6) In the event any person holding a license to practice chiropractic in this state is determined to be mentally incompetent or insane by a court of competent jurisdiction and a court enters, pursuant to part 3 or 4 of article 14 of title 15 or section 27-65-109 (4) or 27-65-127, an order specifically finding that the mental incompetency or insanity is of such a degree that the person holding a license is incapable of continuing to practice chiropractic, his or her license shall automatically be suspended by the board, and, anything in this article 215 to the contrary notwithstanding, such THE suspension shall continue until the licentiate LICENSEE is found by such THE court to be competent to practice chiropractic.

12-215-116. [Formerly 12-33-117.5] Mental and physical examination of licensees. (1) (a) If the board has reasonable cause to believe a licensee is unable to practice with reasonable skill and safety UNDER THE CIRCUMSTANCES AND IN ACCORDANCE WITH THE PROCEDURES SPECIFIED IN SECTION 12-30-108, THE BOARD may require such A licensee to take a mental or physical examination given by a physician or other qualified provider designated by the board. <{Recommend amending as indicated to strike redundant language and add reference to mental/physical exams common provision, 12-30-108.}> 

(b) If the licensee refuses to undergo such examination or to release all medical records necessary to determine his or her ability to practice safely, unless such THE refusal or failure is due to circumstances beyond the licensee's control, the board may suspend such THE licensee's license until the results of such examination are known and the board has made a determination of the licensee's fitness to practice. The board shall proceed with an order for examination and make its determination in a timely manner. <{The unhighlighted portion of paragraph (b) is consistent with the mental/physical
exams common provision, 12-30-108 (1)(b). However, the highlighted portion differs from the common provision in that it allows the board to maintain the license suspension until the exam results are known and the director has determined the licensee’s fitness to practice. The common provision refers to suspending the license "until the required examinations are conducted." So the criteria in this practice act for lifting the suspension differ from the criteria in the common provision. Is this a substantive difference in how this provision is applied? Additionally, the last sentence about timely making a determination does not appear in the common provision. We assume that this unique provision should be retained as is rather than defaulting to the common provision. Thoughts?

(2) An order for examination issued by the board pursuant to subsection (1) of this section shall include the board’s reasons for believing the licensee is unable to practice with reasonable skill and safety: <Redundant with mental/physical exams common provision, 12-30-108 (1)(c). Recommend repealing.>

(3) For purposes of any disciplinary proceeding authorized under this article, a licensee shall be deemed to have waived all objections to the admissibility of an examining physician's testimony and examination reports on the basis of privilege. <Redundant with mental/physical exams common provision, 12-30-108 (2), second sentence. Recommend repealing.>

Note that the common provision, 12-30-108 (2) 1st sentence, also contains the following language that does NOT appear in this section: "Every nurse LICENSEE, CERTIFICATE HOLDER, OR REGISTRANT AUTHORIZED TO PRACTICE A HEALTH CARE PROFESSION REGULATED BY A PART OR ARTICLE OF THIS TITLE 12 shall be deemed, by so practicing or by applying for renewal registration of such nurse's THE LICENSE, CERTIFICATE, OR REGISTRATION, to have consented to submit to mental or physical examinations when directed in writing by the board APPLICABLE REGULATOR." Should this provision be specifically excluded from applicability to chiropractors since it does not appear in the mental/physical exams provision in the chiropractors practice act?

Note that the common provision, 12-30-108 (2) 3rd sentence, also contains the following language that does NOT appear in this section: "Subject to applicable federal law, such nurse THE LICENSEE, CERTIFICATE HOLDER, OR REGISTRANT shall be deemed to have waived all objections to the production of medical records to the board REGULATOR from health care providers that may be necessary for the evaluations EXAMINATIONS described in paragraph (a) of this subsection (8) . . . SUBSECTION (1)(a) OF THIS SECTION." Should this provision be specifically excluded from applicability to chiropractors since it does not appear in the mental/physical exams provision in the chiropractors practice act?

(4) (2) A licensee may submit to the board testimony and examination reports
received from a physician chosen by the licensee, if such testimony and reports pertain to a condition that the board has alleged may preclude the licensee from practicing with reasonable skill and safety. <\{Stricken from mental/physical exams common provision, 12-30-108 (2), so recommend retaining this provision.\}>

(5) The results of a mental or physical examination ordered by the board shall not be used as evidence in any proceeding other than one held before the board and shall not be a public record nor made available to the public. <\{Redundant with mental and physical examination common provision, section 12-30-108 (3). Recommend repealing.\}>

<\{Need to consider, for the above mental/physical exams provision, if it is so unique that it warrants complete exclusion from common provision, 12-30-108, and retention of the existing language in 12-33-117.5.\}>

C.R.S. The denial of an application to renew an existing license shall be treated in all respects as a revocation. If an application for a new license is denied, the applicant, within sixty days after the giving of notice of such action, may request a hearing as provided in section 24-4-105. C.R.S.

PART 2
SAFETY TRAINING FOR UNLICENSED X-RAY TECHNICIANS

12-215-201. [Formerly 12-33-201] Legislative declaration. (1) The general assembly hereby finds, determines, and declares that public exposure to the hazards of ionizing radiation used for diagnostic purposes should be minimized wherever possible. Accordingly, the general assembly finds, determines, and declares that for any licensed chiropractor to allow an untrained person to operate a machine source of ionizing radiation, including without limitation a device commonly known as an "X-ray machine", or to administer such radiation to a patient for diagnostic purposes is a threat to the public health and safety.

(2) It is the intent of the general assembly that licensed chiropractors utilizing unlicensed persons in their practices provide those persons with a minimum level of education and training before allowing them to operate machine sources of ionizing radiation; however, it is not the general assembly's intent to discourage education and training beyond this minimum. It is further the intent of the general assembly that established minimum training and education requirements correspond as closely as possible to the requirements of each particular work setting as determined by the Colorado state board of chiropractic examiners pursuant to this part 2.

(3) The general assembly seeks to ensure, and accordingly declares its intent, that in promulgating the rules and regulations authorized by this part 2, the board will make every effort, consistent with its other statutory duties, to avoid creating a shortage of qualified individuals to operate machine sources of ionizing radiation for beneficial medical purposes
in any area of the state.

(1) (a) The Colorado state board of chiropractic examiners shall adopt rules and regulations prescribing minimum standards for the qualifications, education, and training of unlicensed persons operating machine sources of ionizing radiation and administering such radiation to patients for diagnostic chiropractic use. No licensed chiropractor shall allow any unlicensed person to operate any machine source of ionizing radiation or to administer such radiation to any patient unless such person has met the standards then in effect under rules and regulations adopted pursuant to this section. The board may adopt rules and regulations allowing a grace period in which newly hired operators of machine sources of ionizing radiation shall receive the training required pursuant to this section.

(b) For purposes of this part 2, "unlicensed person" means any person who does not hold a current and active license entitling the person to practice chiropractic under the provisions of this article 215.

(2) The board shall seek the assistance of licensed chiropractors in developing and formulating the rules and regulations promulgated pursuant to this section.

(3) The required number of hours of training and education for all unlicensed persons operating machine sources of ionizing radiation and administering such radiation to patients shall be established by the board by rule on or before July 1, 1992. This standard shall apply to all persons in chiropractic settings other than hospitals and similar facilities licensed by the department of public health and environment pursuant to section 25-1.5-103, C.R.S. Such training and education may be obtained through programs approved by the appropriate authority of any state or through equivalent programs and training experience including on-the-job training as determined by the board. <(OK to strike date?)}
