| Kelly Kraft For Self | I am in strong support. This is long overdue and very much needed as this state gets more populated. I've had friends in near fatal car accidents due to the never ending construction on I-25 and it's a disaster trying to get to Denver from Colorado Springs. This will benefit me by having a better solution to get to the north side without being in my car. Also it will help reduce pollution. Please, please give the people this. We've been begging for a long time. Thank you! |
