bureau of investigation all information shared with and received from the electronic tracing system.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 finds and declares that:

4 (a) Effective law enforcement often depends on the timely
5 exchange of reliable information among agencies in different
6 jurisdictions. This is especially true in gun crime investigations, where
7 firearms regularly move across city and state lines before being recovered
8 by police. Comprehensive tracing data enables investigators to track
9 firearm movement, identify sources of illegal diversion, and respond to
10 rising trafficking activity.

11 (b) Strengthening investigative tools available to law enforcement
12 by requiring agencies to utilize the United States bureau of alcohol,
13 tobacco, firearms, and explosives' electronic tracing system, participate
14 in its collective data-sharing features, and submit identifying information
15 for firearms recovered or confiscated in connection with criminal activity
16 is crucial as a means for law enforcement agencies to quickly share
17 reliable information;

18 (c) Standardizing the reporting and sharing of information about
19 firearms connected with criminal activity will improve real-time
20 collaboration among local, state, tribal, and federal partners, enabling
21 investigators to detect crime patterns, link related cases, and identify
22 trafficking networks and cross-jurisdictional offenders more efficiently;
23 and

24 (d) Public safety is enhanced by supporting evidence-based
25 policing, improving coordination among law enforcement agencies, and

1 ensuring that investigators have access to critical tracing and intelligence
2 data needed to solve gun crimes and hold offenders accountable.
