Summary of Legislation

Under current law, the state controller may allow state agencies' expenditures to exceed their appropriation in certain circumstances, such as if an overexpenditure is necessary due to an unforeseen circumstance that occurs when the General Assembly is not in session. This bill permits the state controller to authorize overexpenditures that are necessary due to lapses in federal funding that the Joint Budget Committee determines are likely to occur when the General Assembly is not in session.

State Expenditures

To the extent that the bill results in more overexpenditures due to lapses in federal funding, the bill will increase state expenditures. Lapses in federal funding are unpredictable and may vary significantly across fiscal years. Therefore, the impact of the bill on expenditures is indeterminate.

Effective Date

The bill takes effect upon signature of the Governor, or upon becoming law without his signature.
