

Current Practice

- Employee of Manufacturer disrupts dispensary operations by selling the samples to the dispensary and then buying the samples back for a penny, essentially obtaining free product.
- Retail Dispensary: The employee from the manufacturer can "purchase" (for a penny each) up to **8 grams** of concentrate.
- Medical Dispensary: The employee from the manufacturer can "purchase" (for a penny each) up to **56 grams** of concentrate.

HB18-1259

- Manager of facility is able to acquire **.5 grams** of a batch of product. No more than **.5 grams** can be taken from a single batch.
- Licensing Authority will establish additional inventory tracking, record keeping and reporting requirements to ensure the sample is being used strictly for quality control and product development purposes.
