infrastructure. In relation to the declaration, the bill authorizes:

- Public and private ambulance services in the state to participate in, and receive reimbursement from, public safety-related systems coordinated by the department of personnel or the department of public safety;
- The disbursement of money from the emergency medical services account in the highway users tax fund to counties and cities and counties that authorize ambulance services within their boundaries; and
- The governor to direct the transfer of money from the disaster emergency fund to the emergency medical services account to finance emergency medical services needed in response to a declared disaster emergency.

The bill also updates certain definitions related to emergency medical services, including the addition of a definition of "out-of-hospital setting", which term is included in and may be used interchangeably with the existing defined term "prehospital setting".

The bill clarifies that an off-duty emergency medical service provider is not obligated to respond to the scene of a medical emergency or provide emergency medical services.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly  
3 finds that:

4 (a) The state of Colorado recognizes the critical and essential role  
5 that emergency medical service providers play in safeguarding the health  
6 and safety of our communities;

7 (b) These dedicated professionals serve as first responders during  
8 medical crises, delivering immediate and often lifesaving care to people

10 (c) Emergency medical service providers encompass a diverse  
11 range of highly trained and skilled medical personnel, including  
12 paramedics, emergency medical technicians, and other specialized  
13 medical responders.

14 (2) The general assembly therefore declares that:

1 (a) The provision of emergency medical services constitutes a  
2 vital component of the health-care system in the state; and

3 (b) Our health-care system is multifaceted, and emergency
