

Loveland Pass, Colorado

US Highway 6 at the Great Divide

- 9.5 mile route
- Travel time in - Summer – 30 to 45 minutes
 - Winter - 60 to 90 minutes or more
- Narrow, twisting, two lane road, 7% grade, limited or no shoulders
- Many, many switchbacks with no guardrails
- Snow can occur as early as August and late snowfalls have occurred in June – blowing snow can eliminate visibility
- Highest mountain pass in the world that regularly stays open during a snowy winter season - avalanches and heavy snowfalls can sometimes block some sections of the road.
- Winds up to 100 MPH
- Avalanches are a constant threat in winter months
