**Bill Summary**

*(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at <http://leg.colorado.gov>.)*

The bill creates the Colorado nuclear workforce development and education council (council) in the Colorado school of mines to help meet growing workforce demand in the nuclear energy sector. The bill establishes a related grant program (grant program) to provide grants to institutions of higher education for the development or expansion of nuclear engineering degree or certificate programs or course offerings.

Shading denotes HOUSE amendment. Double underlining denotes SENATE amendment.  
Capital letters or bold & italic numbers indicate new material to be added to existing law.  
Dashes through the words or numbers indicate deletions from existing law.

The council shall convene advisory sessions with stakeholders from the nuclear, educational, and workforce development sectors; implement the grant program; and contract with one or more third-party entities for staffing and operational assistance.

The council may seek, accept, and expend gifts, grants, and donations for council-related purposes. The state treasurer shall credit the gifts, grants, and donations to the Colorado nuclear workforce development and education cash fund (cash fund), which is created in the bill. The general assembly shall not appropriate general fund money to implement or maintain council operations or grant awards. The council shall convene and begin awarding grants only after the balance of the cash fund reaches or exceeds \$500,000.

The bill imposes requirements to report to the general assembly about the council's funding sources, grant program implementation, and other uses of the grant program money. The bill repeals the council, effective September 1, 2033, unless the council is extended following a sunset review.

1     *Be it enacted by the General Assembly of the State of Colorado:*

2             **SECTION 1. Legislative declaration.** (1) The general assembly  
3     finds and declares that:

4             (a) Nuclear energy is a critical component of Colorado's clean  
5     energy strategy and economic development, offering consistent, reliable,  
6     and noncarbon power generation to support grid stability and emissions  
7     reduction goals;

8             (b) A highly skilled workforce is essential for the deployment and  
9     operation of nuclear technologies. Workforce readiness in engineering,  
10    radiation safety, and reactor technology is necessary to support Colorado's  
11    energy transition.

12            (c) The Colorado nuclear workforce development and education  
13    council will harness private investment, federal funding, and strategic  
14    partnerships to make the state a leader in nuclear energy workforce  
15    development. Through grants to eligible institutions of higher education  
16    and related technical assistance, the council will expand educational

1 pathways to careers in the nuclear energy sector.

2 (d) The Colorado school of mines' expertise in energy resource  
3 management, workforce development, and federal grant facilitation  
4 uniquely positions it to house the Colorado nuclear workforce  
5 development and education council; and

6 (e) By developing and expanding existing state higher education  
7 infrastructure, including degree and certificate programs and technical  
8 training, and by leveraging public and private sector collaboration, the  
9 Colorado nuclear workforce development and education council will help  
10 Colorado expand workforce readiness in the nuclear energy sector  
11 without new state appropriations, supporting long-term economic growth  
12 and clean energy innovation.
